The ball game to be played Friday afternoon on the college grounds, beginning at one o'clock, ought to be a good one. The visiting team from Pacific University, Forest Grove, and the P. The freshman class of Pacific College recently raised a very pretty flag pole at the southwest corner of the campus on Meridian street, as their contribution to the college for the year. The pole was cut from the fir grove north of town belonging to J. L. Hoskins and was peeled and painted white before being raised. It stands 100 ft. from the ground and is held in place by cement in which it is encased below the surface. A wire cable costing \$7.50 was placed in the pulley for raising and lowering the flag. With the purchase of a flag, which has not yet been made, it will total a considerable outlay for the class, and it is a contribution that will be appreciated more and more as time passes.

In the morning before the line of march was formed the assembly gathered in front of the city hall where services were held, incident to the presenting of two beautiful flags by the city to the local camp of the American Legion. The presentation speech was made by C. R. Chapin, city attorney, and the speech of acceptance was given by Dr. John S. Rankin. In the afternoon a patriotic address was given in the G. A. R. hall to a good sized audience by Hon. B. F. Mulkey, of Portland.

EXCHANGE COMMENT

A hint in time to Dallas citizens might save a good deal of future trouble. They are holding meetings to protest against the course laid out for the west side highway through Polk county, which isolates them from the main line. Towns are slow to realize their own misfortune of location. Witness the relation of the railroad to the town of Yamhill, the former location of the railroad in relation to Forest Grove and Hillsboro, which places finally got the Southern Pacific by the beneficent influence of the coming of another road, and in the case of Hillsboro she got a bonus to boot. There are some edicts that have to be bided unless very strong pressure can be brought to bear, and in this case of Dallas it is difficult to foresee what that might be. It seems to have been placed on Oscar Hayter's shoulders to find out.

In spite of Hoover's withdrawal from Oregon as a presidential candidate he seems to have polled over 8,000 votes. A splendid testimonial to his worth and the judgment of the people as to his worth. Many persons want Hoover because they believe him best qualified for the presidency and the longest forward look of any candidate for the business interests of the country. He never opens his mouth without saying something of business value. To him belongs the credit for awakening the country to the dangers resulting from allowing Great Britain to gobble up all the oil resources of the world. He knows our domestic conditions and those of other countries, and how to make a just and equitable adjustment between them. If Hoover should be nominated at Chicago, no one need lament—Telephone Register.

Penitentiary Farm's Success.

Included in the report of the governor of the Edmonton, Alberta (Canada), penitentiaries to the superintendent of penitentiaries is an interesting paragraph dealing with the farm operations carried on at the penitentiary as well as its mining operations. Some 70 acres were under cultivation during the past year and were farmed with gratifying results. From this small acreage, after buying a tractor and stubble plow at a cost of \$1,314, "we show a net profit of \$4,191.17. From 9 1/4 acres of wheat we thrashed 45 bushels to the acre, and from 11 acres of potatoes we sold 3,500 bushels. Our oats yielded 85 bushels to the acre, and the amount of small vegetables was exceptionally good. Our intensive farming has been very profitable."

Hawaii Led in Prohibition.

Historians of the Hawaiian islands assert that an Hawaiian monarchy was the first government in the world to put absolute prohibition into effect. Kamehameha the Great, first king of United Hawaii, in 1795, after having conquered all the other islands, issued an edict imposing prohibition. Its penalties were drastic. An offender was stripped of his property, real and personal, and was driven from his village clad only in a loin cloth. In later years foreign nations forced liquor on the Hawaiians and its sale was general in the islands until the great war, when, with the opening of the army training camps on the islands, prohibition went into effect.
