MURDER MADE EASY MATTER

With Formula Possessed by English Chemist, Slayer Might Laugh at Human Law.

The lunch-time conversation of the scientists at the national physical laboratory, Teddington, shifts daily to all sorts of interesting subjects, and it was inevitable that the topic of murder should have been suggested by the "wave crime" in Great Britain (an epidemic that amounts to less than one homicide a week).

It was agreed that all the murders reported in the daily papers were commonplace, dull, sordid affairs, showing no ingenuity and deliberation. "If I had a murder to commit, how should I go about it?" became the theme.

The metallurgists, electricians, radiologists, physicists and other scientists had many astounding murder methods, but with a common weak point, writes an English correspondent. None of them disposed of the body so that detection would be not only improbable, but impossible.

It remained for a chemist to solve the problem. "I would not be so clever as you in the assassination itself," he said. "Any quick way of silent dispatch would do. But I could swiftly dissolve a body, bones and all, so that it could be poured as a liquid into a sewer and be thoroughly done away with. No; I mustn't give the formula." He was the victor in the discussion.

MADE THEIR OWN OIL WELL

How Two Small Boys Reaped Rich Reward for the Exercise of a Little Ingenuity.

Two barefoot boys, respectively eleven and twelve years of age, earned forty-five hundred dollars in one week, according to the Oil Weekly of Dallas, Texas, by combining thrift and ingenuity in a telling manner. Much oil was going to waste in the Northwest Burkburnett oil field because the pipe lines were inadequate, when the boys, who are brothers, saw crude oil from a broken pipe running down a small ravine. Hitching a donkey to a rattle-trap spring wagon, they began to haul dirt to dam the ravine and succeeded after much hard work in collecting a great quantity of oil.

The owner appeared on the scene about that time, and he admired the pluck of the youngsters. He did not claim the oil outright, although it had been his, but offered the youngsters one dollar and a half a barrel salvage for it. The youngsters accepted his offer and, perching themselves on their new dam with stubs of pencils, checked out the oil as it was hauled away. It tallied exactly three thousand barrels, and the boys got their money.

Fewer Figs Reach Market.

The fig yield of the vilayet of Aiden has risen from approximately 9,000 tons raised on 16,000 acres of land about thirty years ago to about 23,000 tons raised on 25,000 acres. However, this advance in supply has not kept pace with the demand, and prices of figs have steadily risen. The big producing areas are, under normal conditions, exclusively tapped by the Ottoman (Aiden) Railway company's system. The orchards, located mainly in the Meander valley, are owned chiefly by Turks. The best figs are produced in the Inovassi and Ortaxe districts. The product is marketed in Smyrna, where the figs are packed in accordance with the demand of the region to which the figs are exported. Blight, neglected fertilization and lack of communication have cut down this season's export output to about 10,000 tons. Exports went to the United States (about 4,000 tons), the United Kingdom (5,500 tons), and European entente countries (about 1,000 tons).

The Newberg Graphic does fine job printing.

HOUSEHOLD HINTS

If crumbs are always saved from the bread plate and put in glass jars you will have a surprising lot in a short space of time. Bake in moderate oven one-half hour.

To remove old putty from window frames, pass a red-hot poker slowly over it and it will come off easily.

Custard can be kept from curdling if the cups in which it is to be baked are put into a pan half filled with cold water instead of hot.

One-quarter pound of copperas dissolved in two quarts of boiling water is the best thing for cleaning out a clogged sink drain.

A tiny pinch of salt added to cream just before whipping will make it whip to surprisingly large bulk.

A wheel tray is a step saver. Winter is a good time to get one made.

A jelly glass or preserve jar inverted over the milk bottle is a simpler way of protecting the milk than by replacing the paper cap.

Bath mats may be made from the good portions of worn bedspreads, bound at the edges.

If the kitchen table is too low, blocks of wood may be fastened to the legs. If it is too high, cut down the legs.

The school girl who is sensibly dressed is well dressed. Jap crepe, gingham, pique, poplin, galatea and chambray in fast colors are suitable materials.

To keep cakes from drying place half of an apple in cake chest.

When cooking apple sauce add a few whole cloves to improve flavor.

In cooking string beans add a pinch of soda to make tender.

Good results are obtained from using steel wool to remove stains from dishes, especially aluminum ware.

In folding clothes for ironing, much unnecessary work will be avoided if not rolled so tightly as to make a lot of wrinkles. Using a little care often saves time.

During these cold days, when our hands are quite apt to get rough, keep a little oatmeal in water on the back of the stove for washing the hands when the kitchen work is done. Will keep hands white and smooth.

A good way to dispose of accumulating souvenir post cards and give a bit of pleasure, too, is to paste the cards together—nice job for little people on a stormy day—and send to hospitals for the children to while away tedious hours. Mission workers like them for the poor children.

Is It Still Coffee?

Two young men walking along Chestnut street the other evening met two girls, recent acquaintances, dressed in height of fashion—fur coats and hats, expensive looking shoes, and invited them to go to a high-class restaurant.

The girls agreed and after they had finished eating, they were asked if they would enjoy a demi-tasse.

They looked at each other. "Is it some sort of sundae?" inquired one as though there might be some hidden joke in the invitation.

"I don't think it would go good after a hearty meal," said the other.

The young fellows gave it up. "Would you like some coffee?" asked one of them.

"Sure," replied the girls in chorus, "that's what we was waiting for youse guys to ask us."—Philadelphia Record.

SUSPENDED PAYMENT IN CASH

How British Government Saved the Situation When Country's Financial Solvency Was Threatened.

In the great war which England commenced with France in 1793, the first four years saw £400,000,000 added to the national debt, without any material advantage being gained. So much coin had left the country for the payment of troops abroad and as subsidies to allies that the bank, during 1796, began to feel a difficulty in satisfying demands made on it. At the close of the year people began to hoard coin and to make runs upon the county banks. These applied to the Bank of England for help, and the consequence was that a run upon it commenced in the latter part of February, 1797. This great establishment could only keep itself afloat by paying in sixpences. Immediate insolvency was expected, when on February 26, the government stepped in with an order in council authorizing the notes of the bank as legal tender until such time as proper remedies could be applied. This suspension of cash payments was attended by the usual effect of raising the normal prices of all articles.

World's Races Divided.

Amphiscians are the people who inhabit the tropics, whose shadows in one part of the year are cast to the north and in the other to the south, according as the sun is north or south of their zenith.

The antiscians are the inhabitants of the earth living on different sides of the equator, whose shadows at noon are cast in contrary directions. Those living north of the equator are antiscians to those living south of that line, and vice versa. The shadows on one side are cast toward the north and upon the other toward the south.

The ascians are the people who live in a land where, at a certain time of each year, they have no shadows at noon. All the inhabitants of the torrid zone are ascians, they having a vertical sun twice a year.

The periscians are the inhabitants of the polar circle, whose shadows during some portions of the summer must in the course of the day move entirely around and fall toward every point of the compass.

Island of Crete "Upending."

In the course of a discussion on the subject of Crete at the Royal Geographical society, Prof. L. J. Myres described two remarkable changes of ground level that have occurred there since classical times, says the Scientific American.

The whole island has swung upon an axis, the eastern half sinking and the western rising, so that whereas at Hierapetrus and Spinalonga the ancient quays and harbor works are now under water, the little Greek harbor of Phalassarna, at the west end of the island, is now totally upheaved, so that one can walk about on the floor of the ancient harbor, upraised and dry.

Incredulous Lady.

"Why do you sit at a outja board when you might be enjoying interesting conversation? You can't believe a thing the toy says?" "Well," replied Miss Cayenne, "I mightn't believe the conversation, either."

Notice of Guardian's Sale

Notice is hereby given that the undersigned guardian, pursuant to an order of the County Court of Yamhill County, Oregon, duly made and entered in the matter of the guardianship of the estate of James Lloyd Sawyer and Paulmer Burtess Sawyer, non-resident Minors, on the ninth day of April, 1920, will from and after the 6th day of July, 1920, at his office at United States National Bank of Newberg, Newberg, Oregon, offer for sale and sell at private sale for cash in hand, subject to confirmation of the above named Court, all the right title and interest of each of said Minors in and to the following described premises:

1. Lots 10, 11, and 12, in Block One in Deskins' Fourth Addition to the Town of Newberg, Yamhill County, Oregon.
2. Beginning at the Southwest corner of Lot 9 in Block One, Deskins' Fourth Addition to the Town of Newberg in Yamhill County, Oregon; thence East, parallel with the North Line of said Block One, 120 feet; thence North 50 feet; thence West, parallel with the North Line of said Block, 120 feet, to West Line of said Lot 9; thence South 50 feet to beginning.
3. Lots 7 and 8 in Block 9 in Deskins' Second Addition to the Town of Newberg, in Yamhill County, Oregon, saving and excepting, therefrom, the following described part thereof: Beginning at the Northeast corner of said Lot 8 and running thence South along East line thereof, 45 feet; thence West 100 feet, parallel with the North line of said lots; thence North 45 feet, parallel with the East line of said lot 8; thence East to the place of beginning.

Dated this 3rd day of June, 1920.
S. L. Farrett,
Guardian of estate of said Minors.

Another Royal Suggestion
BISCUITS, BUNS and ROLLS

From the NEW ROYAL COOK BOOK

BISCUIT! What delight this word suggests. So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These are the kind of biscuits anyone can make with Royal Baking Powder, and these unusual recipes.

Biscuits

2 cups flour
4 teaspoons Royal Baking Powder
1/2 teaspoon salt
2 tablespoons shortening
1/2 cup milk or half milk and half water

Sift together flour, baking powder and salt, add shortening and rub in very lightly; add liquid slowly; roll or pat on floured board to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

Royal Cinnamon Buns

2 1/2 cups flour
1 teaspoon salt
4 teaspoons Royal Baking Powder
2 tablespoons shortening
1 egg
1/2 cup water
1/2 cup sugar
2 teaspoons cinnamon
4 tablespoons seeded raisins

Sift 2 tablespoons of measured sugar with flour, salt and baking powder; rub shortening in lightly; add beaten egg to water and add slowly. Roll out 1/4 inch

thick on floured board; brush with melted butter, sprinkle with sugar, cinnamon and raisins. Roll as for jelly roll; cut into 1/2 inch pieces; place with cut edges up on well-greased pan; sprinkle with a little sugar and cinnamon. Bake in moderate oven 20 to 25 minutes; remove from pan at once.

Parker House Rolls

4 cups flour
1 teaspoon salt
4 teaspoons Royal Baking Powder
2 tablespoons shortening
1 1/2 cups milk

Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients stirring until smooth. Knead lightly on floured board and roll out 1/4 inch thick. Cut with biscuit cutter. Crease each circle with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

Executor's Notice

Notice is hereby given that the undersigned, J. L. Hoskins, has been duly appointed executor of the last Will and Testament of Simon Stevens, deceased, by the County Court of Yamhill County, Oregon, and has qualified.

Now, therefore, all persons having claims against the estate of said Simon Stevens, deceased, are hereby notified and required to present the same, with the proper vouchers, to the undersigned executor at his residence near Newberg, Yamhill County, Oregon, within six months from the date of this notice.

Dated this 27th day of May, 1920.

J. L. Hoskins,
Executor of the last Will and Testament of Simon Stevens, deceased.

Clarence Butt,
Attorney for Estate.
First Issue May 27.
Last Issue June 24.

To the Public

Notice is hereby given that Ketchum, Graham & McCormick, partners, doing business under the head of K. G. & M. Logging Co., have dissolved partnership and that Ketchum & Graham will continue with the operation but will not be responsible for any debts contracted by anyone except themselves after this date.
Newberg, Oregon, May 6, 1920.
J. S. Graham,
33 pd H. F. Ketchum.

Administrators' Notice of Final Settlement

Notice is hereby given that the undersigned, John Larkin and George Larkin administrators with the Will annexed of the estate of John S. Larkin, deceased, have filed their final account as said administrators in the county court of Yamhill County, Oregon, and that said court has appointed Monday, June 21, 1920, at 11 o'clock a. m. of said day as the day and hour for the hearing of objections to said final account and the settlement thereof.

Now, therefore, all persons interested in the estate of said deceased are hereby notified and required to appear at the County Court room, at the Court House at McMinnville, said County and State, at said time, to then and there show cause, if any there be, why said account should not be settled, allowed and approved and said estate forever and finally settled and said administrators and their bondsmen discharged.

Dated May 20, 1920.
John Larkin and
George Larkin,
Administrators with the Will annexed of the estate of John S. Larkin, deceased.
Clarence Butt,
Attorney for Estate.
First Issue May 20.
Last Issue June 17.

Page 211
Australia and Great Britain have each undertaken to spend up to \$250,000 in connection with Papuan oil development and two British geologists will probably begin work in the immediate future, pursuing the experiments already made by the commonwealth. Papua and the Pacific Islands generally are interesting the universities of Australia which are considering the need for the study of anthropology and of native customs and languages. As a groundwork for such an investigation there exist an interesting series of governmental reports by patrol officers and other official pioneers of the new Pacific.
