Look at the roads for twenty miles around on a Sunday

THERE isn't any "country" any more. The automobile has brought the most remote settlement almost as close to the center of things as the next county was in the old days.

They make no distinction between the *small car owner* and the owner of the *biggest car in the country*.

It's all the same to them. So long as a man owns an automobile—large or small—he is entitled to the very *best tire* they can give him.

To hear some tire dealers talk you might think that nobody knew anything about tires except the fellow from Broadway.

Quality has always been the *outstanding feature* of U. S. Tires. There's *no limit* on the U. S. guarantee. All U. S. Tires are guaranteed *for the life of the tire*.

That's not the basis we go on.

We give every man credit for knowing *what he is spending his money on*, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

That's one thing we like about U. S. Tires.

Drop in the next time you're down this way and let us tell you some interesting facts about tires.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.
