

Carefulness is a Caution

THE man or woman who spends or invests carefully is but being cautious. He or she would rather be safe instead of sorry. This is a time for carefulness for conditions are gradually changing over the country and a reaction would first be felt by those who are going it blindly.

One of those U. S. National Savings Accounts is always a sign of carefulness. It helps your money grow bigger instead of smaller.

Cross country touring brings no sense of weariness or fatigue to the tourist that uses a **DODGE BROTHERS MOTOR VEHICLE**. The car has unusual roominess. The depth and softness of the real leather upholstery, the buoyancy of the springs and the design of the seats, together with the quiet running of the powerful engine, make one unmindful of distance.

sugar bill of \$100,000,000. If, instead of 12½ cent sugar the people must pay 25 cents, the difference will amount to \$1,250,000,000. If some allowance be made for prospective lower prices before the year is through, the country's loss, as computed by authorities on this subject, will still be approximately \$1,000,000,000.

Notwithstanding these sky-rocketing times, a billion dollars is a lot of money. It would construct several irrigation projects of the magnitude of the Columbia basin enterprise. It would, in fact, on the basis of existing high costs, reclaim half the arid lands of the west for which water is available.—Spokesman Review.

LIBRARIES FOR INDUSTRIAL WORKERS

Recognizing the extension service among industrial workers as a contributing factor in allaying social and industrial unrest, the American Library Association of New York has just announced plans for an intensive campaign to encourage library facilities in all large manufacturing plants. Particular stress is to be placed upon the introduction of books dealing with social and industrial problems, in an effort to broaden the factory worker's outlook in the industrial world, and also to bring about a proper attitude toward existing economic and political conditions.

Many large industrial concerns already have such library facilities, principal among them the Goodyear Tire & Rubber Company, which maintains two large libraries for the use of its 30,000 employees.

The Goodyear factory library contains over 1,600 books and 8,000 catalogues in addition to over 80 current periodicals. Its collections cover the fields of aeronautics, labor, mechanics, chemistry and rubber, in so far as these relate to the company's products, and all information is filed so as to be readily accessible. All current technical periodicals are listed to employees who need them, while newspaper clippings are collected and filed so as to supply information on any subject that may come up in the conduct of the rubber industry.

Tires for the Smaller Cars— Built With Goodvear Methods

In using its immense resources and inventive skill to build the highest relative value possible into tires, this company has never made its work more effective than in Goodyear Tires for the smaller cars.

These have the full advantages of Goodyear competence and care, plus the modern facilities of the factory we are devoting to the world's largest production of 30x3-, 30x3½-, and 31x4-inch sizes.

The sum of this extraordinary effort is available to you, as the owner of a Ford, Chevrolet, Dort, Maxwell, or other car using these sizes, at the nearest Goodyear Service Station Dealer's place of business.

Go to this Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He is ready to supply you.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$2350

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$2150

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water- \$4.50 proof bag
