The farm on which this crop was grown is one of the oldest in this section having been taken up by Richard Everest in 1847 and is still producing excellent crops.

Do You wish to Have Good Eyes at Seventy?

If you neglect machinery and work it under a strain it wears out before it should. There is absolutely no machinery half so delicate as your eyes. If they need care it is criminal to neglect them. You can neglect your teeth (which you never should) and get false teeth, but not so with your eyes. **COME IN TO DAY** Yours for better eye service
