

HOW TO KNOW THE BEST PAINT

How are you going to know you are getting the best paint—the kind that will wear longest and cover most surface per gallon? You can't be sure of lead-and-oil hand-mixed paint. There is too much chance for adulteration and, besides, hand-mixing is never twice alike. But you don't take chances when you buy

Low Brothers High Grade Liquid Paint

It's the result of 35 years of paint making experience and you can be absolutely sure of what it will do. It is so perfectly ground—the oil and pigments so perfectly combined—that it works better and adds better—covers from 30 to 100 more square feet per gallon—and looks prosperous and beautiful for years longer than ordinary paints.

We are exclusive agents for "High Standard" Paints and "Little Blue Flag" Varnishes.

Parker Hardware Co.

NEWS AROUND STATE

Death of A. J. Gatchell.
Lebanon, Ore., April 8.—Mrs. Annie Greer has received news of the death of her son, Andrew J. Gatchell, at Lethbridge, Canada, Monday. His brother, A. J. Gatchell, left to attend the funeral. A. J. Gatchell was a former resident of Lebanon. He was unmarried and is survived by his mother, Mrs. Annie Greer, and six brothers and sisters. A. A. Gatchell of Lebanon, Will Gatchell of Woodburn, Dr. L. W. Gatchell of Bend, Mrs. Alice Shaw of Crescent City, California, Mrs. E. E. Register and Miss Flora Gatchell of Lebanon.—Woodburn Independent.

Working On Highway.
Fred Scofield reports satisfactory work being done on the new road between Yamhill and Newberg. The grading is being finished and it will be gravelled this season. This will shorten the road to Newberg to about ten miles, while by way of the paved road to St. Joe it is about twenty-two miles. This will also be the shortest way from Yamhill to Portland.—Yamhill Record.

Hurt in Falling From Auto.
Former Mayor C. Tilbury, who is sojourning in Los Angeles, Calif., was

the victim of an accident in falling from an automobile and broke a shoulder and sustained other severe injuries. A recent letter to his daughter, Mrs. Leonard Fink, states that he is rallying well from the severe shake-up. Mrs. Tilbury, too, underwent an operation some weeks ago, and is doing as well as she can under the circumstances. The friends of Mr. and Mrs. Tilbury, who are legion, regret that these unfortunate happenings have marred their stay in the southland.—News-Reporter.

Snowbound Up North.
Walter Culver, a McMinnville boy, who is in the government service in Alaska, where among his duties, he is overseeing reindeer domestication, while driving a herd of 2,000 reindeer got snowbound at Port Hayden. The trip to bring the herd to their destination is about five months' trip from the final destination of the reindeer. Fortunately the reindeer understands how to keep alive even in a snowstorm. If 2,000 cattle were to get snowbound nearly all would perish. Mr. Culver is a son of Mr. and Mrs. F. D. Culver of this city.—McMinnville News-Reporter.

Working on Three-Mile Lane
Cummins & LaPoint, road contractors, are making fine progress on the hard surfacing of the Three-Mile lane which will connect McMinnville with the Tualatin highway. The surface is of concrete and the big mixer is proving a big help in dispatching the work. If the gravel can be gotten right along without delay and the good weather prevails for some time to come, that section of the road will be completed ahead of the scheduled time.—McMinnville News-Reporter.

A new economy in motor car operation

The manufacturer of your automobile recommends, in the Instruction Book for your car, that the crankcase be drained out and flushed and then refilled with fresh oil at regular intervals.

This is necessary because engine operation causes a steady accumulation of road dust, carbon, fine metal particles and other impurities in the crankcase oil. This gritty oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

But cleaning the crankcase is a job generally disliked and neglected.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the correct grade of Zerolene.

Look for the garage or dealer displaying the sign shown below—it means "Better operation and longer engine life."
