The McMinnville Telephone-Register makes editorial comment upon the fact that small boys on bicycles impede the progress of the fire apparatus in that city. McMinnville should follow in the steps of Newberg and pass an ordinance requiring all traffic to park during a fire call. There is no other way to solve the problem satisfactorily.

Seth Mills and family have gone to the coast for an extended outing and fishing trip. They are located on stub creek near Oretown. Miss Myrtle Mills who returned last week from Earlham College, Richmond, Indiana, where she took her master's degree, accompanied her parents for an outing and recreation. Miss Mills has been engaged to teach next year in Penn Academy at Oskaloosa, Iowa. Lloyd G. Armstrong, the Mills' son-in-law, and family were also in the party.

Dave Smith of the Newberg Bakery is sporting some fine new wrappers for his bread these days. They are printed in colors and says "Newberg Made" diagonally across the loaf, while the name of the bakery appears underneath. Mr. Smith states that one merchant increased his sales greatly the first day he adopted the new wrappers and the appearance of an article certainly does make a big difference to the buyer. We can congratulate Mr. Smith upon his new exhibition of progressiveness and the people of Newberg upon their possession of so good a baker.

C. L. Chase is bearing a new name with much dignity the past few days. It is said that the name was first given him in McMinnville and has spread to Newberg. Mr. Chase seems to be proud of the name and has added several inches to his chest since its adoption. It all came about with the arrival of a son on last Thursday night. This being his first child the name father sets with added weight upon him. Mrs. Chase was formerly Miss Juanita Wood of McMinnville, being the daughter of Dr. J. T. Wood of that place. The new son is a bouncer and weighed in at nine pounds. Jean Larry is the youngsters new name.

W. T. West, who operates a fine ranch on the Portland road east of town, brought in a branch of prunes the first of the week. These are of a new variety which he is raising with considerable success. They are the Burbank Standard prune and are a cross between the sugar prune and the tragedy. Mr. West purchased one tree nine years ago and by grafting he now has 800 trees in bearing and has sold many scions. The last year he had one prune which measured three inches in length and he says that he will have many of that size this year as the season is better. The branch, which is only about two feet long has over seventy prunes on it.

LOSSES FROM FERTILE EGGS

The greatest investment in the world for you is money you spend to relieve eye strain.

For any machinery forced to run under a strain wears out much sooner than it should. Above all, you do not want your eyes to wear out before the rest of your body which is the case of thousands just because of neglect.

If you take care of your eyes they will be the best part of your body at the age of seventy. When you are not able to work, it will then be a blessing to read and enjoy life. You cannot afford to neglect or put off the care of your eyes.

CLUB MEMBERS SECURE PIGS

Registered Animals Given to Boys and Girls in Mississippi—Scholarship at End.

A public-spirited man in Fayette county, Mississippi, gave six registered pigs to the boys' and girls' pig-club work last year, with the understanding that each one who received a pig was to give back to the club one pig from the first litter and one from the second. The donated animals were drawn for by members from each beat and one from the county at large. The recipients were very proud of their pigs. The six from the first litters were distributed in December. If the plan is continued for five years it is estimated that 204 registered pigs will be given away at the close of that time, and it is hoped that purebred hogs will be found on every farm in the county. If these plans mature as is hoped, the 204 which will be available for gifts at the end of the five years will be put up at auction and the proceeds used for a scholarship to the State Agricultural and Mechanical college, which will be awarded yearly to the winner of the county pig-club championship.

ALFALFA AS HORSE ROUGHAGE

Plant Is High in Protein and Minerals and Is Especially Good for Young Stock.

Alfalfa receives great favor as a horse roughage. It is high in minerals and protein and is especially good for young stock. Because it is laxative in effect and high in protein, it is always best to limit the amount of alfalfa to one-half or two-thirds of the total hay ration. The rest may be timothy hay. Use alfalfa with a ration that is low in protein. Corn as a grain and alfalfa as a roughage make a balanced ration.

Why Suffer FOOT DISCOMFORT

Genuine relief for tired aching, swollen feet is yours at very little expense.

Rexall Foot Bath Tablets used in a foot bath at night bring comfort to tired feet.

Rexall Foot Powder dusted in the shoes in the morning absorbs perspiration, allays inflammation and tends to prevent tired swollen feet which are so disheartening.

These two preparations used as directed make foot work a real pleasure.

If corns are present it is so easy to remove them with Rexall Corn Solvent.
