NEWBERG, YAMHILL COUNTY, OREGON, THURSDAY, JULY 7, 1921

No. 40

COOPERATION TO MAKE SUCCESSFUL FESTIVAL

COUNTRY WILL BENEFIT GREATLY

Communities All Unite in Big Organization to Make Known Berry Industry of Section

There is only time for a few last minute preparations now before the day for Newberg's first big berry festival is here. And it will be a big day for there will be literally thousands of people in from the surrounding cities and communities to be shown what this community can do in the way of providing entertainment and what it can raise in the way of fruits and berries. And we are sure going to show them.

Perhaps never before has Newberg had so good an opportunity to display her products as this one offers. Probably never before have so many people from outside of our own community been gathered together at one time as will be here day after tomorrow. The fame of the Berrians has gone broadcast throughout the state because of their success in entering their float in the Rose Festival parade and as a result people are coming to Newberg from all parts of the state to attend this first berry festival and we cannot and will not disappoint them.

Nor is it Newberg alone which will profit from this festival, for outside of the little extra money which may be spent among the merchants on that day there will be little return to the city itself and probably that little will be more than offset by the money which the merchants have donated to assure the success of the festival. But the farmers will benefit from it for thousands of crates of berries should be sold to our visitors on that day and this should be merely the beginning of the sales which may accrue from the impetus given by the festival.

We protest against any idea regarding the festival which would give the impression that it is merely a pleasure event. It is not. First, last and all of the time there has been foremost in the minds of the Berrians the idea that the berries were the important thing under consideration. We hope that the farmers and berry growers will take this same view and will do their very best to have on exhibition and for sale the very best fruit of all kinds that they have in their orchards and vineyards and patches. Let's make good our declaration that the Newberg section stands without equal for quality of berries. And let's demonstrate to Portland and other cities that here they may find a place to buy the kind of berries and fruits that they want.

There is no question about it, we can show them, if the growers will only realize the importance of doing so, and make the necessary effort. This is a busy time for the farmers, but a berry festival must be held when the berries are ripe and every one will realize this and the importance of doing his best to show the visitors what we raise and have for sale.

Some farmers have said that there is no use and that what we might sell on that day would be only a mere drop in the bucket compared to the great amount raised. We will admit the truth of this, but a start must be made somewhere and nothing big can be done until the foundation is first laid. There is an intangible value which may be counted upon for the future from this berry festival. Portland and surrounding country, including the large territory reached through her commission houses can handle vast amounts of fruit and berries and why shouldn't Newberg take advantage of this market. We need only to impress these people with the superiority of our fruits and berries to make them demand Newberg products and when we say Newberg, we would include Dundee, Springbrook, Chehalam Center, West Chehalam and all of the surrounding territory. There is no desire on the part of Newberg to belittle any of these communities, but just as the United States is greater than any one of its component states so should our idea of this community be greater than anyone of its integral sections. All of these communities to a greater or lesser extent, center in Newberg and for this reason it is much easier to build up a reputation using the name Newberg than it would be to try and establish reputations and identities for each separate community.

Springbrook is undoubtedly entitled to great credit for her fine berry patches; Dundee for her prunes and walnuts; and West Chehalam for her apples, but it would be hard indeed to establish these reputations on the outside for each individual community. Let's all pull together and establish a reputation for the growing of all of these things. For it should be borne in mind that while perhaps each of these communities lead in the production of the thing named, they do not have a monopoly on it by any means. For example, prunes are raised quite extensively throughout the entire valley; berries are raised along the river and in the Chehalam communities as well as at Spring-

CITY COUNCIL CONSIDERS PAVING RIVER ST.

WOULD CONTROL CONVEYANCES

Regular Bills Allowed and Ordinances Considered—Adjourned Until Monday, July 25th

The city council met on Tuesday evening of this week to transact their regular business. It being regular monthly meeting, the usual bills were presented and all were allowed.

An ordinance relating to public utility vehicles was introduced and passed through the first reading and then laid upon the table for investigation. This ordinance defines a public utility vehicle as any auto, auto-bus, jitney, omnibus, autostage, autotruck, taxicab, or other vehicle drawn by any motive power whatsoever, (including vehicles drawn by horses or other animals) and used as common carriers. It excepts railroads, street railway cars, hotel busses, autos used exclusively as taxicabs and operated exclusively in the city, and sightseeing cars exclusively, and auto busses engaged in transporting school children between country homes and the school district in which their school is situated. Under the terms of the ordinance it would be unlawful after August 1, to operate a public utility vehicle in Newberg without a franchise. The act makes no specific provision as to what charge, if any, shall be made for such a franchise and the origin of the ordinance seems to be unknown. Opposition developed at the meeting to the passage of the ordinance.

L. G. Newlin was the only bidder for the contract for improving west Fifth street and the contract for this work was let to him.

An ordinance, requiring all persons having roofs, which drip on the sidewalk, to install proper drains, was passed.

Authorization for a contract with the electric company for pumping water for city use during such period as it is required was granted.

The paving engineer presented plans and specifications for paving south River street. The plans presented contemplated full width pavement "as far south as Sixth street and eighteen feet from there to the city limits. However, property owners who were present objected to this plan and so the engineer was instructed to draft plans contemplating full width pavement the entire length. Remonstrances against this paving project will be heard at the council meeting which will be held on Monday evening, July 25.

The council adjourned to meet on July 25th.

BERRY EXHIBITS TO BE AT THE CALKINS GARAGE BUILDING

After the large bills advertising the berry festival had been printed, it was necessary to change the plans and hold the exhibits at some other place than that designated on the posters. After taking the various available places under consideration, it was finally decided to arrange the exhibits in the west half of the Calkins garage building on Main street as this was the most central and would give plenty of room for displays. This will be fixed up for the entries and everything will be done to make the exhibits appear at their best.

The free berries and cream and the berry sales will be conducted on the vacant lots adjoining the Graphic office on the west and running over to the old Dayton road thus giving ample room as well as a central location for these purposes. The committees are working hard to insure the success of this most important part of the festival, and the cooperation of the public is urged to help with this. While the berries and cream are to be served free to the public, it is hoped and requested that the local people will not take undue advantage of this feature of the festival as it is the aim of the festival committees to make this attraction largely for the outside people who are our guests on that day. Of course no attempt will be made to prevent any local people partaking in the free berries and cream service, but this appeal is made to the spirit of loyalty of the home people to help in keeping this expense within bounds by not participating themselves.

CHAUTAUQUA TICKETS

The sale of season tickets for Chautauqua will open Monday, July 11, and will continue until noon Saturday after which time the price will be advanced. Those who subscribed last summer for this year's tickets are requested to make early application for their tickets so that the committee may as promptly as possible get a line on this season's returns. Tickets will be on sale at the drug stores and at the banks in Newberg and can be secured at C. E. Newhouse at Springbrook and G. A. Dearborn at Dundee. Interest manifested by people generally in this year's program as announced seems to be unusually great.

Chautauqua Committee.

BERRY FESTIVAL PROGRAM PROMISES A BIG DAY FOR NEWBERG—CROWDS ARE COMING

PARADE AT 10 A. M., CROWNING OF QUEEN AUBREY, ADDRESS, FREE BERRIES, EXHIBITS, SPORTS, BAND CONCERT, SHOWS, CONCESSIONS—FUN FOR EVERYONE

From the moment the parade starts at 10 a. m. Saturday morning until the last event is staged that evening, there will not be a dull moment in the entire day's program during Newberg's first annual Berry Festival. In fact we doubt whether it will be at all possible to cram into the space of time allotted for the program, all of the events scheduled by the committees. It is certain that no one person will be able to take in everything which will be offered on that day and out of the assortment of entertainment offered one can get almost anything which may appeal to them.

Street Parade

At 10 a. m. the band will start playing and the parade will get into motion and the program will be on its way. The parade will wind its way, as described elsewhere in this paper, about the principal streets and wind up at the city tourist park where the program and morning events will be held. The first thing at the park will be a band selection. Then will come the crowning of Queen Aubrey 1st at which time Mayor Calkins will turn over the keys of the city to her royal highness. Following this Chief Black Cap Ralph Butt will introduce the speaker of the day, Julius L. Meier, who is the president of the Atlantic-Pacific Highways and Electrical Exposition which will be held in Portland in 1925. Mr. Meier's address will occupy the time up until the noon hour, when the free berries will be served to the city's guests on First street and adjoining the Graphic office.

Prize Awards

In the afternoon the program will start at 1 p. m. with the awarding of the prizes for the exhibits, which will be on display at the Calkins garage. At 1:30 the sports and stunts will start on the down town streets. Chairman Tom Tyndall of the stunts committee has some excellent entertainment to offer the crowds at this time. There will be a motorcycle broad jump in which a half dozen motorcycles will compete. This is something new and you'll want to see it. Then there will be a motorcycle tug of war in which a number of motorcycles will compete. Following this will come the obstacle race which should afford all kinds of amusement. Boys will be entered in this contest and they will have to run from a given point to a platform climb up on this and with hands behind them eat berry pies and then climb down and run back to the starting point.

Baseball Game

At 2:30 p. m. will occur the big ball game between McMinnville and the Newberg-St. Paul team, which will be held at the college diamond. Any person who has lived in Newberg any length of time knows all about the spirit of rivalry which exists between Newberg and McMinnville and which in itself should insure an excellent game. The Newberg-St. Paul team is a real baseball aggregation and one which

it is a real pleasure to watch in action and we understand that McMinnville is coming down with the avowed determination of humbling the locals and that they are strengthening their team with the addition of players from other clubs in the south end of the county. This is the only event of the day at which an admission charge is to be made and this is necessary to cover the expenses of the teams and getting the diamond in shape, etc.

Tug of War Contests

At 5 p. m. there will be the tug of war with the Salem Cherrians endeavoring to pull the Berrians into the water. This event will be held at the park in the canyon by the highway bridge. The location is excellent as it not only provides a place where water is accessible but the high canyon walls and the bridge itself offer an excellent opportunity for spectators to view the contest. The Prunarians of Vancouver have sent word that they are coming down about forty strong and that they would like to challenge the winners in this contest to a pull. This will add to the interest of this event and judging by the team which manager Tyndall has secured it will be a case of a big pull on the part of either of these visiting organizations if the Berrians lose.

Water Fight

At 7:30 in the evening there will be a water fight on the street between the McMinnville and Newberg fire departments and this will no doubt be bitterly contested and an interesting event. A band concert will round out the day's program so far as the Berrians are concerned. However, there will be many attractions and entertainments provided by concessions and shows to keep everyone interested until the midnight hours.

Shows and Concessions

Among the shows and concessions are such things as a dog and pony circus, a merry-go-round a Hawaiian show, the Baker Stock Co. of Portland, and many different side shows and attractions. Throughout the day an aeroplane will make flights over the country, giving its patrons an excellent view of the berry patches, orchards, etc. in this vicinity.

And we have left the best part of it until the last. Everyone will want to visit the berry exhibits at the Calkins garage and see what wonderful fruit and berries are raised hereabouts and what large varieties and quantities of these can be secured from growers right here in Newberg. Yes, it will be one big day—a day crammed full of good things and no one can afford to miss it. Everyone is entering heartily into the spirit of the day and the splendid cooperation of the people is assurance in itself that it will be a great success and that we will be able to show our guests from over the state a really good time and open their eyes to the wonderful productivity of this section.

SUCCESS OF THE BERRY FESTIVAL NOW ASSURED BY FUNDS

The finance committee completed their solicitation of the business houses and town people for funds for the berry festival Thursday noon and are greatly pleased with the generous response which they received everywhere. Over \$400 was raised among the business people of Newberg to make certain the success of the festival. In addition to this the business people have cooperated in decorating and doing an endless amount of work in helping put the festival over. The Berrians appreciate this loyal support and now urge the farmers to do likewise in helping with the berry end of the festival. The Berrians are trying to make it as easy as possible for the farmers to donate berries for free distribution and also to place crates have been made to leave all berries at the Crede's Meat Market where they will be kept in cold storage over Friday night and taken out as needed. One hundred and fifty crates have been secured from Portland and farmers wishing to secure crates for selling berries at the festival, can get them at Bowman & Brooks job office, adjoining the city hall.

FAMILY HAS PNEUMONIA

The C. V. Baker family living on Eleventh and River streets are having a hard time of it with pneumonia. Mr. Baker has had a back set with pneumonia and is quite seriously ill but it is thought that he will recover. The little girl Dorothy, who is five years old, is also very sick and has developed measles on top of the pneumonia. As we go to press, it is stated that she may pull through. Mrs. Baker is better and able to be up again, while the other little boy is not considered as being in danger.

WOODBURN WINS AN EXCITING BALL GAME

ST. PAUL-NEWBERG LOSE BY 4-3

Carson Pitches Winning Game but Errors Cost Locals at Least Two Scores

The Newberg-St. Paul team, or perhaps more correctly called the St. Paul-Newberg team, played a most exciting and interesting game at Woodburn on the Fourth of July, which they lost by a score of 4 to 3. By all of the rights of the game, the local aggregation should have won and but for a couple of errors would have done so. Pilette of the St. Paul-Newberg team accidentally threw the game away when he cut third base in running home on a long outfield fly. This one score, which could have easily been made without cutting the base, was all that was needed to tie the score in the finish and would have given the locals a chance to win. In addition to this, Pelland, second baseman for the St. Paul-Newberg aggregation, muffed an infield fly in the 7th which was probably responsible for one of the Woodburn runs.

However, for the greater part of the game both teams played good ball and in the eighth inning with three bases full and none out, St. Paul lightened up and retired the Woodburn team without their making a run. Sunderlied made a beautiful catch of a right field fly which he picked off the fence and threw in to home catching the Woodburn man who was coming in from third.

Woodburn started the scoring in the first inning, getting one run and St. Paul came back and tied the score in the third. Woodburn annexed another run in the fifth and St. Paul again tied the score in their half of the sixth. In the last half of the sixth Woodburn secured their third run and in the seventh a fourth. In the ninth inning St. Paul started a batting rally and with no one out got two men on the bases. It looked like they would be able to tie the score with this start but luck didn't seem to be with them and although they secured one run, they couldn't quite get the other one needed to tie the score.

Both pitchers were in good trim and the game from the spectator's standpoint was an excellent one, being close and filled with exciting moments. The ball park was filled and there were probably over two thousand people witnessed the game. The St. Paul-Newberg team will play the McMinnville team here on Saturday, July 9, during the Berry Festival and if you want to see a good game of baseball, don't miss this one. The local team is a strictly first class team and McMinnville will doubtless bring down the pick of the teams from the south end of the county. The game will be played on the college diamond in the afternoon.

BAKER PLAYERS OF PORTLAND ARE AT THE STAR THEATRE

The Lee Stock Company has been secured for a special engagement of three days commencing Thursday, July 7. There will be a special matinee on the day of the big berry festival making one more attraction to be offered to the visitors of Newberg on that day. The company makes a change of play each night offering the very finest of plays and very pleasing specialties. The company is composed of artists of the highest order and a careful presentation of all plays may always be noted.

Their repertoire consists of such plays as "Boss of Bar Z Ranch," "The Powers That Be," "The Girl From Laramie" and "The Matrimonial Tangle." The opening performance pleased a good crowd who attended last evening, and all indications are that this company is the strongest to have visited this city in many years.

As an article in the Oregon Sunday Journal stated a few weeks ago, The Lee Stock Company is composed of members of the Baker theatre players of Portland, who are combining business with pleasure and playing the smaller towns of Washington and Oregon until their regular season opens in Portland, September 4th.

They carry their own piano player, do specialties between the acts, and all in all furnish a splendid evening's entertainment. It is not, by any means, a cheap dowdy aggregation, stinging the people with a so-called show; but a bona fide business proposition furnishing a good clean wholesome performance.

GRAPHIC CLASSIFIEDS GET QUICK RESULTS

R. L. McDougall is a steady user of Graphic classified advertising, and Mr. McDougall's results. Recently he advertised some cows for sale and reports that he made the sale just as soon as the Graphic was out. Of course Mr. McDougall doubtless had some good cows at a reasonable price, but it is certain that there is no simpler or cheaper way of bringing the buyer and seller together than by using a Graphic classified.

COUNTY SEAT NEWS NOTES OF INTEREST

THE COURT TRANSFERS FUNDS

Probate and Circuit Court Matters, Suits Filed and Matters of Minor Importance

\$10,000 Transferred
The county commissioners' court has transferred the sum of \$10,000 from the general fund to the funds of road project No. 5. This money is to complete the paving of the Three-Mile lane project. The order was made on June 24.

Judge Finds for Defendants

The suit brought by C. J. Landingham vs. George W. Briedwell et al, was tried before Judge Belt on Wednesday, Thursday and Friday of last week, without a jury. It was a suit for specific performance of contract to a will arising over the Haynes Holms et ux estate. A decree was given in favor of the defendants, the complaint dismissed and neither party are to recover costs.

Probate Court Matters

Estate T. J. Fribble, deceased, Mary V. Fribble appointed administratrix.
Petition to probate the estate of David B. Smith, deceased, and the Abraham K. Miller, deceased; have been filed.

Minor Matters

No bounty on predatory animals have been paid in this county since April 8.

Suits Filed

Divorce: Lyle G. Small vs. Letha Small; B. A. Kikis attorney for plaintiff.

In Circuit Court

B. E. Williams vs. Equity Queen Canning Co., settled and dismissed.
L. C. Marley vs. Equity Queen Canning Co., settled and dismissed. Action for money; Harold A. Hirsh vs. Otto W. Heider; dismissed as per stipulations.

Divorce: Maud Hellekes vs. Emil C. Hellekes; default and decree.

Suit to quiet title: Chris W. Simonson et al vs. Charles M. Colwell et al; default and decree.

Suit to quiet title: George Hessler et ux vs. Nancy Ann Newbill et al; default and decree.

Divorce: Wilhelm Bucock vs. Louise Bucock, on trial June 23; default and decree.

Suit to quiet title: I. C. Emmerson et al vs. Collin D. Matheny et al; default and decree.

Suit for injunction: Ellen S. Jones vs. City of Sheridan; on trial, June 23 without jury; injunction dissolved as to city lots and made perpetual as to acreage.

Suit to quiet title: Jennie Rose Goodrich, administratrix vs. Hershall Glenn Bunn et ux, default and decree.

Mary O'Brien et al vs. N. C. Christenson et al; decree of foreclosure as per stipulations.

George W. James vs. City of Newberg; decree as prayed for, an injunction, suit over street assessment.—News-Reporter.

FESTIVAL NOTES IN BRIEF FORM

Farmers should leave their berries, either for sale or for free serving at Crede's Meat Market Friday evening.

Farmers wishing to secure crates for sales berries, may get them at the Bowman & Brooks job office adjoining the city hall on First street.

Exhibits should be left at the Calkins garage Friday evening, if possible. However, exhibits will be received Saturday morning in emergency cases.

Floats and decorated cars for the parade should be in line on Sheridan street at the intersection of College street not later than 9:30 Saturday morning.

OREGON GROWERS MAKE DISPOSITION OF NEWBERG FRUIT

Fruit of the Oregon Growers Cooperative Association in this district is being handled in various ways. Black cherries from the Newberg district and other sections are being handled by the Oregon Canning company of Newberg. The Springbrook Growers packing company is taking care of a large tonnage for the members of the organization in that district. Some of the sour cherries from Newberg have been shipped to the Brownsville Canning company at Corvallis.

The black cap crop of the organization in the Newberg district will be put up by the Graves Canning company of Sherwood. The loganberry crop of the members at Newberg has been sold to the Featherstone Products company and will be hauled daily from the plant at that point with auto trucks carrying this tonnage to Cornelius.
