

# Genuine Closing Out Sale STARTS FRIDAY

The people of Newberg and adjacent country no doubt will be surprised at our decision of closing out all Yard Goods, Notions, Ladies' Furnishings, Ready-to-Wear, Men's Clothing, in fact, every department in our store, EXCEPT Men's, Ladies' and Children's Shoes, Men's Furnishings and Work Clothing, Ladies', Children's and Men's Hosiery. Our policy for 1922 shall be to specialize in these lines only, therefore we need more space, and have decided to give the people the benefit of a Real Closing Out Sale (in these departments.)

A part of our floor space will be used to install an up to date shoe repairing department in connection with our big new Shoe Department. We will also manufacture in our Factory three shoes for men to order, namely, Men's Work Shoe, Men's Sport Shoe—any height—also Hubberd's Loggers. Our repair department is in charge of Mr. J. W. Hubberd, who has had 20 years' experience in manufacturing and shoe repair work. Remember, first class work, best materials at lower prices shall be our policy.

Remember, our closing out sale starts Friday. Prices we will give will make your dollar do its duty. Every sale final, no refunds in our closing out departments.

Published every Thursday evening.  
Office: Graphic Bldg., 600 First St.

Phone ..... White 33

Entered at the postoffice at Newberg,  
Oregon, as second class matter.

\$2.00 Per Year in Advance

THURSDAY, JANUARY 26, 1922

The farmers' chautauqua which was held in Newberg last Wednesday, Thursday and Friday, probably stands unique at least as to name. One of the speakers in calling attention to this fact said that probably this new name for such farmers' gatherings would be adopted all over the country as it was a catchy name and would appeal to people as being descriptive of the purposes and ideas involved in such a series of meetings. Heretofore such commonplace terms as farmers' meetings, community gatherings, etc., have been the only names used, and as a result of the Newberg chautauqua, it is probable that other communities will now follow suit in the use of this new name.

#### BERRY GROWERS ACCEPT OFFER

Woodburn, Ore., Jan. 21.—At a well attended meeting of the North Marion Berry Growers' association here today it was decided to accept an offer of the Graves Canning company to advance picking money and pay for the fruit in four 60-day installments. Nearly all growers present signed an agreement to enter into an incorporated association. This corporation will have power to dispose of the pool to the Graves concern, or in any other market, and may barrel some of the loganberries itself.—Oregonian

#### "Cheap at Half the Price"

Car for Sale—One tin car with piston ring, two rear wheels and one front spring. Has no fenders, seat or plank, burns lots of gas and hard to crank; carburetor busted halfway through, engine missing—hits on two. Three years old, four in the spring, has shock absorbers and everything; radiator busted, sure does leak, differential dry—you can hear it squeak. Two spokes missing, front all bent, tires blown out—ain't worth a cent; got lots of speed, will run like the deuce, burns either gas or tobacco juice. Tires all off but runs on rim. A blamed good car for the shape it's in.—Ex.

#### NEWS NOTES FROM THE SCHOOLS OVER THE COUNTY

Thirty-three teachers took the examinations for certificates at the December examinations. The returns will not be in from the state office until February 1. The next examination will be held June 14, 15, 16 and 17.

The eighth grade examinations were given in the various districts on January 12 and 13. The returns will be in the hands of the teachers about January 25. The remaining examinations for the year will be held May 11 and 12, June 8 and 9, and September 7 and 8.

The Yamhill county teachers' association will meet in Springbrook January 28 at 9:30 a. m. Prof. Gentle and others from the Normal will be there, and we feel sure the meeting will be an interesting one. Circulars are being sent to all the teachers.

The dental association of Oregon has offered several cash prizes to the pupils of the state for the best essays written on the care of the teeth. Details of the plan will reach the teachers in a circular letter.

F. L. Strait is back in his old position as principal of the Chehalum Center school. He has been giving his attention to prune growing of late.

Many teachers are having the drinking water on the school premises examined by the state board of health. This is a good thing to do as bad water is a menace to the health of the pupils.

Miss Hazel Carr, of the Hutchcroft school, No. 15, wrote the teachers' examination at Hood River, thus combining business with pleasure, as her home is in that city.

Miss Lola Perkins, of Dayton Prairie school, No. 15, is in the school room again, after a short vacation on account of temporary illness.

Mrs. Alice Wilson Arthur, who began the school year in the Peavine school, has taken the position vacated by Mrs. Helen Hewitt in the Happy Valley school. Miss Bennette will finish the term in the Peavine school.

No. 46, the Durham school, is becoming famous for its basket socials and literary society, as well as for efficient school work. Miss Helen Thompson is teaching her third year in that district.

Mr. Lovett, of Dayton, who is teaching in No. 58, west of Willamina, reports that everything is moving along in a satisfactory manner.

Mrs. Ramona French resigned her position in No. 90, the west Grand Ronde school, to take the position of assistant in the Grand Ronde school, which has become too large for one teacher. Mr. Northrup, the principal, found it impossible to do the work. Miss Vera Vee Evans will finish the term in No. 90.

To attain real peace the world must work its arms off.—Norfolk Virginian-Pilot.

#### FARM POINTERS

Pruning of bush fruits such as raspberries, logans, and evergreen blackberries may be done from now on with safety. The peak of the winter has no doubt passed, thus eliminating the danger of further die-back due to excessive cold.

Grain feed is necessary for hens if they are to be kept in the best breeding condition this time of year. Finely chopped green rye or oats will serve this purpose well. Green feed is of great importance in producing fertile, hatchable, eggs.

February is usually the best time to sow red clover seed in fall grain. If the soil is frozen at night and thaws during the day the condition for clover seeding is ideal. Clover should be seeded before the spring growth of grain begins, and at the rate of 10 to 12 pounds per acre.

#### Spray Program Soon

A spray program for this year that is revised and completely up to date has been prepared by H. P. Bars, head of the department of botany and plant pathology, and A. L. Lovett, chief in entomology. It will be published in the near future in the leading farm and horticultural papers of the state. The program covers the entire year's work against every plant disease or insect pest controllable by spraying. Growers are advised to watch for its appearance.—O. A. C. experiment station.

#### RESOLUTIONS

Whereas, Newberg Chapter No. 55 Order of the Eastern Star, is saddened by the loss of our faithful and loyal sister, Mrs. Lura Ferguson, who passed away January 18, be it

Resolved, That the sympathy of the chapter be extended to the bereaved family.

Mrs. Ferguson was a past worthy matron, and was filling the office of marshal at the time of her death.

A most devoted, zealous and unselfish worker in the order for over twenty-nine years.

Her charm of manner, her poise, her genial hospitality, made a deep impression on all who knew her. Not only the order, but the whole community feel deeply her loss. Profound sorrow fills our hearts, for no more will be seen at chapter meeting her bright face, and never again will we hear her words of counsel which guided and inspired.

"To live in the hearts we leave behind us is not to die." We loved her much, but God loved her more, and jealously took her home.

Resolved, That a copy of these resolutions be sent to her husband and sister, a copy to the Graphic, and be recorded on our minutes.

Hattie Thurston,  
Delphine Baird,  
Salina Cummings.

#### Highest One-Piece Structure

What is said to be the highest one-piece structure yet built is a concrete wireless tower, 660 feet high at Tokyo, Japan.
