

WARNING

Prospective Tractor Purchasers

Do not fail to see the NEW TANK TYPE CLETRAC before purchasing your tractor. You owe it to yourself to see all types of tractors before investing your money. CLETRAC MODEL F is the latest development in the tractor industry. It has features that make it the pick of the tractor field. We are demonstrating in the Newberg district Monday, April 17.

Write or wire O. V. Badley Co., 425 E. Morrison Street, Portland, Oregon, for further information.

BIG IMPROVEMENTS BY THE RAILROADS

May Be Regarded as Encouraging Signs of Returning Prosperity.

The disbursement of fifteen million dollars, most of which will be paid out in Oregon and Washington during 1922, is one of the encouraging signs of returning prosperity. The Union Pacific System is to add largely to its equipment, to relay portions of its track with rails of greater weight, to ballast anew its roadbed, to replace wooden bridges with structures of steel, and construct a steel bridge across the Columbia River between Walla Walla and Kennewick, this one project to cost \$1,500,000.

An order for 4,500 new freight cars, to cost \$10,000,000, and for 2,500 refrigerator cars at a cost of \$8,750,000 was made public several weeks ago. The refrigerator cars are for the Pacific Fruit Express, one-half of which is owned by the U. P. System.

General Manager O'Brien of the Oregon-Washington Railroad & Navigation Company (Western unit of the Union Pacific System) has just announced the setting aside of \$5,000,000 for improvements and additions on this unit of the system during 1922.

Most of these millions will be expended in Oregon and Washington. The forest and the saw mills will supply all of the lumber which will be used in car construction and the army of railroad workers will be enlarged until it will be of sufficient magnitude to complete the work. The money paid for material and labor will be put into general circulation. Service will be increased, labor in demand and business conditions improved by the millions to be spent by the great transcontinental railroad.

Apple Custard Pie

Line a pie plate with plain pastry and then place in a mixing bowl one and one-half cups of thick apple sauce, sweetened to taste, one cup of milk, yolks of two eggs, four tablespoons of flour, one-half teaspoon of salt, one-half teaspoon of nutmeg. Beat with Dover egg beater to blend thoroughly and then turn in prepared pastry and bake in a slow oven for 30 minutes. Place whites of eggs in a bowl and add two-thirds glass of apple jelly. Beat until mixture holds its shape. Pile on pie when cooked and brown lightly in hot oven.

CARLTON MILL AND ELEVATOR CO. BANKRUPT

After a week of investigation by a committee with W. B. Dennis as chairman, selected by a number of the stockholders and creditors of the Carlton Mill and Elevator corporation, things were brought to a climax the first of the week when Miss Mariam Busick, ex-bookkeeper for the corporation, brought action to recover over \$900 salary due her at the time she tendered her resignation about two months ago. On a writ of attachment the sheriff subsequently took possession of the plant and business, placing J. V. Kenyon in charge, he being agreeable to the creditors involved.

On Wednesday a stockholders' meeting was held in the office of the company, resulting in the election of a new board of directors, the by-laws being amended to provide for five instead of three, as originally drafted. At the election, F. A. Thoms, founder of the institution, was retired as president and manager.

Mr. Thoms organized the company in the summer of 1918, floating the stock and building the elevator in time to participate in the fall's business as a grain mart, acting in the capacity of both buyer and vendor, dealing as it did in feeds and seeds.

To the lay public the business seemed to be enjoying good health and rapid expansion. But the general money depression throughout the country combined with local adversities, were creating grave obstacles for the management—making collections slow, creditors more insistent, until at last the income proved insufficient for the liquidation of its growing obligations. Because of the postponement of remittances, creditors became alarmed as to the solvency of the corporation, and the aforementioned investigation and the aforementioned investigation was instituted. Only a casual analysis of the records was necessary to ascertain the crippled financial condition of the corporation; and that, under present conditions, it would be next to impossible for the business to pay out.

Several stockholders are advocating the appointment of a temporary receiver and continuing the business. However, this will depend on the disposition of the creditors, but the consensus of opinion is that they will demand immediate liquidation. The new board and officers are: Otto Sitten, president; Frank Hembree, vice-president; Earnest Jernstedt, secretary-treasurer; Louis Hurner and John E. Gildard.—Carlton Sentinel.

If you could sit in the Graphic office week after week and hear people tell of the splendid results they get from Graphic advertising you'd be convinced too that Graphic advertising pays.

ROYAL BAKING POWDER CO. NOW HAS NEW PRESIDENT

Following the resignation of Willis L. Garey, as president of the Royal Baking Powder company, William Ziegler, Jr., was unanimously elected to that office at a meeting of the board of directors on April 3. Mr. Ziegler, Jr., who is a large stockholder in the company, has long taken an active interest in its affairs.

Mixed His Calling

Joe Wagge called round upon his friend Hardupp and found him in a cold attic at work on a mysterious operation. The floor was littered with books, and Hardupp was bent over a big washtub containing a soggy mass of torn book leaves and water. "Great Scott!" cried Wagge. "Whatever are you doing, Hardupp?" "I've given up trying to be an author," explained Hardupp, "and I've discovered a great substitute for coal."

"You soak paper in water," continued Hardupp, "then form it into hard balls the size of a hockey ball. Let them dry, and they burn splendidly. Think of it, old man, all my old returned manuscripts will be enough to keep my room heated through the whole winter."
