NEWBERG GRAPHIC

VOLUME XXXIII

NEWBERG, YAMHILL COUNTY, OREGON, THURSDAY, MAY 18, 1922

NUMBER 33

BERRY DEMONSTRATION TUESDAY, MAY 23

PROGRAM FOR DAY IS OUTLINED

Movement Launched by Local Farm Bureau Should Give Industry a Big Boost

9 a. m.—Meet at U. S. Bank and go to A. S. Mellinger place south of Newberg. Logans and Evergreens to observe.

10:00—John Groff, southeast of town. Logans, Evergreens and Mungers. Also has other varieties.

11:00—Mr. Gall, southeast of John Groff. Only large field of Red raspberries located so far.

12:00—One hour for lunch between the above place and one below.

1:00 p. m.—W. T. West, on Portland road. Largest field of Mungers.

2:00—H. V. Mills, east of Springbrook. Oregon Champion.

3:00—W. E. Williams, north of Springbrook. Gold Dollars.

4:00—J. S. Graves, north of Newberg. Mungers and Himalayas.

5:00—Miss Langton, northwest of Newberg. Logans and Blackcaps.

6:00—C. W. Bradshaw, west of Newberg. Evergreens, Himalayas, Greggs, and Cumberland.

The growers visited will be asked to give the information about their berries as suggested by the following outline:

Preparation of ground for planting.

Plants: When set; distance apart; whether tips or year-old.

Cultivation, including time, depth, tools used, etc.

Pruning: Time of year; methods; disposal of brush.

Fertilizers: Cover crops; manure; commercial fertilizers.

Methods of wiring cane berries and tying others.

Yield per acre.

Keeping runners off of strawberries.

Mistakes made in the berry business.

Nearly all the above growers have from one acre up to ten or more acres. We do not pretend to say that we have selected all of the successful growers, or that we have picked the best in every case.

In nearly every case we chose those who were mentioned to us by their neighbors as being among the best growers.

We were forced for lack of time to pass by many fine fields but hope to see some of these on our next trip.

It would have been interesting to announce the yield at this time so you might know what to expect but the committee did not have time to learn all the particulars as we went along.

Will say that one field of blackcaps has been making two tons or better, and some gooseberry bushes made about 40 pounds per bush.

As an illustration of the benefits to be derived from this trip, your committee were convinced that a grape-hoe or horse-hoe is not a desirable tool for small tracts or for bushes set close together.

We also observed a simple device for making a common harrow much more efficient in berries and orchards. Anyone can apply it in ten minutes without any expense.

The writer was so favorably impressed with it that he applied it to his own harrow as soon as he reached home. Will show this on the trip, so don't miss it.

If you can't take the whole trip arrange to join in at any of the places, but be there ahead of schedule as we will try to get ahead of this if possible. Berry Demonstration Committee.

WHITNEY BOYS CHORUS OFFERS SPLENDID CONCERT FRIDAY EVE

The following is the program to be given by the Whitney boys chorus at the Friends church, Friday night of this week. This concert will commence at 8 p. m. and should be concluded in time to enable the public to get their election returns following its rendition. The admission charge is 30c and 20c.

Program
"Come Where the Roses Bloom." Reading, David Leedy.

Duet, "Lullaby," Annabell and Carroll Bauer.

Solo and chorus, "Stars and Stripes," Willard Bassett.

Reading, Jesse See.

Solo, "Queen of the Night" (Tory); "Dreams Are Made" (Johnson); Mrs. C. A. Morris.

Double quartet of Welpers. Piano solo, "Danse Americaine" (Dent Mowrey), Miss Eva Moor. Reading, John See. Chorus, "Oh, for a Thousand Tongues."

Neglect will grow weeds, 'spite the sunshine and showers; Neglect will grow weeds in the bed of the flowers; Neglect will grow men with hearts to destroy; The good and the pure—wherefore, care for the boy.

The Graphic always tries to get the very best mechanics obtainable. That is one reason that they can turn out first-class printing.

ELECTION INFORMATION REGARDING POLLING PLACES

The following places have been designated as voting places at the primary election Friday of this week.

Precinct 1—Fernwood gymnasium.

Precinct 2—Springbrook cannery.

Precinct 3—Baptist church, Newberg.

Precinct 4—Church of God, Newberg.

Precinct 5—City hall, Newberg.

Precinct 6—Old garage building, Main street.

Precinct 7—Chehalum Center school.

Precinct 8—Hall on Ribbon Ridge (West Chehalum precinct).

Precinct 9—Community hall, Dundee.

Precinct 36—Walter Wilson residence, Portland Road.

Precinct 37—Neal McCoy residence.

Precinct 38—Dan Way's residence.

The polls will open at 8 a. m. and close at 8 p. m. Under the new system of counting the ballots and handling the election, the day board will come on at 8 a. m. and commence accepting ballots. The counting board will then come on two hours later and commence counting ballots at that time or as soon as there are twenty ballots in the box, and continue to remove ballots from the box for counting as rapidly as possible, taking out twenty or more at a time. In this way the counting should be completed very soon after the polls close in the evening and results should be known in much shorter time than has been the case in previous elections.

FINE BAND CONCERT GIVEN IN CITY PARK LAST SUNDAY

The Berrian band gave a very creditable concert in the city tourist park last Sunday afternoon to a large and highly appreciative audience.

The band gave some very splendid numbers and the hearty applause was good evidence of the pleasing manner in which the numbers were executed. The band, under the leadership of Mr. Hal Campbell, is rapidly rounding into excellent form and is playing a good class of music in splendid style.

All efforts at present are being bent on preparations for the coming Rose Festival, and naturally the music being played is more of the march order, but the Sunday program was also interspersed with such numbers as Faust selection, plantation melodies, standard overtures, etc.

The personnel of the band is as follows: Cornets, Kienle, Cummings, Adolph, Williams, Pierce, Cummings, Jr., Breidenbecker, Gardiner, Trombones, Kursey, L. Parrish, Best, Riddle, Bauer, Livengood, Marnich, Baritones, Gould, Cheney, Altos, E. Hodson, Robertson, Evans, Tom Parrish, Clarinets, Notzage, Wohlgenuth, Farrell, Lange, Basses, A. Hodson, A. Parrish, C. Banfield, Drums, H. Patterson, Parrish, Saxophone, Ages.

These concerts will be continued at regular intervals during the summer months. The program for the next occasion is now in active rehearsal.

The most gratifying feature to the director is the splendid response made by the members of the organization to his demands for regular and adequate rehearsals. It is a rare thing to find an absentee, which speaks eloquently for the enthusiasm now being displayed and the avowed determination of every member to make the Berrian band a credit to Newberg, with a reputation as a musical organization second to none in the state.

Rehearsals take place every Wednesday evening at 7:30 to which the public is cordially invited.

There are a few vacancies in the band for all instruments, particularly the clarinet and saxophone sections.

CONCERT BY THE MONDAY MUSICAL CLUB

A splendid program of vocal and instrumental music will be presented by the Monday Musical Club at Wood-Mar Hall on Monday evening, May 22, beginning at 8:00 o'clock.

The program will be, in part, as follows: Two choral numbers by the club members; a concerted number on two pianos, rendered by Miss Jessie Britt and Miss Mabel Miller; Mrs. R. P. Gill and Miss Leota Howard; readings by Mrs. C. A. Morris; vocal solos by Miss Evah Hadley and Mrs. Georgia Babcock; piano solo by Miss Lora Putnam; octet in costume, "The Old Fashion Mayds," Evah Hadley, Della Parrish, Mrs. Mary Swart, Eva Moore, Helen Scott, Helen Robertson, Velma McConkie and Edna Forsythe. Assisting on the program will be Mrs. Don Carlos Clarke, who will render guitar solos.

An admission fee of 35 cents will be charged. Tickets on sale at Kienle's.

Miss Ella Macy, who is well known in this community, having lived here and taught school in this neighborhood for many years, passed away at the L. M. Parker home very suddenly on Wednesday night. Miss Macy was 62 years, 2 months and 20 days old at the time of her death. No arrangements had been made for burial at the time of going to press.

CARD OF THANKS

We wish to express our thanks to the fire department, friends and neighbors who assisted us at the fire which destroyed our home.

Victor Mersman and Family.

IMPORTANT FARMERS' MEETING HELD FRIDAY

SPRINGBROOK MEETING SUCCESS

Professor Long of O. A. C. Clearly Outlined Many Matters of Interest to Local Growers

Any, who may have been led to believe that the fruit growers of the various communities are not business men, keen to learn the latest details in the handling of their business, should have witnessed the way the large audience listened to Prof. Long of the O. A. C. extension service last Friday evening at the Springbrook school house. Prof. Long talked on the necessity of fertilization. He outlined his talk in a very comprehensive manner, likening the feeding of a bush or tree to a chain of three links; first link air foods; second link organic matter; and third link soil foods or mineral matter. The water used by the tree is the carrier or distributor of these foods between the various parts of the tree or bush. Therefore, the vital necessity is plenty of moisture. The air foods constitute 95 per cent of the tree, but really does not concern the grower a great deal. It is composed of the three elements, carbon, oxygen and hydrogen, and comes from the leaf area, sunshine and the dark green color aided by air moisture. So the only care here is to allow plenty of good branches, making the best leaf area exposed to the sunshine.

"The second link is the weak one in all the chain," said Prof. Long. It is composed of the single element, nitrogen, and is obtained only by the use of organic matters. This is the most destructible of the materials used for plant life, yet the one most needed. To keep the soil to the same fertility as virgin soil Prof. Long recommended the liberal use of either manure and straw, leaves, or cover crops, in their order of importance. As manure and straw are not available to most fruit growers, he put special stress upon cover crops. He says put them in every year. Vetch and rye were recommended as the best for this locality. If sown alone, 40 pounds of vetch per acre, and proportionately as desired if sown with other grains. Sow as early as possible last of August or first of September. Don't allow the spring plowing to go on, however, to make a good cover crop. By experiments, it has been proved that soil with a large amount of humus, straw, manure, or leaves, not only is more fertile but holds a greater amount of moisture. Less moisture is required by the growing tree in a fertile soil than other, for less water is required to carry the same amount of plant food.

The third link is that of soil food or mineral matter and is made up of the six elements phosphorous, potash, calcium, magnesium, sulphur and iron. Of these phosphorous and potash are the only ones it is ever necessary to replace in the soil. Prof. Long said most of the soils in this part of the country contained plenty of the mineral foods and we should put all our efforts in strengthening the nitrogen link.

In speaking of commercial fertilizers, Prof. Long does not recommend the use of a complete fertilizer. It is too expensive for the phosphorous and potash are of no value unless the content of nitrate is in excess in the soil. Under ordinary conditions this is seldom the case. Prof. Long made an outline of the talk that is very easy to understand and gives the whole matter in a very condensed form:

First link: Air foods 95 per cent, carbon (leaf area), oxygen (sunshine), hydrogen (dark green color).

Link two: Nitrates (organic matter—manure and straw, leaves, cover crops).

Link three: Soil foods, 5 per cent. (Phosphorous, potash, calcium, magnesium, sulphur, iron).

That the practical application of these things might be made it was decided to appoint a fruit committee to work out a plan to be carried out in the future. On this committee the following men were appointed: C. W. Bradshaw, J. R. Hornbeck, William Dolph, S. Sanderman, A. R. Miller, C. E. Newhouse and W. W. Silva.

It is expected to hold a demonstration trip to visit most of the best orchards and berry patches of the several communities within the very near future. For a future work several records of orchards, and by orchards we mean both berries and fruit, as to yield, method of working, kind of soils and all things pertaining to the growing of fruit will be kept. Some experimental work will be done that will give facts and figures that are of local value. Prof. Long is to help in this work but the real value and actual soil work must be done by those who grow the fruit. Therefore, it is necessary that everyone lend a hand to make for more, better and cheaper grown fruit in this section.

M. J. NEWHOUSE JOINS OREGON GROWERS ASS'N ORGANIZATION

According to reports given out today by the Oregon Growers cooperative association, M. J. Newhouse, general manager of the Washington Growers packing corporation, has resigned to accept the position of assistant general manager of the association.

It is reported that Mr. Newhouse has had an enviable reputation as manager of the Washington concern, organizing and developing it until it has assumed the proportions of a near million dollar business and practically controlling the prune output from Clarke county by controlling approximately 90 per cent of the prune acreage. Mr. Newhouse is a keen salesman and has real ability as an executive but at the same time, he has a clear insight into the cooperative movement and a sympathetic understanding of the growers' viewpoint which places him in high regard by all who are interested in the future of the fruit industry.

Mr. Newhouse has always been willing to cooperate with other organizations in order to advance the interests of the fruit growers in Clarke county and in Oregon, having been instrumental in arranging for an advertising program which accompanied that of the Oregon growers and which was nation wide in scope.

The management and members of the association consider it fortunate to get Mr. Newhouse, it was stated, knowing that his every effort will be directed toward the interests of the association. He will fill the vacancy created by the resignation of Prof. C. I. Lewis and will take up his duties with the association June 1st.

EUGENE BIBLE UNIVERSITY CONTEST WINNER

Peace Oratorical Contest Was Held at Wood-Mar Hall on Last Friday Evening

A Ted Goodwin of Eugene Bible University won first place in the Peace Oratorical Contest held here last Friday night. Clarence W. Hickok of Oregon Agricultural College was second. To them go the prizes of seventy-five and fifty dollars offered by the Misses Seabury, eastern Friends, who are endeavoring by this means to encourage interest in peace.

Third place was taken by Cecil E. Pearson of Pacific College, who took a good first in thought and composition. The other two contestants were Jacob Weinstein of Reed College and Watt Long of Pacific University.

Mr. Goodwin's oration, "The Enduring Commonwealth," was not remarkable for its subject matter. But his sentences were eloquent and showed the man's ability and experience as a public speaker. His voice is excellent, and his delivery simple, earnest and very effective.

Clarence Hickok with "A Better Way" ranked fourth in thought and composition but his splendid rating in delivery brought him up to second place in the final count. His illustrations of the effects of war and of the influence of America in the world, were drawn from personal experience. Such an oration gave him the advantage of being able to speak as though extempore and gave opportunity to ring in a little humor. His manner was easy, almost over-confident, and his gestures seemed, for the most part, natural and fitting.

Mr. Pearson lived up to P. C.'s reputation in producing a winning oration in thought and composition but he ranked lower in delivery. His delivery was, however, marked by earnestness, enthusiasm, and good enunciation.

Jacob Weinstein of Reed had an oration which was something of an innovation: "A Psychological Approach to the Problem of Peace." He based his hope of peace on the establishment of 'stereotypes' of emotional appeal such as might counteract the influence of those used in war time 'a war to make the world safe for democracy,' 'the Hun,' 'the nation's honor.' The war motive, he says, is not hate or covetousness, nor any reasonable motive. The war spirit is based on emotion. His delivery was marred by incessant movement and gesticulation.

Mr. Long of P. U. took as his subject the challenge to disarm. He took last place in thought and composition and fourth in delivery. His chief advantages in delivery were a good voice and a lack of self-consciousness.

Judges on thought and composition were W. B. Hinson, S. S. Duncan and President Doney of Willamette; those on delivery were President Eppy of Philomath, Professor Jewell of Linfield and Professor Minna L. Harding of Willamette.

Miss Clara Calkins presided very acceptably. Professor and Mrs. Hull and Royal Gettman gave musical numbers and Helen Stanbrough entertained with two readings.

BERRIANS TRANSACT MUCH BUSINESS TUESDAY NIGHT

The Newberg Berrians council met Tuesday evening and transacted a number of important matters. The question of the queen contest was left entirely in the hands of Dr. Van Valin. It was decided to hold a ban concert in the near future as a benefit for the Berrians. Committees to handle the Rose Festival matters will be appointed by R. A. Butt and the selection of a float design was left for a later meeting. It was also decided to place the "Newberg" auto plates on sale at \$1 in the future and the public are urged to buy these to enable the Berrians to settle their obligation on this account. The resignation of Chester A. Dimond as sub-chief Munger, or vice president, was accepted. The drill team met on Wednesday evening and there was a large turnout of

WHITNEY BOYS WENT ON CONCERT TOUR TO COAST REGION

Twenty-one Newberg boys and men went on the excursion and concert tour of the Whitney Boys chorus which took in concerts at Astoria and Kelso. The local people left here last Friday morning and joined the chorus of 200 at Portland where they boarded the steamer Madeline at one o'clock p. m. Several hundred persons were on the dock to bid the boys "bon voyage."

They arrived at Kelso, Washington, at about 5 o'clock and were tendered a very fine reception. A boys' organization known as the "True Blues" were on hand to see that the Whitney boys were entertained.

The boys were assigned to homes around the city and were taken out in cars to their places of assignment and there given supper, after which they were brought back to the city auditorium where the concert was given.

The hall was well filled and a very successful entertainment was staged. After the entertainment the boys were taken to the homes again where they were entertained for the night.

At 9:30 a. m. Saturday morning the boys embarked again for Cathlamet where dinner was had and the fish cannery visited, and all processes of the canning of fish were observed from the taking of the boats to the labeling of the cans.

At 2:30 p. m. they started again for Astoria where they arrived at about 5 p. m. and were met by a committee of entertainers and the boys were again assigned to homes for dinner and quite a number were entertained throughout the entire stay there. Others were taken to the hotels for the night. A concert was given at the Astoria theatre Sunday afternoon at 2:30 o'clock. Sunday afternoon many of the boys were taken around in machines; others were given money to go to the restaurants and hotels for dinner. Another concert was given at 8 p. m. Sunday.

The afternoon concert was very well attended.

The boys took boat for home immediately following the evening concert and arrived in Portland at about 8 o'clock Monday morning, coming to Newberg on the train and busses.

COUNCIL MET MONDAY

The city council met Monday evening in special session and took up the question of securing an engineer for the paving of river street. No definite action was taken at that time.

The question of paving on a portion of Fifth street came up on petition of some of the property owners but no action was taken.

O. A. C. TOOK SECOND PLACE

Peace Oratorical Contest Was Held at Wood-Mar Hall on Last Friday Evening

A Ted Goodwin of Eugene Bible University won first place in the Peace Oratorical Contest held here last Friday night. Clarence W. Hickok of Oregon Agricultural College was second. To them go the prizes of seventy-five and fifty dollars offered by the Misses Seabury, eastern Friends, who are endeavoring by this means to encourage interest in peace.

Third place was taken by Cecil E. Pearson of Pacific College, who took a good first in thought and composition. The other two contestants were Jacob Weinstein of Reed College and Watt Long of Pacific University.

Mr. Goodwin's oration, "The Enduring Commonwealth," was not remarkable for its subject matter. But his sentences were eloquent and showed the man's ability and experience as a public speaker. His voice is excellent, and his delivery simple, earnest and very effective.

Clarence Hickok with "A Better Way" ranked fourth in thought and composition but his splendid rating in delivery brought him up to second place in the final count. His illustrations of the effects of war and of the influence of America in the world, were drawn from personal experience. Such an oration gave him the advantage of being able to speak as though extempore and gave opportunity to ring in a little humor. His manner was easy, almost over-confident, and his gestures seemed, for the most part, natural and fitting.

Mr. Pearson lived up to P. C.'s reputation in producing a winning oration in thought and composition but he ranked lower in delivery. His delivery was, however, marked by earnestness, enthusiasm, and good enunciation.

Jacob Weinstein of Reed had an oration which was something of an innovation: "A Psychological Approach to the Problem of Peace." He based his hope of peace on the establishment of 'stereotypes' of emotional appeal such as might counteract the influence of those used in war time 'a war to make the world safe for democracy,' 'the Hun,' 'the nation's honor.' The war motive, he says, is not hate or covetousness, nor any reasonable motive. The war spirit is based on emotion. His delivery was marred by incessant movement and gesticulation.

Mr. Long of P. U. took as his subject the challenge to disarm. He took last place in thought and composition and fourth in delivery. His chief advantages in delivery were a good voice and a lack of self-consciousness.

Judges on thought and composition were W. B. Hinson, S. S. Duncan and President Doney of Willamette; those on delivery were President Eppy of Philomath, Professor Jewell of Linfield and Professor Minna L. Harding of Willamette.

Miss Clara Calkins presided very acceptably. Professor and Mrs. Hull and Royal Gettman gave musical numbers and Helen Stanbrough entertained with two readings.

BANKS CLOSED

Banks will be closed all day Friday, May 19, Primary Election Day. U. S. National Bank, First National Bank.

P. E. O. ENTERTAINED TUESDAY IN HONOR OF MOTHERS DAY

On Tuesday afternoon of this week the P. E. O. met in regular session at the home of Mrs. J. S. Rankin. The business meeting was at 2 o'clock, and at three, guest day was observed in honor of Mothers' Day, which was the Sunday preceding, each member inviting her own mother, or any mother. There were three mothers of members present.

Mrs. Lyle Palmer, president of the chapter, called the meeting to order. The treasurer, Mrs. R. W. Thurston, called the roll, to which thirteen members responded with quotations pertaining to mother. After roll call Mrs. R. P. Gill, as chairman of the program committee, took charge. Miss Evah Hadley and R. P. Gill sang a very beautiful duet, followed by a solo by Miss Hadley, both of which were heartily applauded. Mrs. C. R. Chapin then gave a very beautiful and touching paper on the subject, "Mother." This was followed by piano solos by two daughters of members, the Misses Emmabell Woodworth and Helen Baird. Both young ladies were compelled to respond with encores.

After the program a delicious two-course luncheon was served in individual trays, the chapter color of yellow being carried out in the refreshments. The flowers used in the house as well as on the trays were narcissus, there being about 800 blossoms in all. The refreshment committee was Mrs. S. F. Wallace, Mrs. Lyle Palmer, Mrs. J. S. Rankin and Mrs. E. C. Baird.

Mothers who were present to enjoy this most delightful afternoon were Mesdames Wilheit, N. S. Stewart, Lora Swart, J. E. Bradley, J. C. Lemon, M. McDonald, E. E. Goff, G. W. Dart, J. D. Gordon, Emma Durstine, Chester A. Dimond and A. Serrant. Members present were Mesdames E. C. Baird, C. R. Chapin, Minnie W. Cooper, F. D. Eckerson, R. E. Gill, L. T. Hayward, George Lutz, J. S. Rankin, R. M. Thurston, H. C. Spaulding, S. F. Wallace, Lyle Palmer and W. H. Woodworth.

BORN

SIMMS—At Newberg hospital, Friday, May 12, 1922, to Mr. and Mrs. F. Simms, a son. Mrs. Simms is a sister of Mrs. Mamie Nelson of Dundee. The Simms family live in Denver, Colorado.

the membership, but the call issued for all those who have not turned out for drill to do so next Wednesday night. Rehearsals are held each Wednesday night.

COMMERCIAL CLUB HELD BUSINESS AND SOCIAL MEETING

The local Commercial club held a business and social meeting in the club parlors last Friday evening and despite the fact that there were several affairs on that same evening, there was quite a turnout of the club membership, some thirty-five being present. The meeting was called to discuss the question of whether the club should purchase a radio outfit for the entertainment of its members. The subject was discussed by a Mr. Scherf, who represented a Portland radio firm, and also by several of the members. The sentiment of those present seemed to favor the securing of an outfit. The question was put to a vote by a motion introduced by C. H. Chapin to the effect that the club buy such an outfit and the president appoint a committee of three to investigate the subject with power to act. This motion was adopted.

Following the business meeting an impromptu program was slated by the entertainment committee, and Bert Miller as chairman of the committee called on a number of those present to make talks. Refreshments consisting of sandwiches, coffee, cakes and ice cream were then served.

Dr. Van Valin, the vice-president of the club, acted as chairman of the meeting, and has since appointed the following committee on the radio question: W. H. Woodworth, Dean Calkins and Barney Groth.

LOCAL HERD OF AYRESHIRE IS BECOMING KNOWN OVER THE NORTHWEST COUNTRY

Group of purebred Ayreshires on J. U. Smith farm near Newberg.

Mr. Smith is shipping many of these animals to Washington and Idaho, and has inquiries from China for a herd. Two fine heifers were shipped to Port Angeles, Washington, last week.
