

Tamburica Melodies Will Charm Chautauqua Folks

Jugo-Slav Orchestra With Native Instruments Will Play and Sing in Unique Program on Third Day—Classical Numbers and Native Melodies Featured

If you have never heard the delightfully fascinating music of the Tamburica, your musical education has not been completed by a long way. The Tamburica is the household instrument of the Jugo-Slavs. It possesses an exquisite sweetness of tone and a volume in ensemble that is most surprising. The Jugo-Slav Orchestra with their Tamburica in half a dozen different sizes will prove one of the most interesting and enjoyable features of the coming Chautauqua assembly. The singing of their native melodies with Tamburican accompaniment is a musical picture you will not soon forget. The most difficult operatic overtures, as well as the light popular numbers of the day, will be given. Chautauqua—third day.

“There is so much stuff around the place we don’t need; wish we could dispose of it.” Advertise it in the Graphic.

NEW PRICE ON PRUNES ANNOUNCED BY GROWERS

The Oregon Growers cooperative association has advanced the price of prunes one-half cent on 30-40s and one-quarter cent on all other grades above the opening prices. The price as announced is as follows for prunes packed in 25-pound boxes, f. o. b. shipping points:

30-40s	11½c
40-50s	9¾c
50-60s	8½c
60-70s	8c
70-80s	7¼c
80-90s	6¾c
90-100s	6¼c

Oregon prunes have been sold in more markets this year than ever before, according to officials of the association, and it is their belief that this will help materially to dispose of this crop as well as future crops. Great Britain, Central Europe, Canada and domestic markets have responded with an eagerness for the 1922 pack that has been surprising.

MARRIAGE LICENSES

Muriel Ida Martin, McMinnville, to Thomas James Altimus, McMinnville.

As aromatic plants bestow
No spicy fragrance where they grow;
But crushed or trodden to the ground,
Diffuse their balmy sweets around.
—Goldsmith.

SOUR CREAM AND MILK

The value of sour milk and the buttermilk diet as a bacteria destroyer is well known. Considered from the point of economy, as well as wholesomeness, sour milk is a great food. For the light and tender waffle and griddle cake there is no liquid equal to the sour milk and cream. Sour milk as a poultry food is too well known to speak about and the preparation of sour milk with fruit juice and sugar for a frozen dish is especially cooling in hot weather. Try this when the hot days make you long for a cooling dessert.

Orange-Pineapple Lacto.—Shred a ripe pineapple with a fork, after peeling it and removing eyes. Slice oranges very thin, using one cupful of prepared fruit to one quart of sour milk and two cupfuls of sugar. Beat the whites and yolks of two eggs and when the ingredients are well mixed freeze as any ice cream.

Southern Spoon Bread.—To one pint of white corn meal add a tablespoonful of lard, one-half teaspoonful of salt, and mix with water to a smooth paste, using warm water, which swells the meal—boiling water would spoil it. Add a beaten egg to the paste, the white and yolk beaten separately, then one cupful of buttermilk or sour milk and one-half teaspoonful of soda. Beat the batter until very smooth and light and pour into a hot, well-greased granite pan and bake in a hot oven. Serve from the pan.

All sorts of cakes and cookies, gingerbreads and biscuits are made with sour milk, buttermilk or cream. Doughnuts and cakes have a different flavor keep moist longer and are more wholesome when made with them.

Quick Brown Bread.—Take one-half cupful of New Orleans molasses, one pint of sour milk, one teaspoonful of soda, three cupfuls of graham flour and one teaspoonful of salt. Beat well and bake in a moderate oven until a light brown.

Buttermilk cheese is delicious. Heat the milk in a double boiler, drain the curd, adding salt and pepper. The milk if rich will supply enough fat, making a most delicious cheese.

Nellie Maxwell

YAMHILL FARMERS PICNIC
Dayton, Or., July 2.—An all-day county farm bureau picnic, under the auspices of the McMinnville zone, was held yesterday at the Webfoot grove. State Pres. Mansfield gave an address. Among the other speakers were Walter E. Pierce and Arthur McPhillips, president of the United States bank of McMinnville. Mr. McPhillips talked on the drainage. He is said to have 10 miles of tiling on his farm near the county seat. An old-fashioned basket dinner was served at noon.—Oregonian.

When You Starch the Clothes

A half teaspoon of borax added to cooked starch is the best thing to give a nice finish to starched clothes. It also prevents the iron from sticking. A perforated fruit jar cover is the best clothes sprinkler for starched clothes. Fill the jar with warm water, adjust the top as for canning. One-half cup of starch makes about five quarts of cooked starch, which is about the right amount for large pieces.

MICKIE SAYS

EVERY ONCE IN A WHILE A FELLER ASKS US TO JUMP ON TH’ MANOR OR TOWN BOARD, OR BOUNTY OFFICIALS OR SOMEBODY HES PEEVED AT! NEWSPAPER EDITORS USED TO BE EASY ENUFF TO DO IT, BUT THEN DUNS IS GONE FOREVER, AS TH’ POET SET!

NEWS NOTES FROM THE OREGON GROWERS’ ASSN.

The first payment of two cents per pound on gooseberries has been made to the members of the Oregon Growers cooperative association in the Willamette valley, according to a statement issued recently. This will be followed by other payments and the closing of the pool as soon as the shipments of the canned fruit is completed.

Strawberry growers are also being advanced a like amount. Cherries are now moving faster. The association expects to move two cars of black cherries before the end of the week. Several cars have been shipped from The Dalles to Chicago and New York markets.

The loganberry harvest is on with practically every yard busily caring for the fruit. Growers state that a considerable tonnage will be lost on account of the hot dry weather of the last few days. The crop is suffering from a lack of rain and the fruit which usually ripens toward the end of the season will not amount to much according to growers.

How Auto Industry Has Grown.

In 1890 the investment in the automobile industry was \$5,768,000 and this amount of capital was utilized in producing 3,700 cars; 20 years later the capital was estimated at \$1,900,000,000 and the car production was 1,974,000—a 500-fold increase in production. In 1904 there were 13,333 employees in the industry with annual wages of \$8,316,000; five years later there were 651,450 employees and the wage roll was \$813,713,000.

How Epilepsy is Fought.

Professor Trocillo, surgeon commander in the Italian navy and lecturer on nervous diseases in the University of Rome, reports great success in treating epilepsy with tetratrate of boron and potassium. In eight cases in an asylum four patients ceased to have attacks, while the other four were so far improved that they behaved better and were less violent.

A Figure of Speech

What did your father say when you told him my love for you was like a gushing brook?
He said, “Dam it!”—Ludlow Log.
