## A Place to Live In— or Just a Work-shop?

Grandmother made her own soap, salted and smoked her own meats, baked her own bread, and did her own washing.

—She had a great reputation as a housekeeper, but her home wasn't half as livable as those we dwell in today.  
—The modern home-maker regards the home as a place in which to live, rather than a workshop or a factory  
—Good housekeeping today consists of taking advantage in the most economical and efficient way of the house-keeping helps which science and invention offer.

—And foremost among these is the modern laundry—an institution which relieves you of all the toil and drudgery of wash-day.

—Let us show you how much we can lighten your house-work, how many tasks we can take off your hands, and how much more time we can give you for your family.

—We clean everything that is washable, thoroughly and aseptically, and the charge for our service is most reasonable. Send us your family bundle this week and see for yourself.

## GULBRANSEN Player-Piano

## The Gulbransen Is the Life of the Party

Young folks dancing—old feet a-tapping—exhilaration fills the air. Music works its magic, and your Gulbransen is the life of the party.

Even the beginner can soon play real music, for the Instruction Rolls—an exclusive Gulbransen feature—make it simple.

When you become familiar with the Gulbransen, you will find that every note is under your instant control. Loud or soft, fast, slow or medium tempo, you can play any selection with genuine feeling and apt expression. This signal difference in the Gulbransen, users say, permits them to duplicate hand playing, so you cannot tell the difference.

Dance music, accompaniments, operatic selections—a full evening's playing does not tire you, for the Gulbransen, of all player-pianos, is known to be the easiest to play. It responds instantly to the slightest touch on the pedals.
