**CHOOSE THE BEST**

Do you want to be represented by a man who is generally respected in his community and who will give to the administration of your public affairs an intelligence and business wisdom equal to the mighty task which the next city administration demands? If so, think well before you cast your ballot on election day. Do not let some person who has been influenced by personal prejudice cause you to cast your vote for one whom you would later not wish to see occupy that position. We are not going to call any names nor take any personal side in this issue but we do urge the people of Newberg to weigh well the merits of the two men who are making the race for mayor of Newberg as to their personal qualifications to fill the office and not to consider some story which may be told at election time to switch votes. The same should also apply to the selection of councilmen where there is any contest. Newberg faces a hard two-year period. No matter what the mayor and council may do, it will be difficult to keep things moving smoothly and not run further behind. A good, capable man can do much more as your representative than one who is not able to make a success of his own personal affairs. This statement is made in a general sense and the writer has no individual in mind. But we are anxious to see the best men elected and this article is prompted by the fact that we have seen good men defeated by inferior ones in elections in other places, simply because the average American voter seems to be woefully gullible. In one city where we lived a man was defeated for the council simply because the story was spread on election day that if he were elected he would build cement sidewalks in front of every piece of property in the city. The man had never made such a statement, but the public voted against him simply because "they" said so.

When you go to the polls on election day, study the men who are coming up for election; ponder their qualifications; refuse to listen to slanderous tales; and then vote for the best men. In the case of city elections, you know the men who are running. You know what their reputations have been. You know whether they have been public-spirited citizens or whether they have been knockers against their own city in times past. You know whether they have given their time to securing such things for your city as the

bridge across the Willamette river and the highway bridge and paving between here and Portland. You know whether their efforts have been exerted to help build up Newberg; whether they have given their time and money to further the city's interests in times past. These things should influence you in voting for a mayor and councilmen.

You want Newberg to succeed. You do not want extravagance, but no candidate will dare to force extravagance upon you anyhow and in the case of mayor both candidates have expressed themselves as opposed to unnecessary expenditures, and we believe that practically all of the candidates for council will agree in this. Consequently this is not an issue. You want men who have the wisdom to handle the gigantic business affairs of this city and not persons who desire to be elected in order to work out a scheme of vengeance or place the city in an embarrassing position. You want men to represent you of whom you will feel a degree of pride when there are visitors to entertain and on various public occasions—men who can and do make a good public appearance. Weigh all of the candidates well on these points and then vote your own convictions. Then you will be satisfied with the result and Newberg will not suffer from the machinations of any would-be politicians.

**DON'T FAIL TO VOTE**

Tuesday, November 7, is election day. Probably everyone is already aware of that fact, but we wish to impress upon everyone the duty of voting on that day. It does not so much matter to us whether you vote for the ones whom we shall support or whether you vote for their opponents, so long as you go to the polls and cast your vote for those whom you want to be elected. We hope to see a very heavy vote cast in and around Newberg. We believe that there is sufficient interest in some of the offices and some of the measures to insure this result.

Newberg should be vitally interested in the selection of county clerk. This is the only office for which a Newberg man is running outside of city offices. Newberg people and for that matter the people of this entire end of the county should rally strongly to the support of our candidate—Mr. Timberlake. Mr. Timberlake has been a resident of Newberg for years. He has proved himself a public-spirited citizen during those years. He has had a wide business experience which should qualify him for the office. To be elected he must pull a very heavy vote from this section of the county which he undoubtedly will do.

Mr. Timberlake is not conducting his campaign along mud-slinging lines. He is a staunch republican and on this ground his opponent has no advantage over him. Both will run as independents because of the fact that the office was not vacated before the primary election. Mr. Timberlake feels that this end of Yamhill county is entitled to some recognition. There are hundreds of other citizens of the county who agree with him. No one is going to say a thing against his opponent, Mr.

Corbett. He is a good man. However, Mr. Timberlake needs the position in a sense in which Mr. Corbett does not, being a wealthy man. Mr. Timberlake is entitled to it in order that the north end of the county may have recognition. Mr. Timberlake is well qualified for the position.

You may find yourself at sea on some offices and on some of the measures, but surely there is no one who lives anywhere around Newberg who will not cast a ready vote for Mr. Timberlake for county clerk of Yamhill county.

**AN OPEN FORUM**

Readers of the Graphic seem to insist on our running an open forum for the expression of their views. The publishers of the Graphic are only too glad to do this. However, the only way in which we can have an open forum which will be of any value to our readers, is for them to write their views and send them in. We shall be only too glad to have you do so on any subject whatever. However, we must place a few restrictions. All communications must be of reasonable length. No slanderous or vindictive articles can be accepted and the management must necessarily reserve the right to suppress any articles which they deem unfit for publication. Also articles must reach our office by Tuesday in order to be sure of publication that week. If writers will observe these rules we shall heartily welcome their use of the open forum. All articles will be placed under the heading and fictitious names may be used for publication, but the name of the writer must accompany any article sent in so that the publishers may know who the author is. No article will be published under any circumstances unless it is signed by the author. This open forum should prove a popular department of the paper and should be used extensively. We trust that its use may not come to be monopolized by a few but hope that the general public will see fit to make use of it freely in giving their views on any subject of interest to them. Whether your discussion agrees with the viewpoint of the publishers on a question or not, we want you to feel free to use the Open Forum.

Pierce says that the governor has been extravagant and the governor claims that Pierce is to blame for the high taxes by voting them when in the senate. But the people will pay the taxes. Anyway they will have the satisfaction of voting their religious (?) scruples.

It is said that P. U. had only three freshmen in the freshman team which played here against P. C. last week. The rest were sophomores, juniors, etc. Wonder what they would play for a varsity team?

The bargain period on the Graphic and the Portland dailies brought in an unusually large number of renewals as well as some new subscribers for both papers. It was a splendid offer.

Did you miss anything last Tuesday night? Dr. Hester said that he didn't take offence at anything until the boys took his fence.

Politics may be getting warm but the weather doesn't seem to be affected that way.
