MEANS AN IDEAL HOME

There is a difference between a house and a home. It isn't a home unless it combines correct architecture with practical arrangement that meets your personal needs. Creating homes has become a fine art. Correct home-building ideas have taken years and years to develop. The right kind of a home costs no more—frequently less—than the "hit or miss" kind.

These correct ideas and a Building Service by national experts are yours for the asking. Hundreds of modern designs are at this office ready for your attention. Step in and ask us about this Building Service.

WOULD HELP NEEDY

Help the needy. We have them with us.

A box is now in the post office, where cash contributions may be placed for the relief of the needy persons of our city.

The moneys received will be handled by a committee from each of the five city wards, and relief will be given where it is the most needed, as far as the cash received will reach.

It may surprise some of our citizens to learn that actual want and destitution exists at this moment, but such is the sad truth.

Help all that you can for it is needed. E. A. Ellis.

\$10,000 FOR TIMBER CRUISE

McMinnville, Or., Nov. 30.—In an effort to increase the assessed valuation of timber lands in Yamhill county, \$10,000 has been included in the tentative budget for 1933 by the county court for cruising timber. It is estimated that there are 90,000 acres of timber in the county, much of which is said to be held by outside interests for speculative purposes.

The timber has not been cruised in recent years for purposes of arriving at true assessment values.

Indications are that the county's budget for the coming year will be even greater than last and the county court is searching for possible ways in which the burden can be shifted from the farmers who are clamoring for relief.—Telegram.
