HEALTH TALK—NO. 5

HOW ABOUT YOUR CHILD?

One of the leading monthly magazines of the country is responsible for the statement that among children, one out of every three is below normal regarding health. This means that out of a total of Thirty Million, Ten Million are sub-normal. How about your child? Lose no time. Act now. Go at once to your Chiropractor, get him to make a Spinal Analysis, and if there is any defect have it adjusted at once. You owe this duty to your offspring. Chiropractic will make your child normal and will, if persisted in, keep the child normal.
