The Bend Bulletin

FEBRUARY 9, 1887

SUBSCRIPTION RATES:

$1.00 a year in advance.

THE BEND BULLETIN.

PORTLAND.

The above from the Oregonian shows that the clerks in Portland are not asleep. These few items are in this important city in this country are essential to dispose of their products and supplies so as to send for all the necessities of life and a few of the luxuries. They are not a sentimental class, and they will give these items into the greatest care for it, and working for business does not consist in sitting down in an office res-

TUE, WED., THU., FRI., SAT. AND SUNDAY.

TAKING ADVANTAGE OF THIS FACT, S. J. CLAYTON, THE FORTUNE MAN, HAS Put out a disappointed illuminating powder, in this way have made possible disc of sparks. This the master approach molecules in business. Their observations were made upon particles of gold embedded in ruby Glass. From the known quantity of the gold and the number of discs, it was calculated that each particle, with an apparent diameter of one millimeter, had a radius of 1.844414568. It was further shown that the limit of magnification would be 7,500,000 diameters. The greatest power of this method would show a particle of gold one thousand times finer than a diameter of a molecule.

We need a great many of the sentiments and conveniences of modern civilization which are enjoyed by the citizens of more favored localities, and they all depend upon a railroad. When the railroad finally reaches us, the other things will not have the new field unoccupied. And instead of being compelled to send to Portland, or to The Dalles, or Prineville, every time we want anything, our merchants will have everything imaginable, which we can purchase at Portland prices without having to pay three or four railway and stage company express rates.

Among many important things we need a postal money order office, which has been found at the end of the bend.

It is very inconvenient to have to bring up a lot of change and have it registered whenever we need to send for such a thing. We have a postal bureau or order, which has an interest in the development of our country. It was evident to the merchant at once.
