

The Itch Fiend

That is Salt Rheum, or Eczema—one of the outward manifestations of scrofula.

It comes in itching, burning, oozing, drying, and scaling patches, on the face, head, hands, legs or body.

It cannot be cured by outward applications—the blood must be rid of the impurity to which it is due.

Not Strikingly Noble.

"So your daughter is going to marry a nobleman."

"Yes," answered Mr. Cumrox; "he's only a nobleman by profession. Personally I must say he strikes me as a pretty common sort."—Washington Star.

Limited Opportunity.

"Did you call at Roxley's house?" inquired the young doctor's wife.

"Yes, and I wish he had sent for me sooner."

"Gracious! Is he seriously ill?"

"Quite the reverse. I'm afraid he'll be all right again before I get in a half dozen visits."

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

EUROPE'S RICHEST PRINCESS.

Certain Distinctions Which Denmark's Future Queen Enjoys.

Crown Princess Louise of Denmark, has the distinction of being the richest royal princess in Europe. She was left by her mother, the late Queen of Sweden, a fortune of 90,000,000 marks—about \$15,000,000 in our democratic dollars—and this legacy, through being wisely invested, has increased to a more impressive sum. The future Queen of the Danes is also the tallest of European royal women and is well formed, which compensates somewhat for her rather plain face.

These are not, however, the only re-

PRINCESS LOUISE OF DENMARK.

spects in which Louise, crown princess of Denmark, is noticeable among women with royal blood in their veins. As the mother of no less than eight children, she would have the hearty approval of President Roosevelt, whose good opinion, by the way, is beginning to be valued on the other side of the water even by royalties. The crown princess has four sons and four daughters, the youngest of them all being little Princess Dagmar, who was born in 1890.

Most of the mother's fortune will pass to the princess' eldest son, Prince Christian, who married in 1898 Princess Alexandra, sister of the reigning grand duke of Mecklenburg-Schwerin. The crown princess' second son, Prince Charles, also is a benedict. He espoused, in 1896, Princess Maud of Wales, the youngest daughter of King Edward VII.

EFFECTS OF MONEY.

Interesting Study of Results of Inherited Wealth on Families.

An interesting contribution to the study of the effects of money on families can be made by any person of statistical inclinations who will take the trouble to trace out for a few generations the history of a score or two of our very rich families, and learn what effect the acquirement of a big fortune by any individual American has had on the divorce record of that individual and his descendants. It is early yet to get results that would prove much, because most of the great American fortunes are pretty new; but already tendencies seem to be showing themselves which it would be worth while to trace back. There are believed to be about 4,000 millionaires in the United States; enough to give a statistician an ample field to work in. A fortune sufficient to make life easy and comfortable is probably a promoter of domestic happiness, but still it seems likely that rich people or their descendants get more divorces than poorer people do. In the first place, heirs and heiresses are more exposed to the wiles of the designing than the scions of poverty, and for that reason are somewhat more likely to make unwise marriages. Again, the rich, as a rule, have more leisure than the poor, are not so steadily and effectively disciplined by work, are less safeguarded by a wholesome routine, and cast about more widely and continuously for pleasures. Satan, as heretofore, finds mischief still for idle hands to do, and some of the mischief results in divorce. Moreover, the rich are somewhat more used to self-indulgence and having their own way than the poor. They can meet the expense of divorce, which is often considerable, can go as far as is necessary, stay there as long as is necessary to gain divorce on convenient terms; and they can afford to break up families without fear of want. Many a wife sticks to a bad husband because she and her children need his support; many a husband puts up with an unsatisfactory wife because he cannot afford to try a new one. Divorce, like the appendicitis operation, is a luxury, and comes high.—Harper's Weekly.

A Dog Day Dialogue.

"I notice you've got your summer pants on," remarked the dog fancier.

"Yes," gasped the exhausted terrier, "but they're not very loud; certainly not as loud as some of this season's fannels."

"True. Nevertheless, what you need is muzzlin'."

We always feel sorry for a boy whose father is so rich that his sons can't afford to go barefooted in summer.

PE-RU-NA IS OF ESPECIAL BENEFIT TO WOMEN

Says D. M. C. Gee, of San Francisco.

A constantly increasing number of physicians prescribe Peruna in their regular practice.

It has proven its merits so thoroughly that even the doctors have overcome their prejudice against so called patent medicines and recommend it to their patients.

"I Advise Women to Use Peruna," Says Dr. Gee.

Dr. M. C. Gee is one of the physicians who endorse Peruna. In a letter written from 513 Jones street, San Francisco, Cal., he says:

"There is a general objection on the part of the practicing physician to advocate patent medicines, but when any one medicine cures hundreds of people, it demonstrates its own value and does not need the endorsement of the profession.

"Peruna has performed so many wonderful cures in San Francisco that I am convinced that it is a valuable remedy. I have frequently advised its use for women, as I find it insures regular and painless menstruation, cures leucorrhoea and ovarian troubles and builds up the entire system. I also consider it one of the finest catarrh remedies I know of. I heartily endorse your medicine."—M. C. Gee, M. D.

Mrs. E. T. Gaddis, Marion, N. C., is one of Dr. Hartman's grateful patients. She consulted him by letter, followed his directions, and is now able to say the following:

"Before I commenced to take Peruna I could not do any hard work without suffering great pain. I took Peruna, and can say with pleasure that it has done more for me than any other medicine I have ever taken. Now I am as well as ever; I do all my own work and it never hurts me at all. I

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

GOOD BLOOD SPEAKS FOR ITSELF

You know when rich, red blood is coursing through the veins, for it shows in the brightness of the eye, the beauty and clearness of the complexion, the smooth, fair skin, and robust, healthy constitution. It is good blood that imparts strength and energy to the body and keeps it in a state of healthfulness and vigor. Good blood is the foundation of good health, and to be physically and mentally sound it must be kept pure and untainted. People with good blood possess strong, steady nerves and are blest with good appetites and digestion, and enjoy sound, refreshing sleep. If we could always maintain the purity of the blood then we might enjoy perpetual health, but it becomes infected and poisoned and most of the ills that afflict humanity and undermine the constitution are caused by an impoverished or polluted condition of this vital fluid.

When the blood is diseased the skin loses its healthy appearance, and the complexion, its freshness and beauty and becomes red and rough and full of pimples and spots. Itching, scaly eruptions, blackheads, boils and rashes break out upon the body when the blood is too poor or too thin and acid, and is not supplying proper nourishment to the system. Debility, poor appetite, bad digestion, restless sleep and nervousness more often come from sluggish, impure blood than any other cause. To build up the blood, restore its lost properties and make it rich and nutritious again is the only rational treatment, and the proper way to get rid of skin troubles. There is no remedy like S. S. S. to accomplish this and it does it promptly and thoroughly. S. S. S. antidotes and removes from the blood all poisons and humors, and restores it to a normal, healthy condition, and invigorates and tones up the general health. When rich, red blood is again flowing through your veins all skin eruptions disappear, the appetite improves, the complexion clears and you get rid of those miserable depressing feelings and nervousness, and enjoy once more the blessings of good health. S. S. S. is nature's remedy for all blood and skin diseases. It contains no minerals whatever, but is guaranteed purely vegetable.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

I was in wretched health; my blood was in bad order, my gums being very much ulcerated. I began the use of S. S. S., and in a remarkably short time was sound and well. My appetite increased wonderfully and my food agreed with me. I think it is a fine family medicine.
MRS. M. R. DAVIDSON.
Rockmart, Ga.

For three years I had Tetter on my hands. Part of the time the disease was in the form of running sores, very painful and causing me much discomfort. Four doctors said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble.
