The Oregon supreme court holds that no tax levy can be made next January.

John Mitchell, president of the United Mineworkers, is quite ill at Scranton, Pa.

The Bilbao, Spain, strikers have returned to work and their demands will receive consideration.

DID NOT FIX LINE.

Alaska Commissioners Let One Stretch Go—No Data to Work On.

Washington, Nov. 7.—Contrary to the general understanding, it developed in Washington today that the Alaskan boundary commission, recently in session in London did not finally locate the entire boundary line between British and American territory, but a stretch of over 139 miles between Kate's Needle and the Devil's Paw, two prominent mountain peaks lying southeast of Skagway, is yet to be definitely located. Because of the failure of the commission to determine the location of this line the joint surveying commission that will be charged with marking off the boundary as recently determined will be unable to operate over this stretch of territory, which is about one-fourth of the entire length of the boundary that has long been in dispute.

It so happens that the country lying between Kate's Needle and Devil's Paw is desolate, and apparently worthless mountains of snow and ice. The determination of the actual location of the boundary is therefore of no immediate importance, but should mines be discovered, there would be a repetition of the dispute that has existed all over Southeastern Alaska since the discovery of gold in the territory.

The boundary commission did not have before it sufficient data to enable it to fix this portion of the boundary with any degree of satisfaction.

PREDICT ITS SUCCESS.

Passengers From Panama Also Say Americans Favor Revolt.

San Francisco, Nov. 7.—When the steamer San Juan, which arrived here today, left Panama, October 29, the preparations for the revolution were well under way, and secession was talked everywhere upon the streets. Evidently, the government has known for at least two weeks that a crisis was approaching.

Passengers on the San Juan who came from Panama and various points in Central American republics are agreed that the revolution, which the cable reports as in progress, was most carefully planned, and they predict its success. They also state, according to the Evening Post that the diplomatic representatives of the United States are favorable to the revolutionists.

The men at the head of the secession movement are friends of the Panama canal and want the canal built by the United States and maintained under the military protection of the United States.

Among the San Juan's passengers was John Jenkins, United States consul-general at San Salvador, who said:

"The independent government now being formed in Panama will always remain there. The Bogota government is out of place and has no reason for longer existence.

RUSSIA THREATENS CHINA.

Will Assume Charge of Manchuria Unless Demands Are Met.

Tokio, Nov. 7.—Reports from Peking say Russia now threatens to assume sole charge of the government of Manchuria unless China promptly dismisses Yuen, the taotai of Mukden, and decapitates another mandarin who recently punished disorderly Chinese bandits in Russian employ.

The action of Russia has caused considerable resentment against the Czar in Chinese official circles. It is looked upon as showing that the alleged pacific attitude of Russia is not borne out by her actions. A number of the high officials continue to advocate the addressing of a forcible appeal of protest against Russia's attitude to the powers, with a request that they interfere to preserve the integrity of the Chinese empire.

Porte Absolutely Rejects Plan.

London, Nov. 7.—The Constantinople correspondent of the London Daily Mail writes the sultan has absolutely rejected every one of the proposals contained in the joint note of Austria and Russia, demanding that the Macedonian reform be carried out under the direction and supervision of officials appointed by the two powers.

PORT IS FIRED ON

COLOMBIAN WARSHIP SHELLS CITY OF PANAMA.

American Representative Promptly Protests, as Action is Contrary to Rules of War—No Notice Was Given—Marines Land at Colon—Lives of Foreign Residents in Danger for a Time.

Washington, Nov. 6.—The Colombian warship Bogota today shelled the city of Panama, according to advices received by the state department from Consul Ehrman. One Chinese was killed, Secretary Hay promptly instructed the American representative to protest against the bombardment, and if it has not ceased by the time the cruiser Boston, now on her way to the scene of the revolution, arrives, the Colombian vessel will be seized. The bombardment is in violation of all rules of war, since it was begun without notice. The flag of the new republic, red, white and blue, has been hoisted at Panama.

American residents in Colon were in grave danger for a time today, and 50 marines were landed. They were ordered back to the ship this evening, when the authorities promised to maintain order.

Commander Hubbard, of the Nashville, notified the prefect of Colon that any movement of troops to Panama would threaten the free and uninterrupted transit of the isthmus, which the United States is pledged to maintain, and accordingly he has directed the superintendent of the railroad to move no troops for either side.

The state department today received a request from the representatives of the revolutionary government at Panama that the United States recognize the new state of Panama, but pending official advices from United States consul officials at Panama that a new government has been established and is a de facto government, the state department declined to commit itself. However, attention was called to the fact that it is the invariable policy of the United States to deal with the de facto government in any country. This statement is taken as favorable recognition should the new Panama government have an active existence.

The dispatches to the Nashville, which should have reached her immediately upon her arrival at Colon, November 2, were intercepted and were not received by Commander Hubbard until after the Colombian gunboat Cartagena arrived at Colon with 500 Colombian troops aboard, when it was too late to prevent her entrance to the harbor. The execution of the original scheme would have eliminated the Cartagena from the situation in Colon, and the present unfortunate complications would have been avoided.

Tonight Acting Secretary Darling received a dispatch from the captain of the cruiser Atlanta, at Kingston, Jamaica, saying he would sail with his vessel tomorrow morning at 9 o'clock. The Atlanta has been taking on a supply of coal at Kingston.

LYNCHING ENDS RIOT.

Negro Who Killed White Man Is Taken From Jail.

Lake Village, Ark., Nov. 6.—Two people are dead and three wounded as the result of trouble between whites and blacks here today, which was not settled until a lynching had quieted the excited people.

A riot occurred between some Negroes and whites early in the day. It is alleged that during the altercation Ed. Coleman, colored, pulled a pistol and began shooting. A fusillade followed, and when it ceased, it was found that Frank Anderson, one of those in the crowd, was dead. Vinson was shot in two places, frame wounded in the foot, and Ella McDowell, colored, shot in the back.

Coleman fled, and a posse at once started in pursuit. Johnson, one of the Negroes, was arrested. At noon the mob gathered at the courthouse.

Sledge-hammers and railroad irons were quickly found and in 30 minutes four doors at the jail had been broken down. The mob quickly secured the negro, took him to the center of the town, and hanged him at noon.

Acre Territory Dispute Settled.

Rio De Janeiro, Nov. 6.—The Acre territory dispute between Bolivia and Brazil has been settled. The principal points which were under consideration in the Acre dispute were whether the territory beyond the tenth degree of latitude shall become Brazilian territory, Brazil to pay Bolivia \$5,000,000 and allow Bolivia the right to send Acre products to Brazilian ports on the Amazon river.
