**FINANCES OF BEND**

Receipts are \$2535, and Expenses \$1634.33.

**HYDRANT CHARGE IS FIXED**

City to Pay \$35 a Year per Hydrant--Steps Taken Toward Organizing Fire Department.

According to the reports of the recorder and treasurer submitted at the council meeting Wednesday night the city has a balance of \$1,149.27 on hand. It has received for saloon licenses \$2,400, from miscellaneous licenses \$8, from fines in recorder's court \$97.50 and for dog licenses paid prior to July 4, \$4.50, making total receipts from all sources \$2,510. Warrants against this have been drawn to the extent of \$1,359.73, leaving a balance on hand of \$1,149.27. Bills to the amount of \$368.75 were ordered paid at this meeting and \$5.85 have been drawn from a previous appropriation for recorder's supplies, and there have been collected in recorder's court fines this month \$12.50 and about \$12.50 more have been received for dog licenses, leaving the net balance on hand at this time about \$901.66.

The question of rates for fire hydrants was debated at considerable length. The committee on fire presented a report, signed by McMillan and Redfield, recommending an annual water charge of \$35 for each of the 11 hydrants. This was coupled in the report with the condition that the charge to private consumers for tapping mains should be \$8 each, the water company giving free service until September 1. After much discussion it was concluded to leave the matter of tapping charges to be settled between the consumer and the company. Therefore the report of the committee, except that part relating to the tapping charges and free water service, was adopted.

Notice was received that the fire hydrants had been shipped from the factory and the committee was directed to have them set and connected with the water mains as soon as they arrive. The committee was also instructed to see to the disposal of the hose carts where they would be most available in case of fire.

Mayor Goodwillie gave notice that he would ask S. C. Caldwell to take the leadership in the organization of a volunteer fire department for the city and that an ordinance would be presented for the consideration of the council at its next meeting.

trailing his horses. They were taken 100 miles before being fed and were generally used hardly on the trip, their bare feet bleeding when they reached Cottage Grove. But they are not permanently injured. Mr. Findley brought them back across the range with him. The thief was arrested before he had time to spend the money or dispose of another horse taken in trade, so the purchaser of the stolen horses was able to get his money and property back.

**DAMAGE BY SHEEPMEN.**

**Injure Irrigation Ditches, Set Fire to Forests and are Defiant.**

Shepherds of R. R. Hinton, of Antelope, have been making trouble in the Tumalo country lately and there is a prospect that there will be trouble for them at the next setting of the circuit court. The Wimers, Mr. Jensen and others report the presence of the sheep in their locality and that a great deal of damage has been done by them. And to cap the climax the sheepmen set out fire which has burnt over nearly a township of land and is still burning. Owing to the lack of underbrush comparatively little damage has been done by the fire but still the injury is considerable.

The sheep tramped down the banks of irrigating ditches, filling the current with sand which raised the bottom at critical places, caused overflows and breaks and was generally annoying and destructive. Mr. Jensen says he has more than a week's work to restore his ditches, besides the damage from water running wild, and the Wimers are even greater sufferers. Of course the sheep have destroyed all the home range for the settlers.

The herders were quite overbearing, insolent and defiant, as well as unnecessarily careless. The names of the men who have been making themselves specially obnoxious are George W. Stege, Paul Laverty, Fincher, and Hinton, a nephew of the owner of the sheep. Two other herders whose names are unknown came up later and were not quite so offensive. Last year Hinton's herders were very reasonable. This year they appear very otherwise.

**Robins Like Late Strawberries.**

Robins of the Deschutes valley have a tooth for strawberries, though they are a new product here. Mr. Drake has a small plot in strawberries and they are doing very well, but the robins take the ripe berries as fast as they ripen, unless they are watched very closely. Even when the vines are covered up the birds pry around under the edge of the cover and peck the berries. These berries, by the way, will compare favorably with the choicest Hood River product, both in size and flavor. They are somewhat later than the Hood River berry, but this is probably due to the fact that irrigation was not applied until late. Next year Bend will probably have plenty home grown strawberries. L. D. Wiest set out a large lot of plants this year and Dr. Nichol has another large and exceptionally promising plot.

**Opening of the Bend Hotel.**

Landlord O'Kane opened his brand new Bend Hotel last Monday morning and had a profitable patronage right from the start. The bar had been running several days but the hotel proper was not previously in shape for the entertainment of guests. The kitchen and dining room, with everything new and first class and in apple pie order, gave service that could not be beaten. The dining room is commodious, and arranged to please the eye as well as the stomach. The whole establishment is modern and attractive.

The hotel office is at the corner. West of that, on Oregon street, is the barroom and then barbershop and bath. At the other side of the office, on Bond street, is a spacious hall with stairway, and under the staircase the general lavatory. Beyond that are the diningroom, ladies' parlor and family living rooms. At the rear of the dining-room is an addition for a kitchen, with open space on three sides so ventilation will always be easy and complete. The upper story is divided into 23 guest rooms, all good sized and well finished and furnished. No hotel in Central Oregon is better equipped or better served.

Call on the city treasurer and pay your dog license.

**140,000 ACRES READY**

Main Reclamation Completed in August.

**ADVERTISEMENT FOR PATENT**

Margin of Safety in the Flume Greater than was Planned at First --Progress of Work.

The D. I. & P. Co. will be ready to apply for patent to 140,000 acres of its segregated lands about the middle of next month. That will be all of the original Drake segregation and also the 56,000 acres additional of the Oregon Irrigation Co. north of Bend. It does not include any part of the D. I. & P. Co.'s own segregation south of Bend, which is not yet in shape for reclamation.

General Manager Johnston is here shaping the work for completing the title to the first 140,000 acres. When the big flume shall be finished there will be plenty of water available for all this land. Not all the laterals of the distributive system are yet ready for service but the work has progressed so far that the rest is a mere matter of a little time and will be completed faster than the land is occupied.

The new flume, it is found, will carry nearly 1,000 cubic feet of water per second instead of the 650 at first estimated for it. This will give a capacity nearly double that required for the segregated land to be served by it, so that after making a generous allowance for evaporation and other wastage there will still be a safety margin of about 50 per cent. This, of course, opens possibilities to those holding private lands within reach of this system, but there will be no impairment of the service required by the government in order to water outside soil. After the government's demands are fully met other lands may be served.

**COME LONG WAY FOR FUN.**

**Prominent Ohio Men Come to the Deschutes for Summer Outing.**

President H. D. Turney, of the D. I. & P. Co., arrived in Bend last Saturday afternoon with a party of Ohio friends. These were Governor Myron T. Herrick, of Cleveland, and Dr. T. H. Rankin, W. T. Burdell and George W. Sinks. The party remained in Bend until Monday and then went up the river to the vicinity of W. P. Vandever's where they have spent this week hunting and fishing. Dr. Rankin took too violent horseback exercise Sunday so he did not feel equal to a week of camp life and he returned to town last night.

Monday General Manager Johnston arrived with his family and Dr. Sinks, of Leavenworth, Kan., and the gentlemen of the party joined the campers up the river.

The Turney party will leave Sunday or Monday. Governor Herrick, who is chairman of the executive board of the Wheeling & Lake Erie railroad, has his private car at Shaniko for the accommodation of the party, which will visit Puget sound and return to the East over the Canadian Pacific railway.

Governor Herrick is prominently identified with Gould railroads and it is not impossible that his visit here may have some bearing on the proposed extension of the Western Pacific in this section. All the gentlemen were much pleased with the novelty of this outing and with their view of the country.

**Lester's Thrifty Way.**

It now comes to light that E. R. Lester, while marshal of Bend, collected considerable money of which he rendered no account. One woman has his receipt for \$40 collected in the guise of fines but which he never rendered an account of to the proper authorities. There is said to be more but it has not been definitely traced. These extortions are likely to come before the circuit court in October.

The government thermometer registered 104 in Lakeview last week, and Lakeview is at higher altitude than Bend. Bend's highest temperature was 97 degrees.

There is a fine office room with double windows on the second floor of the bank building for rent at \$12 a month.

**BRICK ORDERS**

Should be left with  
**J. H. OVERTURF**  
Phone 24

The Lewis Brick Co. now has brick for sale at the Barney Lewis homestead, two miles from Bend on the Sisters road. Deliveries will be made on 24 hours notice.

**The Lewis Brick Co.**

**HORSE THIEF CAPTURED.**

Took Team of D. A. Findley and Got Promptly in Limbo.

Three weeks ago a stranger giving the name of Tetherow was at D. A. Findley's ranch 38 miles south of Bend. When he left the locality a span of Findley's best horses disappeared. The circumstances so strongly indicated that the horses had been stolen that Mr. Findley hit the trail in pursuit and sent his son Charley to make complaint before Justice Lawrence, who issued a warrant for the arrest of Tetherow. This was wired to the sheriff of Lane county at Eugene. When D. A. Findley got within 20 miles of Eugene he ascertained by telephone that the warrant was ahead of him, and the culprit in jail and the horses in safe hands. "Tetherow" had been identified at Cottage Grove, where he had disposed of the team, and was arrested by the marshal of that town on instructions from the sheriff.

Mr. Findley went on to the jail and identified his man. It was soon found, however, that "Tetherow" was an alias, his true name being Yarboro and his record as a horse thief very unsavory. He had been in Lane county before. It is said that he recently broke jail in Wheeler county and has had similar experiences in other Eastern Oregon counties.

Sheriff Smith went after Yarboro but was delayed in Portland on account of the land fraud trial. This afternoon Yarboro appeared in court by telephone, waived examination and was held to the circuit court.

Mr. Findley had no difficulty in
