SORES THAT DO NOT HEAL

Whenever a sore or ulcer does not heal, no matter on what part of the body it may be, it is because of a poisoned condition of the blood. This poison may be the remains of some constitutional trouble; the effect of a long spell of sickness, which has left this vital stream polluted and weak, or because the natural refuse matter of the body, which should pass off through the channels of nature, has been left in the system and absorbed into the circulation. It does not matter how the poison became intrenched in the blood, the fact that the sore is there and does not heal is evidence of a deep, underlying cause. There is nothing that causes more discomfort, worry and anxiety than a festering, discharging old sore that resists treatment. The very sight of it is abhorrent and suggests pollution and disease ; besides the time and attention required to keep it clean and free from other Infection. As it lingers, slowly eating deeper into the surrounding flesh, the sufferer grows morbidly anxious, fearing it may be cancerous. Some of those afflicted with an old sore or

ulcer know how useless it is to expect a cure from salves, powders, lo-tions and other external treatment. Through the use of these they have seen the place begin to heal and scab over, and were congratulating themselves that they would soon be rid of the detestable thing, when a fresh supply of poison from the blood

I have had a crippled foot all my life, which compelled ma to use a brace. By coursed a bad Ulcer on my leg, about six years ago. I had good medical attan-tion, but the Ulcer got worse. I was in-duced to try B. S. B., and am glad to say it cured me entirely, and I am convinced that it saved my leg for me. I have, therefore, great faith in B. S. S. and gidly recommend it to all needing a reliable blood medicins. Bristol, Va.-Tenn. W. J. CATE.

would cause the inflammation and old discharge to return and the sore would be as had or worse than before. Sores that do not heal are not due to outside causes; if they were, external treatment would cure them. They are kept open because the blood is steeped in poison, which finds an outlet through these places. While young people, and even children, sometimes suffer with non-healing sores, those most usually afflicted are persons past middle life. Often, with them, a wart or mole on the face inflames and begins to ulcerate from a little rough handling ; or a deep, offensive ulcer develops from a slight cut or bruise. Their vital energies and powers of re- Tit-Bits. sistance have grown less, and circulation weaker, and perhaps some taint in the blood, which was held in check by their stronger constitutions of early

life, shows itself. It is well to be suspicious of any sore that does not heal readily, because the same germ that produces Cancer is back of every old sore and only needs to be left in the circulation to produce this fatal disease,

PURELY VEGETABLE. There is only one way to cute these only one way to cute the only one way to c particle of the poison out of the blood. For this purpose nothing equals S. S. S. It goes down to the very bottom of the trouble, cleanses the blood and makes a permanent cure. S. S. S. enriches and freshens the circulation so that it carries new, strong blood to the diseased parts and allows the place to heal naturally. When this is done the discharge ceases, the sore scabs over and fills in with healthy flesh, and the skin regains its natural color. Book on Sores and ulcers and any medical advice desired will be furnished without charge.

SHIPYARDS ARE BUSY.

New Vessels for Navy. While the attention of the public is attracted only at intervals to the three big shipyards on the Delaware River, there is an army of 10,000 men daily hammering, forging and welding, bending every energy toward the completion of the great vessels under construction here, says the Philadelphia Ledger. Never have the employes of Cramps', Neafle & Levy's and the busier than at present. Particularly

5,300 workmen. The greater part of this work is being done for Uncle Sam, seven ships being under way here. Two of these, the armored cruiser Tennessee at Coamps, and her sister ship, the Washington, which is being built at the South Camden yards of the New

York Shipbuilding Company, have attracted attention by the efforts which the respective companies are making now nearing completion, with the Tennessee slightly in the lead.

Besides the work on the warships six large passenger steamships are tor."" also being built by the Cramps company. Four of these are for the New York and Cuban Mall line, while the two remaining go to the Southern Pacific Company.

In Fit Array.

"And just as I was getting up, the fellow that owned it came along and took It!"-Cleveland Leader.

At the end of January Mrs. Wunder rought her nice new expense book to her husband. "I can figure up my January balance all right," she said, "but I'm either \$19.05 behind or shead, I remember what all the other items are for, but I can't recall whether I spent that \$19.05 for something, or you gave it to me for household expenses." Mr. Wunder looked at the page for a moment, then handed back the book with a condescending air. "My dear," he said, "that 1905 seems to me to indicate what year this is."-Judge.

Among the visitors at an art exhibition were two old ladies from the country. They were examining with great interest a bas-relief of a young Greek shepherd, beneath which were inscribed the words, "Executed in terra cotta." "I wonder where Terra Cotta is," ventured the elder of the two, turning to her companion, "Well, now, I ought to know," hesitated the other, "but I can't seem to place it just now." "Ah, well," rejoined the first speaker, 'as they passed on, "it must be a dreadful place if they execute harmless young boys like that there."-Philadelphia Ledger.

On one of the old turnplkes yet remaining in the South a big touring car had twice rushed through the gate without paying toll. The third time they made the attempt the negro tollman shut his gate and brought them to a stand. With indignation the balfdozen occupants of the car declared they were entitled to ride free. "Look at your own board," said the spokesman. "It says, 'Every carriage, cart or wagon drawn by one beast, two cents; every additional beast; two We're not drawn by any beast cents. at all." "No; but here's where ye come in, sah," replied the darky, pointing to another clause as follows: "Every half-dozen hogs, four cents.' An' three times four is twelve," he added.

Katie, "if my dress had little pink and the girls laughed, and even bows all over it." mother smiled.

W mention this paper.

HE LAXATIVE OF NOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

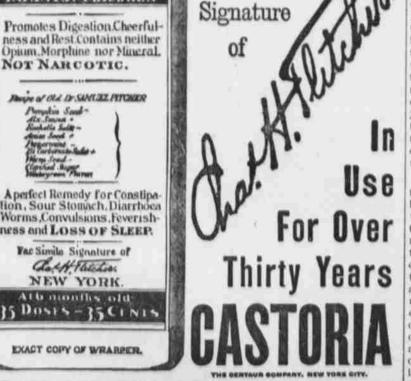

There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy. To the credit of the druggists of the United States be it said

that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine-Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company-California Fig Syrup Co.-plainly printed on the front of every package. Price, 50c per bottle. One size only.
