TIMBER LAND WANTED

I have completed arrangements whereby I can
handle a number of good timber claims, in the Des-
chutes timber belt, at once. Title must be perfect.
I have special inquiry just now for land in Tps.
21, 22, 23 and 24 S., R. 11 E., and if parties owning
land there will communicate with me, it may result to
the advantage of all concerned.

HURT BY DYNAMITE

Seriously Injured by Acci-
dental Explosion.

WORKING ON ARNOLD DITCH

Was Throwing 24 Sticks of Dynamite
when They Were Suddenly Dis-
charged--Will Recover.

Irvin Reed of this place was seri-
ously injured Tuesday morning,
about 9 o'clock, by the accidental
discharge of 24 sticks of dynamite
which he was preparing for use in
blasting on the Arnold irrigating
ditch, about seven miles southeast
of town. As the result of the acci-
dent he will undoubtedly lose the
use of his right eye, the sight of
the left eye will be impaired some-
what, his face, right side and arm
were terribly lacerated and bruised
from the gravel, small stones and
dirt that were shot against him,
and he was injured internally.

Reed, in company with John
Cottor and Luverne Reed, had gone
to work Tuesday morning, the two
latter starting to work in the ditch
while Irvin built a fire and pre-
pared to throw out the 24 sticks of
dynamite, placing them in a box
a short distance from the fire, this
being the custom preparatory to
the use of this explosive. Cottor
and Luverne Reed were drilling in
the ditch some distance from the
fire. Shortly before the explosion
they noticed Irvin stooping over
as though he was working with one
of the dynamite sticks. A few mo-
ments later the explosion occurred.
The two men in the ditch were
slightly stunned, but were soon able
to go to the injured man's assistance.
They found him badly wounded,
unconscious, with his clothing nearly
torn from his body by the force of
the explosion. They at once
called for help, knowing that J. W.
Reed, the young man's father, and
H. W. Reed, his uncle, were dis-
tant about a quarter of a mile run-
ning a survey. These two soon ar-
rived on the scene of the accident
and Irvin was brought to Bend as
quickly as possible.

Dr. Coe found Reed in a serious
condition. For several hours he
bled a little from the lungs. The
wounds on his side and face, while
very painful, are only flesh wounds
and will readily heal. His eyes,
however, will be permanently in-
jured. The concussion had so rup-
tured the blood vessels and capillar-
ies and strained the bowels and
lungs that complications of an in-
flammatory nature may easily de-
velop.

Last evening the injured man
came out of the stupor that followed
the accident and was able to tell
how it happened. He was working
near the dynamite and was stooped
over within two feet of the box
when the explosion took place. It
is presumed that some slight jar set
the stuff off when it was thawed to
the most sensitive point. The won-
der is that death was not instan-
taneous.

CHINA PHEASANTS AT BEND.

A Flock of These Pretty Game Birds
Noticed in This Vicinity.

Another class of settlers are com-
ing to the Bend country. This
time it is a fine flock of China
pheasants. Last June John Steidl
noticed a number of these pretty
birds on the west side of the river
just below town. At that time
there were three or four hens, one
rooster and several young pheas-
ants, numbering in all 21 or 22
birds. They again appeared the
first of the week but this time Mr.
Steidl could only count 14 or 15 in
the flock.

People interested in pheasants
agree that it would be a fine plan for
every man to constitute himself a
game warden and protect this flock
until they have time to multiply and
stock the country. If the hunters
will leave them alone for a year or
two they will increase sufficiently
to insure a supply for hunting pur-
poses. For this reason it was sug-
gested that notice be given request-
ing all hunters to spare this flock.

It is puzzling local sportsmen to
figure out how these birds got into
the Bend country, as they are not
native to this region. It is known
they are very numerous on the west
slope of the Cascades, but none
have before been seen hereabouts.
Mr. Steidl advanced one theory

that seems plausible. He suggest-
ed that perhaps the flock had been
driven to the summit of the moun-
tains during the time of heavy for-
est fires on the western side. Once
catching a view of this country, it
looked so good to them that they
made their way down here where
they have taken up their abode.

MOVING ON TO BEND.

Railroad Surveyors Establish Camp
Here This Week.

Chief Engineer Graham and his
party of Oregon Eastern surveyors,
who are locating a railroad line be-
tween Madras and Bend, are mov-
ing to Bend today and will make
their headquarters here for some
weeks. Their camp will be on the
flat where the barns and corral of
the D. I. & P. Co. formerly was.
The Pilot Butte company has given
them free camp facilities and every
courtesy desired.

The news has been published
that Harriman has made definite
announcement of a railroad from
Eugene to Klamath Falls and Onta-
rio next year, but the story is so
muddled that it does not add much
to public knowledge of the matter.
The Dufur line is coming right
along from the north. News from
a private source runs to the effect
that there will certainly be an ad-
vance of the Corvallis & Eastern,
either as a Harriman property or a
Chicago & Northwestern link, and
the fact that it could throw a line
into Bend in three months, if nec-
essary, is taken as proof that it is
still the most important transcon-
tinent factor for Central Oregon.

ANOTHER BIG RANCH.

Vice President Baldwin of the D. I.
& P. Co. Gets Busy.

C. S. Eaton, who arrived this
week to develop a 640-acre ranch
for E. A. Baldwin, of the D. I. &
P. Co., east and a little south
of Bend, has already put lumber on
the ground for buildings, which
will be constructed at once. A
frame dwelling 20x22 feet, one
story, and a barn 26x32 feet will
constitute the plant for this winter.
The work of clearing land will go
forward so a considerable area will
be ready for seeding in the spring.
Mr. Baldwin expects to raise a va-
riety of crops and will combine ex-
periment work with farming for
profit.

The Baldwin tract is in the
neighborhood of the Turney hold-
ing of 640 acres and the Johnston
ranch of 1080 acres, now under
development. The Haswell-Guerin
tract and the Janney farm are also
in that locality. All the ditch land
holdings of the officers of the D. I.
& P. Co. and their friends are out
east of Bend and they will develop
big ranches there.

Educational Meeting.

A meeting of the Crook County
Educational Union will be held at
the B. M. hall tomorrow evening.
Superintendent Dinwiddie, Profes-
sor A. C. Strange and a number of
outside teachers will be present and
various educational topics will be
discussed. The meeting will be
open to the public.

Before this meeting there will be
a reception for the visitors from
5 to 6 o'clock at the home of Mr.
and Mrs. Drake and citizens of the
district generally are invited to
greet the teachers on this occasion.
A notice of the reception appears
elsewhere in this paper and is the
only invitation issued, the short-
ness of the time and the desire to
make it general forbidding special
invitations. It is hoped the visitors
will be given an enthusiastic wel-
come.

Notice of Meeting.

Notice is hereby given that there
will be a meeting of the Deschutes
Settlers' Association in the B. M.
hall Saturday Dec. 23, 1905, at
1 o'clock p. m. All members are
urgently requested to be present.

Matters of vital importance to all
will be brought up for action.
The committee sent to Salem
will report at this time.

P. L. TOMPKINS, Sec'y.

Seed Oats For Sale.

I have several hundred bushels
of superior Winter oats, suitable for
seed, for sale. Write or call at
my ranch six miles east of Sisters.

CITIZENS NOW ACT

Mass Meeting Sends Pro-
test to Land Board.

MORE THAN 100 SIGNATURES

Want Contract for Diversion of Water
Below Bend Adhered to--
Commercial Club.

Resolutions protesting against
any change in the D. I. & P. Co's
contract with the state, which
would work abandonment of the
contract diversion point below
Bend, were passed unanimously at
a mass meeting of citizens held in
the B. M. hall Saturday night.
After more than 100 citizens had
signed them they were forwarded
to the state land board.

Mayor Goodwillie called the
meeting to order, and John Steidl
was made chairman and P. L.
Tompkins secretary. Mr. Steidl said
that the object of the meeting was
to consider measures for the well-
fare of the community and called
upon Mayor Goodwillie for a fuller
statement. The mayor spoke of
the work of the D. I. & P. Co. in
the reclamation of the country and
the contracts it had entered into
with the state, one of which con-
tracts require the diversion of water
for reclaiming 56,000 acres to be
from a point below Bend. On ac-
count of the extra expense of
building a dam for this diversion
the company had been allowed an
extra \$1.27 an acre, but now it
proposed to avoid that expenditure
by diverting the water above Bend
through works already built, thus
preventing the flow of water past
Bend in the river channel. Mr.
Goodwillie did not condemn the
company for this stroke of economy
but said it was for the people who
have property that would be
affected by the change to express
their desire. His desire was that
the company should be held to the
contract already made because im-
portant interests had grown up de-
pending on the carrying out of
that contract in good faith.

Several men discussed the situ-
ation. "This is not a fight be-
tween Mr. Drake and the ditch
company," declared H. W. Reed.
"All this locality is vitally inter-
ested in seeing that the irrigation
company observes the terms of its
contract. There is no injustice in this;
it is a reasonable requirement."
Thomas Tweet, Hugh O'Kane, L.
D. Wiest and others expressed sim-
ilar sentiments. Mr. Wiest offered
the following preamble and resolu-
tion:

Whereas, The Deschutes Irrigation &
Power Company has entered into con-
tract with the state of Oregon for the
reclamation of certain lands under
specifications which require the water
for such reclamation to pass beyond the
City of Bend before the diversion from
the Deschutes river, insuring to said
city and the vicinity around about it
power and logging facilities which are
requisite for greater development of this
section, and

Whereas, In order that the work of
reclamation might be done at a
minimum of expense and that the extra
money which the state has allowed them
under said contract might so be saved to
themselves, the said company now pro-
poses to divert such water from the
Deschutes river at a point about three
miles above that specified in said con-
tract, and to conduct it through flumes
and canals already constructed under a
former contract, and

Whereas, Many persons, who have
made investments at points along the
Deschutes river in the firm belief that
there would be permitted no deviation
from said contract, would be greatly in-
jured by such deviation, and the state of
Oregon in no way benefited thereby;
now therefore be it

Resolved: That we, interested prop-
erty owners and citizens in public
meeting assembled, hereby protest against
such proposed deviation from the con-
tract of the said Deschutes Irrigation &
Power Company and the state of Oregon,
and urge the state land board not to
permit such change, inasmuch as num-
erous and important interests are de-
pendent upon the fulfillment of the con-
tract as now in force.

MOVE FOR COMMERCIAL CLUB.

After the resolutions had been
disposed of Chairman Steidl and
others discussed the matter of
forming a commercial organization
to promote the interests of the
town and vicinity. Everybody was
in favor of it and a long list of
names was attached to a promise of
membership in such body. In
order to get the organization in
tangible shape Chairman Steidl,
Mayor Goodwillie, Secretary
Tompkins, Hugh O'Kane and E.
F. Batten were constituted a com-
mittee to frame a plan for perma-
nent organization.
