Work on the dam at the headgates south of town is being pushed right along although it is a slow job on account of the strength of the river current at that place. Some of the workmen are deepening the intake channel from the river to the gates about three feet. This will help largely in throwing a much greater volume of water into the flume.

The dance last night by the Modern Woodmen was quite a successful affair, although the masquerade part of the programme did not amount to much, only a few masking. Mrs. F. O. The receipts were \$22, while the Royal Neighbors took in \$8 by serving supper.

In a very short time he had secured \$17.75 in cash and 10 days' work promised. Since the surveyors left Bend someone has killed a calf, removed the hide and left part of the carcass close to the river bank near where the surveyors were camped. Water from the rains and snow drains from this into the river above the point where Bend's water is taken out. It should be remembered by all that it is strictly against the law to contaminate the water of a river that is used for domestic purposes in any such manner as the above.

Wednesday evening Mr. and Mrs. F. O. Minor gave a delightful dinner party to a few friends. Table decorations were in commemoration of Washington's birthday. Running around the table was a strip of green crepe tissue paper. On this at each plate was a tiny tent with a flag flying from the top and Washington's picture on the flap. Within the tent were several stuffed dates to represent cannon balls. Favors consisted of a little red card hatched tied to a card, with ribbon. On the card appeared a limerick descriptive of some momentous period in the life of the person for whom intended.
