

LOCAL BITS.

Mr. and Mrs. John Ryan celebrated the Fourth at Prineville.

Ice cream sodas can now be obtained at the postoffice store. 14tf

A baby girl came to the home of Mr. and Mrs. R. B. Mutzig yesterday morning.

James McCoy left yesterday for Laidlaw. Later he will go to Redmond and Madras.

During the week 10 freighting outfits have passed through Bend enroute to Silver Lake.

Dr. I. L. Scofield will hereafter make regular visits to Bend from the 15th to 20th of each month. 14tf

A. H. Grant's government thermometer registered 93 degrees Monday, 98 Tuesday, 96 Wednesday and 97 Thursday.

Arrangements are about completed for a series of three games to be played between Bend and Prineville ball teams, the first game to be played on the Bend diamond a week from next Sunday.

Mrs. R. H. Muncy and daughter Ethel are expected to arrive in Bend from Minnesota in about a week. Mr. Muncy has been here for some time working for a Minnesota lumber company.

Philip Francis has had the misfortune to lose to good horses from his freighting teams during the last three weeks. Both horses were taken sick while going through Cow Canon and died a few days afterward.

P. L. Tompkins and C. S. Benson were in Prineville the first of the week. From there Mr. Benson went on to The Dalles to be present when the arguments in the court house injunction case are made before Judge Bradshaw.

The Fourth was a peaceful day in Bend. Aside from the occasional boom of the giant fire-crackers and the pop of the smaller artillery no unusual noises disturbed the serenity of the town. The boys fired the crackers, burned their fingers and seemed to have a good time.

Do not fail to attend the Christian Endeavor social on A. H. Grant's lawn tonight. This was first advertised to be held in the B. M. hall, but owing to the hot weather and beautiful moonlight nights, a change was decided on. Ice cream and cake and many things for amusement will be provided.

The Bend Water, Light & Power Company installed a new pump at their pumping station yesterday. During this hot weather there is a large amount of water used, chiefly for lawn sprinkling, and it has been hard work for the one pump to keep the tank on the tower filled. The new pump has a one and a half inch discharge and will help materially in pumping.

BEND, OREGON

Frank Glass of Redmond was a business caller in Bend Wednesday.

E. A. Smith of Redmond was calling on Bend friends on the Fourth.

H. W. Morrill was a caller in Bend Monday from his homestead in 19-12.

Born to Mr. and Mrs. Charles Anderson, last week Wednesday, an eight pound baby girl.

J. J. Boyd of Butte, Mont., came to Bend Saturday for a few days' visit with his brother, Charles Boyd.

Miss Iva West, who has been attending the Willamette university at Salem for the past 10 months, returned home last night.

Miss Ethel Edwards, who has been employed as waiter at the Pilot Butte Inn, left Tuesday evening for her home near Sisters.

A number of the Oregon Eastern surveying crew working toward Bend from the southeast were in town the Fourth. The crew is now working in the vicinity of the ice caves.

James McCoy returned to Bend Saturday evening after an absence of two or three months. He has been shearing sheep at Hay Creek, in the Blue mountains and elsewhere.

"Billy" Robison was in town several days this week. He is riding the range for horses and came to town to attend to business and for a little respite from the monotonies of the range.

Max Lueddemann came to Bend Monday from Madras to attend to business matters here. Mrs. Lueddemann, who has been visiting for the last two weeks with Mr. and Mrs. A. M. Drake, returned with him.

John H. Wenandy, a recent comer to Bend from Philipsburg, Mont., who has been expecting his wife to join him here, received news last Saturday that she had been suddenly taken sick and was too ill to travel.

H. C. Ellis will leave tomorrow for Madras, where he goes in his official capacity as United States commissioner to hear final proofs in the Madras land office in the absence of the local commissioner, Don P. Rea.

Mrs. Philip Francis is expected to arrive in Bend accompanied by her three children, about August 1. She has disposed of their property in Michigan and will join Mr. Francis on his homestead a few miles south of Bend.

H. R. Satchwell reached Bend Monday evening with a load of freight. He had on about 1,400 pounds for Caldwell & Satchwell and something over 2,000 for W. S. Nichol. While here he sold one of his teams to A. C. Lucas.

The carrier pigeon which flew into a rancher's house near Summer Lake recently apparently exhausted from a long flight and which was set upon by the cat and injured, died of the wounds received. It was planned to free the bird and let it continue on its journey when it had rested, but the cat spoiled the plans.

An indication of how rapidly Central Oregon is filling up with settlers is shown in the fact that Madras people have applied for another rural free delivery route from the Madras office. The proposed route will be not more than 25 miles long and yet will supply more than 130 families with their daily mail.

Bend people who celebrated at Prineville report large crowds in attendance at the three-day baseball tournament, and Fourth of July celebration. They also report that the county seat furnished a very pleasing day on the Fourth to her visitors. Every available sleeping place was occupied, many private

homes being opened to the visitors, and many men were compelled to sleep on the floors of the halls and offices of the hotels.

The hot sweltering days of summer are again upon us, when a shady nook by a babbling brook is a thing of beauty and a joy forever. Bend's citizens are therefore wandering into the woods in parties of greater or less size and camping at the side of the river or on the shores of the many beautiful lakes to be found in the mountains near Bend. Nature has been very kind in supplying an abundance of such retreats at Bend and vicinity.

Richard King handed The Bulletin a copy of the Grantsburg, (Wis.) Journal, in which appears a write-up of a very destructive cyclone that passed through the northern part of Burnett county on the evening of June 6. A strip of country extending nearly north and south through the eastern part of Blaine township and a little distance into Jackson township lay in the path of twister. Many dwellings and farm buildings were destroyed, much fine timber blown down, but fortunately no lives lost. There are several living in Bend and vicinity who came from Burnett county and they will undoubtedly be interested in knowing that none of their friends were killed.

At the baseball tournament at Prineville, Antelope and Bend were the only visiting teams. Bend's team was barred from the contest. The smallest purse was given to Bend and Prineville and Antelope fought it out for the big money. The first game took 10 innings to decide, Antelope winning with the score 5 to 6. The other two games ended 5 to 11 and 7 to 8 in Prineville's favor. Bend's back-stop, Young, caught the last two games for Prineville and played a star game. Out of five times to bat he made four safe hits and three runs and during the game was responsible for three other runs. Following are the batteries for the three games: Prineville, first game, Bailey and Zeek; second, O'Neil and Young; third, Bailey and Young. Antelope, first, Rooper and Rhodes; second, Vanhouten and Rhodes; third, King and Rhodes.

BAD RUNAWAY AT REDMOND
Three People Severely Shaken Up and Rig Damaged.

REDMOND, July 3.—A serious runaway occurred Saturday night about nine o'clock. Leroy Covert was driving with two lady friends when the horse suddenly became frightened at something and got beyond control. The occupants were thrown out at the rear of Jackson's store, but beyond a severe shaking up, were not injured. The rig was badly damaged.

Quite a number of people went to Prineville Sunday to remain until the 5th. Everything in the shape of a team and rig was pressed into service.

Mrs. Burt has returned to Redmond and is now waitress at the hotel.

Ehret Bros. are building an addition to the rear end of their store to be used as a store room. It will be 34x25.

The dance which was given Friday night was one of the most successful of the season. There was a large attendance and good music; supper was served at the hotel after which the dance continued until about 3 a. m. Cline Falls was especially well represented.

Mr. and Mrs. P. Lehman moved to Prineville last week.

J. Circle has sold his house and lot to C. Ehret.

J. A. Vassburg brought to town some fine samples of timothy, clover and strawberries from his ranch near Redmond.

Mr. Jones has quit the hotel business and has moved to his ranch west of town.

D. H. Lauderback has sold his interest in the new store building to Mr. Woods. Mr. Lauderback and Ray Gibson have started on a tour of Oregon and Idaho on their wheels.

Mr. and Mrs. C. M. Redfield have gone to Portland to see his mother, who is seriously ill.

Rosland Items.

(Too late for last week.)

Ben Patterson has been on the sick list this week.

Sherman Moffit passed through Rosland Monday on his way to their summer range with a bunch of cattle.

Quite a party of young folks headed by William Dorrell and George Bogue contemplate visiting the ice caves Sunday to procure ice for the Fourth for ice cream.

Quite a crowd of singers gathered at the home of Mrs. J. S. Bogue to practice a few selections to be rendered the Fourth.

Mrs. Sarah Sly's sister, Mrs. Edmonds, and family of The Dalles are expected to arrive here in a few days. They are expected to locate near Rosland.

Mr. Taggart is having some carpenter work done on his homestead six miles from Rosland. J. A. Trobee is the carpenter. This looks suspicious as it is rumored he has purchased a coffee mill.

We don't hear very much lately about going fishing. Probably their taste for fish is spoiled.

George Sly has been driving the Odell stage recently.

John Knox was a business visitor Wednesday on his way to Prineville. He expects to bring his sheep up in a few weeks.

The annual school meeting was held at the Rosland school, June 18. There was a large attendance.

A party of young folks took a fishing trip last Sunday. It took four wagons to haul home all the fish they caught.

Wm. Taylor has gone to Prineville to work near Crooked river.

W. H. Howard intends to drive the stage from Rosland to Silver Lake for a short time while Mr. Howard, the regular stage driver, goes to Prineville to have some dental work done.

Mr. Hawthorn is making fine roads around Rosland.

J. S. Bogue has his town all surveyed now. The town will be booming before long.

Strawberries are getting ripe around Rosland.

A dentist from Prineville is expected at Rosland before long.

Allen Trobee is going to leave for Prineville, where he will work through harvest.

Fine prospects for crops around Rosland this year.

Miss Jessie Andrews is thinking of going to the valley soon.

Tumalo Items.

W. H. Staats and J. N. Hunter and families passed through Tumalo Tuesday. They were no doubt fleeing into the mountains in order to avoid the extreme warm weather. Well, this warm spell of weather is hard on man but good on vegetation. Crops are looking fine around Tumalo since the warm spell.

Tumalo is coming to the front as a farming country. Passers-by seem to be surprised to see such garden truck as is growing in G. W. Wimer & Sons' gardens. They have garden truck galore.

Mr. Hinton passed through Tumalo Wednesday with three bands of sheep. They have 9,500 sheep which they pasture on the Cascade reserve. They are taxed eight cents per head for pasture by the government—pretty heavy tax—well James Hinton knows how to handle sheep in order to make them pay. Then, too, he has a good lot of herders with them.

F. F. Smith is expected home from Portland the last of this week.

People report a grand time at Sisters the Fourth. The old men got away with the pulling match. Boys are not in it with the old stiffies anyway now—a-la-doo.

Beet-Sugar Factory at Bend.

A dispatch from Washington, D. C., to the Oregonian, dated July 1, discusses the probability of the growth of the beet-sugar industry in the West. It mentions Bend as one of the places where the sugar-beet can be grown profitably, and says:

"Capitalists have turned their attention to the country around Bend, and already experiments have been made to determine with what success beets can be grown on the land irrigated by the Deschutes Irrigation & Power Company. "About 8,000 acres of this land has been temporarily secured for beet raising, and if satisfactory arrangements can be made, it is believed a factory will be established at Bend in the not distant future."

Timber Claims.

Parties having timber claims for sale please address Neil Smith, Bend, Or. State amount of timber estimated and price asked for claim.
