

**A PRETTY MILKMAID**  
Thinks Peruna is a Wonderful Medicine.

MISS ANNIE HENDREN.

Miss Annie Hendren, Rocklyn, Wash., writes:

"I feel better than I have for over four years. I have taken several bottles of Peruna and one bottle of Manalin."

"I can now do all of my work in the house, milk the cows, take care of the milk, and so forth. I think Peruna is a most wonderful medicine."

"I believe I would be in bed today if I had not written to you for advice. I had taken all kinds of medicine, but none did me any good."

"Peruna has made me a well and happy girl. I can never say too much for Peruna."

Not only women of rank and leisure praise Peruna, but the wholesome, useful women engaged in honest toil would not be without Dr. Hartman's world renowned remedy.

The doctor has prescribed it for many thousand women every year and he never fails to receive a multitude of letters like the above, thanking him for his advice, and especially for the wonderful benefits received from Peruna.

**Monsieur Hyde.**

"M. James Hyde," says the Paris Figaro, "the exceedingly rich American who appertains to the most high society of New York, comes from commanding at Paris a carriage electric. It is to the French industry that M. James Hyde is addressed himself for to have the most comfortable, the most commodious and the most elegant of the vehicles of the city."—Translated by Harner's Weekly.

**Side Lights on History.**

The Hessians at Trenton had surrendered.

"Ah, well," they said, "think how much more disastrous it might have been if we had had to make a hurried retreat!"

Later, as if to verify their words, came the Hessian fly.

**TERRIBLE TO RECALL.**

Five Weeks in Bed With Intensely Painful Kidney Trouble.

Mrs. Mary Wagner, of 1367 Kossuth Ave., Bridgeport, Conn., says: "I was so weakened and generally run down with kidney disease that for a long time I could not do my work and was five weeks in bed. There was continual bearing down pain, terrible back-aches, headaches and at times dizzy spells when everything was a blur before me. The passages of the kidney secretions were irregular and painful, and there was considerable redness and odor. I don't know what I would have done but for Doan's Kidney Pills. I could see an improvement from the first box, and five boxes brought a final cure."

**Carl Schurz.**

No other man of foreign birth ever showed such fine command of the English language or used it so felicitously. A man who objected strongly to his politics but admired his talents as a writer once said: "I wish Mr. Schurz couldn't write so well; I could hate him better." In 1877 Carl Schurz visited Boston to make a speech against Benjamin F. Butler, who was running for Governor of Massachusetts. While arguing on the question of the resumption of specie payments, an issue that was paramount at that time, Mr. Schurz likened "inflation" to a balloon filled that had carried the American nation off its feet. At that time he made use of the following expression, which brought the immense audience that greeted him to its feet: "We have placed our feet on solid ground again and we propose to keep them there."

**Quite True.**

Miss Boston—They say she's extremely haughty.

Miss Tours—I should say so! The last time I saw her she was sulking down the street in—

Miss Boston—Pardon me; why do you use that senseless expression? How could she go "sulking" down the street?

Miss Tours—Easy enough. I saw her last in Venice.—The Catholic Standard and Times.

**Only the Promise.**

A big sea turtle was sprawling around in the tank in front of the restaurant.

"Look, papa!" exclaimed the little boy, "Let's go in and have some real green turtle soup!"

"Not yet, Geordie," said the father. "Wait till some day when you see this tank empty."

Misses (Indisposed)—What is it you wish to say to me, Bridget? I am too ill to sit up.

Domestic—Well, mum, ye can take notice without sittin' up. I have ye next Bath'day, mum.

**Wasted Effort.**

"It takes time, trouble and infinite patience, of course, to be a good Sunday school teacher, but you have the satisfaction of knowing that you are helping to mold the character of the rising generation."

"Yes, but it makes me sad to think how quickly a year's work is undone when green apple time comes."

**Usual Dash of Cold Water.**

Borus—I've been nearly dead for sleep during the last week. I could scarcely keep awake while I was writing that story that was printed yesterday.

Nagus—I can easily believe it. It affected me the same way while I was reading it—from sympathy, I suppose.

**For that Dandruff**

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions. The best kind of a testimonial—"I used it for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass. Also Manufactured by SARGAPARILLA, P. L. S. CHERRY PECTORAL.

**NOT HIS LINE.**

Not all men are fitted for all things. The fact that an individual shines in one profession is no proof that he may adopt any career with equal success. Rob, whose adventures are recorded in Mr. Whitmarsh's "The World's Rough Hand," was a good fellow, and doubtless played his part in the world with credit to himself, but he was not born to be a diver, as his experiences show. One of the greatest dangers in diving is that of panic.

The quality a diver needs more than any other is presence of mind. A young Scotchman, six feet tall, by the name of Rob, applied to me for a position as diver. He had a sweetheart at home, and, tempted by the high wages, was anxious to learn the business. One time, when work was slack, I let him go down.

I told him minutely how to manage, screwed on his face glass and sent him under. I felt him land on the bottom and signal that all was right. Then he walked away from the boat, paying out most of the line. After a little he stopped. I imagined him resting, and thought he was doing remarkably well.

All at once I noticed a dark, bladder-like object floating at some distance from the boat. At first I thought it was a turtle. Something made me look at it more carefully, and then I began to haul the line in. The "turtle" was Rob. As he drew nearer we could hear him screaming his loudest inside the swollen dress. I got him alongside, unscrewed the escape valve, and hauled him on deck. All the time he was crying, "Let me out!"

When Rob came to his senses, we learned that he had become frightened lest his dress should burst, and had screwed the escape valve the wrong way, keeping in the air instead of letting it escape. He lost his presence of mind altogether, and fell down. The confined air accumulated in the bulk-head part of the dress and floated him.

The second attempt Rob made as a diver nearly cost him his life. He made the very same mistake with the valve. Then, crazed by fear, he began to unscrew his face glass. Fortunately for his sweetheart, he lost consciousness before he got it off. He was delirious for some hours after we had hauled him up. We decided he was not fit for a diver, and that his road to fortune lay in some other direction.

**HOUSE KEPT ON PROBATION.**

After a Week's Trial Widow and Widower Are Daily Married. Lamar County furnishes a case of marriage after probation that is unique and suggestive.

A widower farmer desiring a wife was introduced by a mutual friend to a widow with children temporarily abiding in a charity institution.

Both were favorably impressed at first acquaintance, but the woman suggested that she keep house for the farmer for a week and at the end of that time each could more intelligently determine the grave question of a union for life. Accordingly she went with her children and was duly installed as housekeeper.

The experiment was eminently satisfactory to both parties and at the end of the week they were married.

Perhaps it will shock the sentimental and the romantic, but the incident contains the wise suggestion that folk desiring to become husband and wife should be sure of knowing each other in their common clothes and under workaday conditions.

Parlor manners on the part of the woman and picnic gallantry on the part of the man are not conclusive indexes of infatuation sufficient evidence of compatibility.

Keeping company nowadays runs too much to bouquets and embossed stationery. Of course, there is abundant opportunity to get acquainted after the engagement, but it is before the avowal that the pair ought to put each other through the practical paces.

It would save many a headache, though it may play the diabolical with the business of the divorce lawyers.—Fort Worth Record.

**A Good Thing.**

"This is an interesting clock, Miss," said the salesman, "you really should have one, especially if you're bothered with throeome callers."

"It's merely a cuckoo clock, isn't it?" asked Miss May Pechels.

"Yes, but beginning at 10 p. m. instead of saying 'cuck-koo' every quarter hour it yells, 'Go home! Go home!'" —Philadelphia Press.

**Not His.**

"He may command it, but his wife demands it every week."—Philadelphia Ledger.

**Save the Babies.**

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent, or nearly one-quarter, die before they reach one year; thirtyseven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

**Letters from Prominent Physicians addressed to Chas. H. Fletcher.**

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. S. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

**How Good Food may Turn to Poison**

DECAY is not digestion, you know, even when it takes place in the stomach.

Food decayed in the body after being eaten is as dangerous to health as food decayed before being eaten.

Food nourishes or poisons, just according to how long it remains in the bowels undigested.

Cascarets are the simplest and surest safeguard against Delayed Digestion yet discovered.

Sold in a thin Enamel Box, half as thick as your watch, which fits into the vest pocket or lady's purse as if it grew there.

In this round-edged Enamel Box are found six small Candy Tablets.

One of these toothsome tablets works wonders for digestion.

Soon as placed in the mouth it starts the Saliva flowing, which at once gets to work dissolving it.

The Saliva becomes blended with the Candy Cascaret tablet, and from the moment they start going down your throat together they start working together.

Now, what do they work at? Bowel-work, of course—Digestion.

Most of the Digestion occurs in the thirty feet of intestines that connect with the Stomach.

They are lined with a set of little mouths, that squeeze Digestive Juices into the Food eaten.

The Digestive Juices thus mix with the food, just as Saliva mixes with Cascaret tablets, dissolving and changing that food into nourishment, as it passes along the channel.

The Intestines are also lined with millions of little suction pumps, that draw the Nutrient from Food, as it passes them in going through.

This Nutrient is then carried into the Blood, and spread over the Body as Brain, Bone and Brawn.

But, when the Bowel-Muscles are weak, the Food moves too slowly to stimulate the little Gastric Mouths and there is no flow, or too little flow of Digestive Juice, to change the food into nourishment.

Then, the food decays in the Bowels, and in the thirty feet of Intestines.

When this Decay begins the little suction pumps draw Poison from the decayed Food, into the blood, instead of the Nutrition it should have drawn.

Now, Cascarets contain the only combination of drugs that Stimulates these Muscles of the Bowels and Intestines just as a Cold Bath, or open-air Exercise, stimulates a Lazy Man.

Cascarets therefore act like Exercise. They produce the same sort of Natural result that a Six Mile walk in the country would produce, without any injurious Chemical effect.

The Vest Pocket Cascaret Box is sold by all Druggists, at Ten Cents.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."
