Coos Bay is to have a distillery for the manufacture of denatured alcohol. H. C. Clover, a capitalist, is behind the move and says that his plant will need 146,000 tons of potatoes next year. He should build a railroad into this region. The Bend country beats the world in growing potatoes.

H. W. Morrill is in from his homestead in 10-12 this week. Mr. Morrill is improving his place, plowing 10 acres of land and seeding it to winter wheat—the Cox variety. This wheat is a famous variety, never winter kills, and makes a good yield in wet or dry countries. The McAllisters at Sisters, it is reported, will sow 100 bushels of this wheat this fall.

Miss Jackie Brock, the compositor in the Sentinel office, made a flying trip to Fossil and Condon Saturday, returning by Fossil stage Monday. It was Miss Brock's first visit to those two lively towns and she reports being well pleased with the country she passed over and the towns she visited but is inclined to think that winter comes on rather early over there. As she had no knowledge of the higher country she was going into she says she did not suffer for want of ice.—Mitchell Sentinel.

There was a brisk little fire at the Baldwin ranch Monday. Near one side of the house there was a pile of refuse lumber. This caught fire in some unknown way, supposedly from sparks from the chimney, and before it was discovered had developed into a good sized blaze, running up the side of the house and scorching it quite badly. If it had not been discovered till a few minutes later it is probable that the house would have burned. As it was, the fire was put out before much damage was done.

THE LARGEST HAWK.

Tumalo Man Killed Bird that Measured Seven Feet, Tip to Tip of Wings.

TUMALO, Oct. 10.—Speaking of killing large hawks, T. A. Jensen of this place has a hawk nailed upon his house that measures just seven feet, or 84 inches, from tip to tip of wings. This hawk was killed by Mr. Retslaff two years ago and was killed between here and Bend. Who comes next on the hawk question?

W. F. Levering was in Tumalo today. He came to buy some of G. W. Wimer & Sons' Scotch Fife winter wheat to sow. Mr. Levering is a farmer from Oklahoma and he knows a good thing when he sees it. Fall sown grain is what counts in this country.

P. V. Swisher returned from the valley last Friday. Mr. Swisher had the misfortune to lose a horse out of his team while crossing the mountains. The horse died with the colic. Mr. Swisher had to leave his wagon and load of fruit on the mountain beyond Fisher's lake while he came home after another horse. He reports the roads fearfully muddy and rough. It seems strange to hear of such mud and hard traveling in the valley and on the mountains while it has not rained enough to settle the dust in this country yet this fall. Who would think that such a short distance would make such wonderful changes in the climate?

Mrs. Charles Erickson of Bear Creek carried over night at Tumalo Monday night. She was on her way home from Albany. Mrs. Erickson was traveling on horseback and informed us that she had ridden 160 miles in 2 1/2 days. Who can beat that? She also stated that she had made quite a large investment in timber while in Albany and thinks she will be able to get quite a lot more soon. Mrs. Erickson says the demand for timber is rapidly increasing and at greatly advanced prices. Those that have good timber claims are certainly fortunate.

Charles Brock and Severt Debing were in Tumalo today. They report Bend flourishing.
