Winter Range Will Be Poor.
 James Rice of Haycreek was a visitor in Madras last Saturday. He says that the winter sheep range throughout the county is in worse condition than he has known it since his acquaintance with the country began, and that sheepmen are going to require considerable quantities of hay in order to get through the winter. Owing to the long and continued drouth no grass has sprouted on the range, and even the grass roots are cut out by the sharp hoofs of the sheep, on the dry and parched hills. Mr. Rice left Sunday for Sumpter, to be present at the appointment of the Blue Mountain Reserve for next summer's pasturage.—Pioneer.
