Feed Your Nerves

Upon rich, pure, nourishing blood by taking Hood's Sarsaparilla, and you will be free from those spells of despair, those sleepless nights and anxious days, those gloomy, deathlike feelings, those sudden starts at mere nothings, those dyspeptic symptoms and blinding headaches. Hood's Sarsaparilla has done this for many others – it will cure you.

Hood's Sarsaparilla

In usual liquid form or in chocolated tablets known as **Sarsatabs.** 100 doses $1.

Envelopes.

Postpaid envelopes originated in the reign of Louis XIV. of France. De Valrver in 1653 established with royal approbation a private penny post by placing boxes at the corners of the streets for the reception of letters wrapped up in these envelopes, which were sold to patrons at offices for that purpose. This is also the first instance of a cheap postal service.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

No Way Out.

"Why do you insist that you will never go into politics?" asked the patriotic citizen.

"Because," answered the self-centered man, "at present I am not rich enough to afford it. And when I am rich enough the public will regard me with suspicion for that very reason."—Washington Star.

Wow!

"Magianism, rosicrucianism, gnosticism, occultism, together with Masonic and Hermetic mysteries, are flourishing in this country and Europe. Packets, locks of hair, wands, vagaries, fakes and morbid mental states due to these are on all sides. How can mental physicians keep up with the new brain diseases? Superstition is now intensely alive, and all kinds of mind distortion, born in prehistoric and barbarous ages, when men did not know a single law of nature, are rife, even in the shadows of universities and colleges."—Professor Larkin, of Mount Lome Observatory.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Defining the Situation.

Henry B. Stanford, for several years with Sir Henry Irving's company, tells this good story of the famous actor: "Sir Henry's wit was of an almost Voltairian character. Once, while I was rehearsing 'Faust' with him at the Lyceum Theater, in London—we were doing the Brocklu scene and he had occasion to reprove an army of exuberant supers—he stopped the rehearsal and all was silence. Then, in that quiet, grim way of his, he said: 'Very charming—but you must remember that you are in hell—not picnicking on Hampstead heath.'"—Rochester Herald.

Keep in Good Health.

There are many thousands of people all over the world who can attribute their good health to taking one or two Brandreth's Pills every night. These pills cleanse the stomach and bowels, stimulate the kidneys and liver and purify the blood. They are the same fine laxative tonic pill your grandparents used and being purely vegetable they are adapted to children and old people, as well as to those in the vigor of manhood and womanhood.

Brandreth's Pills have been in use for over a century and are for sale everywhere, either plain or sugar-coated.

Only Too Well Satisfied.

The husband who is always growling over everything looked up from his paper and remarked sulkily:

"Madam, I see where a man went from home, remained thirty years and then returned and gave his wife $5,000. If you don't do better you may find me doing the same trick some day."

The patient little wife looked up from her sewing and replied sweetly:

"All right, James, but if you will only remain away the thirty years you needn't trouble yourself about the $5,000." And after that he stopped growling.

Insinuating.

Sweet Singer—The heavy tragedian seems so gloomy to-day.

Comedian—Yes, it is his birthday.

Sweet Singer—His birthday? Why, I should think he would be in the best of spirits.

Comedian—Hardly. One of his friends sent him a cake with frost over the top and he is just about to start on an eastern tour.

Preserving Corn on the Cob.

It is quite an easy matter to preserve corn on the cob. Gather the ears when the grains are full and before they begin to glaze. Soak them half an hour in brine made strong enough to float an egg. Then rinse them in cold water and put where they will dry. When the grains are shriveled and there is no more moisture in the cob, pack in wooden boxes and cover closely in a dark, dry closet. When wanted for use soak in warm water until the grains are filled out fairly well, then cook as though freshly gathered.

Pickled Pig's Feet.

When cleaned and cracked, put them in two quarts of water; let them slowly simmer for three hours or until very tender; then pour them through the colander. Take out all the bones, cut up the feet and put them into the liquor in which they were boiled; let it cool, then remove all fat; to the liquor and chopped feet pour a half pint of vinegar, a teaspoonful of whole allspice, a little salt and red pepper; put all into a saucepan, let simmer for five minutes, keeping it tightly covered; stir it well and pour it all into a pan.

Deviled Oysters.

Cook together five minutes two tablespoonfuls of butter, one tablespoonful of chopped green pepper, half a teaspoonful chopped onion. Add half a cup well-strained oyster liquor, one tablespoonful tomato catsup, one-third teaspoonful salt, one-half teaspoonful prepared mustard, a dash of cayenne and a pint of chopped oysters. Simmer for five minutes and fill the rice cups. Serve piping hot.

Sponge Pudding.

Bake a common sponge cake in a flat-bottomed pudding dish. When ready for use cut in six or eight pieces. Split and spread with butter and return them to the dish. Make a custard with four eggs to a quart of milk, flavor and sweeten to taste. Pour over the cake and bake one-half hour. The cake will swell and fill the custard. This is delicious.

Sausage.

Mix six pounds of lean, fresh pork with half as much fat pork and grind well. Stir into this mass of meat six teaspoonfuls each of salt and black pepper, twelve teaspoonfuls of powdered sage, two teaspoonfuls each of powdered cloves and mace and one grated nutmeg. Pack in a stone crock. Pour melted lard over the top of the meat to preserve it.

Delicious Rice Pudding.

Take two quarts of sweet milk, two heaping tablespoonfuls of rice, a teacup of raisins, a little salt and sugar to suit the taste; grate in about half a nutmeg, stir all together cold, put into the oven and bake slowly for about two hours, or until it becomes creamy. It is best eaten cold.

Transparent Apples.

Pare twelve large apples and simmer them till soft in enough water to cover them. Dip them out, being careful not to break them. Add to the water a pound of sugar, two lemons and two oranges, sliced. As soon as it thickens, put back the apples and simmer till clear.

Roley Poley.

Make a good biscuit dough, and roll about three-quarters of an inch thick, spread over this thin slices of apples, roll up, tie in a pudding-cloth and steam one hour and a half. Serve with hard sauce flavored with vanilla.

Women Astronomers Startle World.

Being proposed to in a balloon, is the latest adventure of a woman astronomer, writes Dewey Sheldon Beebe in Technical World Magazine. And the women astronomers of to-day have discovered more new stars than the men of science have been able to find in several centuries. But women in astronomical work are not the product of new world conditions alone, for they have been identified with every important advance in that science. From the time when the young and beautiful Hypatia of Alexandria gave her life a martyr to science, a tragedy of the fifth century, to the daring capture of Dorothea Klumpke while making a balloon voyage under the auspices of the Paris Observatory, a romance of the twentieth century, the story of women and astronomy is a record of achievement charged with sacrifice and devotion. Woman's natural carefulness, system, caution, accuracy, and love of detail, have made her indispensable in completing our knowledge of the constitution and distribution of the stars. She has achieved greater success, has met with more courteous recognition, and now occupies a more prominent place in astronomy than in any other branch of scientific activity. She has added greatly to our knowledge of the stars, not only through her untiring efforts and discoveries, but by the inspiration of her example and the stimulus of her devotion.

Lafayette's Medal.

Shortly after Lafayette's return to France from his second sojourn in America, he was at Versailles, where the King was about to review a division of troops. Lafayette was asked to join in the review.

He was dressed in the American uniform, and was standing by the side of the Prince de Conde, when the King, in his tour of conversation with the officers, came to him and, after speaking on several topics, asked him some questions about his uniform and the military costume of the United States. The King's attention was attracted by a little medal attached to the general's coat, and he asked what it was.

Lafayette replied that it was a symbol which it was the custom of foreign officers in American service to wear, and that it bore a device.

"And what is the device upon yours?" asked the King.

"My device," said the young general, pointing to his medal, "is a liberty pole standing on a broken crown and scepter."

The King smiled, and with some pleasantry upon the republican propensities of a French marquis in American uniform, turned the conversation into other channels. Conde looked grave, but was silent.

Mrs. Chugwater—Josiah, the doctor says Mr. McJones has pleuro-pneumonia. What is pleuro-pneumonia?

Mr. Chugwater—You know what pneumonia is, don't you? Well, pleuro is the same as plural. It means more than one. Pleuro-pneumonia is what you have when you've got it in both lungs. Why can't you think these things out for yourself once in a while?

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

"My little boy had a terrible cough. I tried everything I could hear of but in vain until I tried Ayer's Cherry Pectoral. The first night he was better, and he steadily improved until he was perfectly well."—MRS. S. J. STEELE, Alton, Ill.

Nature's Part.

The young women of a type which is by no means uncommon were gazing together upon the tranquil beauty of an English landscape.

"Oh, don't you love nature?" asked one, turning with clasped hands to her friend.

"Yes, indeed," was the response, in a tone of gratifying intensity. "It adds so much!"

Opinion of an Expert.

The South Chicago man, who was taking his first trip across central Michigan, looked out of the car window and saw one of those peculiar fences that the farmers of that region sometimes make by digging up old pine stumps and laying them in a row, with the roots facing the road.

"Well," he said, "I've seen all kinds of fads in landscape decoration, but, by George, there's the worst attempt in that line I ever saw!"

A Silent Conviction.

"Remember," said George Washington's father, "that if I had punished you for chopping down that cherry tree it would have hurt me more than it hurt you."

George said nothing. But across his mind flashed the thought that his incapacity for prevarication was not an inherited trait.—Washington Star.

DOES YOUR BACK ACHE?

Profit by the Experience of One Who Has Found Relief.

James R. Keeler, retired farmer, of Fenner St., Cazenovia, N. Y., says: "About fifteen years ago I suffered with my back and kidneys. I doctored and used many remedies without getting relief. Beginning with Doan's Kidney Pills, I found relief from the first box, and two boxes restored me to good, sound condition. My wife and many of my friends have used Doan's Kidney Pills with good results and I can earnestly recommend them."

OLD SORES FED AND KEPT OPEN
BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the ***BLOOD CANNOT BE CUT AWAY.*** The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood. Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.
