WILL TRY CAMPBELL METHOD

Madras Rancher Will Use Sub-surface Packer This Year.

The "sub-surface packer" ordered by J. W. & M. A. Robinson & Company arrived the first of the week and was immediately bought by J. T. Robinson of Culver, who will use it in connection with all his spring plowing. Mr. Robinson has been a resident of this section for nearly a quarter of a century and is a "convert" to the principles of dry farming known as the Campbell system. His experience in this country has taught him the lesson that conserving the moisture in the soil is the most important matter with which the farmer has to deal in these semi-arid regions, and he is profiting by that knowledge. The sub-surface packer which he has just bought is the first one of the kind advocated by Mr. Campbell to be brought into this locality. Messrs. Robinson & Company of this place have a number of others ordered from the factory but owing to the car shortage, there has been great delay in all shipments from the East. They expect them, however, in the near future.—Pioneer.

PATENTS WILL ISSUE.

Secretary Garfield Gives Order that Will Benefit Many Entrymen.

An order has been issued by Secretary Garfield to the effect that applications for patents to public lands in Oregon by settlers shall be fastened with all due speed. It is estimated that this order will affect fully 1,000,000 acres in this state alone and that patents will soon be issued to this land.

It is not intended to issue the patents promiscuously. Wherever there is any doubt as to the good faith of the entryman, or where it is feared there may be fraud, the usual proceedings of investigation will be gone through with. Where there is no such doubt, however, patents will issue as soon as possible.

Of the 30,000 entrymen whose applications have accumulated in the general land office during the "hold-up" orders, probably one-third are settlers in Oregon. This order will therefore transfer title in a vast acreage from the government to the individual and will make available for homes as well as for purposes of taxation about 1,000,000 acres of Oregon land.

The order will be received with satisfaction by many homesteaders in this region who have been awaiting patents for many months.
