## FIELD TESTS NEXT SEASON.

### War Will Then Be Begun on the Sage Rat.

While the sage rat does not infest the Bend country, it is quite a nuisance surrounding Madras. Speaking of a plan to inoculate these pests with a deadly disease, the Madras Pioneer says:

In a recent letter to the editor of this paper, Mr. S. E. Piper, who has charge of the Biological Survey of the Department of Agriculture and is conducting experiments at Pullman, Washington, states that he does not expect to be able to conduct field tests with the inoculation of sage rats in this locality, during the present season, but if possible he expects to visit this section soon, to acquaint himself with conditions, with a view to beginning the field tests here early next season.

Some time ago a box of sage rats was sent to Mr. Piper for experimental purposes, the experiments being conducted at the experiment station at Pullman. These tests have so far proved highly satisfactory, and Mr. Piper is confident that the sage rat pest will be entirely eradicated by this process. The present experiments are being conducted on caged rats, the rats being inoculated with a virus which produces a deadly contagious disease, and the results being carefully studied with a view to ascertaining not only the effect upon the rats, but the possible danger of contamination to other animals. Later field tests will be made, the rats to be inoculated and turned loose.

Mr. Piper has requested a new shipment of the sage rats from this locality, in order to continue the experiments at Pullman, and more rats will be gathered at once, if possible, and shipped to him. As soon as the experiments with this lot are completed, he expects to visit this section in person, to study

the conditions so that the field tests can be taken up here early next season.

### "Stainless Flag" Sunday.

Sunday, June 30, has been designated "Stainless Flag" Sunday by the Anti-Saloon League of America. On that day about two hundred ministers in the state of Oregon will speak on some phase of the drink evil and distribute to their congregations twenty thousand copies of Dr. E. S. Chapman's "Stainless Flag" address, which are to be furnished free by the Oregon State League.

This is a movement of wonderful possibilities and no doubt, public sentiment on the drink question will be lifted to a higher level thereby.

### Creamery at Prineville.

It is now practically assured that Prineville will have a creamery. Of the \$3,100 required to install the plant \$2,500 has been subscribed and the balance will undoubtedly soon be taken up. A creamery is a valuable thing for a community and Prineville is to be congratulated on securing such an industry.
