Mr. Bonaparte was asked if action, personally, against individuals would be included in the prosecutions. It is perfectly true that, in my opinion at least, a better moral effect would be pro-duced by sending a few prominent to jail than by a great deal of litigation, however successful, against the corporations they controlled.

If the corporations ere guilty of such, it would be hard for the lay mind, at least, to see how their presidents could be innocent Nevertheless the jury convicted the corporations and acquitted their
