Carlyle Triplett, wife and family returned from the Valley the first of the week. Carlyle says the roads over the mountains are the roughest he ever traveled and that he never wants to go over them with a wagon again. He was driving when L. P. Burk was thrown from the wagon and so badly injured, as told in last week's Bulletin, and says it is a wonder the old gentleman was not killed. When Mr. Triplett left on his return trip, Mr. Burk was recovering rapidly from his injuries.

Have you noticed the display of ladies' hats in the window of the Merrill Company? They have just gotten in some pretty creations for fall and winter.

Mrs. Keene of Seattle, mother of Walter Keene, reached Bend Tuesday and will remain for some time. She is very favorably impressed with this section.

You should see those handsome imported Japanese and imported glass urns and vases at the Corner Drug store. They are the handsomest ever shown in Bend.

Mr. and Mrs. H. P. J. McDonald returned to Bend Saturday from an extended visit with relatives of Mr. McDonald in New York, Canada and other Eastern places. They left Bend July 8 and report having a fine trip.

W. E. Austin and Arnt Hansen of Union, old-time friends of Dr. and Mrs. Merrill, arrived in Bend last Friday and spent a few days here. They came after timber claims but when they saw what a rush there was going to be for the claims they decided to give it up.

A. W. Morgan, the popular proprietor of the Redmond Hotel, was a Bend caller Wednesday. Mr. Morgan said the Redmond fair was better in all respects than that of last year. The exhibits in all lines, grains, grasses, vegetables, live stock, etc., were larger and of a better quality. the contract for putting up the building and the school board is well pleased with the work done.

The four-months old infant of A. E. Lycan and wife of Tahoe, Idaho, died in Bend last Friday. Mr. Lycan and wife had taken an extended trip by wagon through western and southern Oregon and were returning on the east side of the Cascades, and had been looking for a new location. The remains were sent to Tahoe for interment.

Repairs on D. I. & P. Co. Office.

The D. I. & P. Co. office is undergoing extensive repairs this week. The old stone chimneys have been torn out and new brick ones built. The mortar between the sections of the old chimneys had crumbled away and when the stones were removed it was found that boards surrounding the chimneys had been badly smoked and charred. The wonder is that the building had not caught fire and burned with the flues in such condition. The stone vault is also being repaired. C. C. McNeely of Prineville is the mason doing the work.

As soon as brick can be manufactured an additional story will be built onto the vault, extending it as high as the building. This will provide a vault for the offices on the second floor and will do away with the necessity of running up and down stairs whenever anything in the vault is needed.

Mr. McNeely understands making brick and it is probable that arrangements will be made whereby he will undertake the manufacture of several thousand on the Barney Lewis homestead, where there is a valuable brick clay deposit. There is quite a demand for brick and Mr. McNeely could readily dispose of all he could make in excess of his own needs.
