Buy a Farm.

The following quotation from an agricultural paper is going the rounds of the press: "Buy a farm, young man. No matter how small it may be; buy a farm and prepare it so that your land will provide you a living. Twenty years from now the man who owns his farm will be independent and will have at command the means of a livelihood. The expansion of manufacturers cannot go on forever and there will come a day in this country, as there has in others, when the supply will exceed the demand, and the only absolutely sure occupation will be farming. Buy a farm while one may be had."

Many Will Come To Oregon.

"An angel brought it, Jimmie." "Wuz you awake when he came?" "Certainly, Jimmie." "Well, then, mamma, all that I have got to say is, that you are dead easy. I'd like to see any old angel put such a looking thing on me. But reckon we are stuck unless I kin work Johnny Green to trade it sight-unseen for one of his spotted pups."—Ex.

Sears & Roebuck are very good people, but they are not going to give you a dollar a bushel for your wheat, nor 2 cents a pound for your potatoes, nor 50 cents a dozen for your eggs, nor a cent for anything you've got. Better spend your money where you make it. A wonderful amount of merchandise is ordered by people in this vicinity from mail order houses. These people refuse to support their home merchants. What a roar they would make if the merchants refused to buy their potatoes, eggs and other produce.
