AMATEUR PLUMBING.

What to Do When Drainpipe From the Sink Becomes Clogged.

When a drainpipe becomes stopped up, unscrew the plug. A (see cut) and remove the fat or other substance with a bent wire or old button hook. If the trouble is not remedied by this operation it shows that the stoppage is at the other side of the plug. In this case draw three or four inches of water in

OPENING A DRAINPIPE.

the sink and lay a board, B, over the outlet, as shown. The board should be about eight inches square and about one inch thick. Hold a stick, C, on the board and strike the end of the stick with a hammer. The shock of the hammer blow is transmitted through the drainpipe for a distance of many feet and will nearly always remove the obstruction.—Popular Mechanics.

Marketing Lima Beans.

August is the month for heavy production of lima beans. They continue to bear, however, till the first hard killing frost. The amount and length of profitable bearing depend largely upon keeping the vines picked clean and not allowing pods to get dead ripe, for the ripened seed of any kind takes most vital substance out of the plant and causes it to die. Besides, the beans when not quite ripe bring the highest prices. The time to pick the pods is when they show faint traces of light green to yellow. After the pod becomes yellow the beans inside are ripe, turn white and are then considered "dry" beans. White ones mixed with the green damage the selling price from a few cents to half their value per quart, says Fern, Field and Frieside.

On the market lima beans are sold by the quart; hence the best pack is the ordinary sixteen or twenty-four quart berry crate. Real early beans often sell better in pint boxes, as the

price is so high that customers of the retail stores do not want as many as a full quart. The peck market basket is another package used, six to ten quarts being put in each basket with a covering of green netting to enhance the greenness of the beans.

Cement Paint.

It has long been noticed that iron which has been imbedded in concrete for many years has shown a wonderful state of preservation when taken out. Experiments have since been made with portland cement, with the result that it is made plain that a thin coating of portland cement properly applied to iron and steel will arrest oxidation, says Fern, Field and Frieside. The cement must be finely divided, free from iron salts and diluted with pure water. Then, if it is free from iron, calcium phosphate and sulphuric acid, and of low specific gravity. It will set quickly and become practically a part of the metal. It will set with rust, and no moisture, carbon dioxide or factory fumes will affect the metal.

Benefits of a Clean Barnyard.

Keep the barnyard free from manure and house flies will be far less troublesome. To remove daily the freshly made manure to the field or pasture serves a double purpose—first, the maximum value of the manure is secured; second, that household pest, the fly, is largely avoided.

Good Sheep Require Good Pasture.

Mutton breeds of sheep do not depend on waste lands and hillides to become profitable. Good sheep require good pastures and pay well.

Timber Land, Act June 3, 1897.

NOTICE FOR PUBLICATION.
U. S. Land Office, Lakeview, Oregon.
December 20, 1907.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1897, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada, and Washington Territory," as extended to all the public land states by act of August 4, 1894,

Eugene W. Richardson
of Bend, county of Crook, state of Oregon, has this day filed in this office his sworn statement No. 282, for the purchase of the NW 1/4 NW 1/4, sec 25 and NE 1/4 NW 1/4, sec 26, Tp 21 N, R 11 W, M

And will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish her claim to said land before U. S. Commissioner H. C. Ellis, at his office in Bend, Oregon, on Monday, the 2nd day of March, 1908.

He names as witnesses: Joseph N. Hunter, W. Ray Wilkinson, Ira J. Wilkinson, Elmer J. Merrill, Archie Pettie, William H. Staats, all of Bend, Oregon.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 2nd day of March, 1908.

CONTEST NOTICE.

DEPARTMENT OF THE INTERIOR.
U. S. Land Office, The Dalles, Oregon.
November 26, 1907.

A sufficient contest affidavit having been filed in this office by George A. Jones, contestant, against homestead entry No. 1006, made November 23, 1905, for W 1/2 NW 1/4, E 1/2 NW 1/4, sec 24, Tp 20 S, R 10 E, W M, by Rosa Prather, contestee, in which it is alleged that said Rosa Prather has wholly abandoned said tract; that she has changed her residence therefrom for more than six months since making said entry; that said tract is not settled upon and cultivated by said party as required by law; that said alleged absence was not due to her employment in the army, navy or marine corps of the United States in time of war;

Said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on January 8, 1908, before H. C. Ellis, U. S. Commissioner, at his office in Bend, Oregon, and that final hearing will be held at 10 o'clock a. m. on January 12, 1908, before the Register and Receiver at the United States land office in The Dalles, Oregon.

The said contestant having, in a proper affidavit, filed November 26, 1907, set forth facts which show that after due diligence personal service of this notice cannot be made, it is hereby ordered and directed that such notice be given by due and proper publication.
