MONEY IS STORED LABOR. Every dollar you earn represents a certain number of hours of your labor. It is labor in a condensed form, convenient to exchange for the products of the labors of others, or to hold in storage for use in later years when your strength fails. Put away a part of today's work—of tomorrow's work—of every day's work, NOW, while you have earning capacity. Your stored labor will support you in comfort in a few years.

Can you save a dollar every day to put in the bank? or 50 cents? or 25 cents? If so you ought to be doing it. It's a pity to waste all the work of these good years, but many are doing it.

Be wise and bank a part of your earnings
each day.

FOR REPRESENTATIVE

Dr. U. C. Coe of Bend Enters the Race.

WILL BE STRONG CANDIDATE

Urged by the Voters of Western and Northern Crook County, He Finally Consents to Run.

This week Dr. U. C. Coe of Bend announces himself a candidate for the republican nomination to the office of joint representative from the Twenty-first Legislative District. Dr. Coe had no desire to become a candidate for the office but there were a large number of voters in western and northern Crook county who insisted that he allow them to present his name to the voters. After much insistent urging, he finally consented to their desire and will go before the people as a candidate for the republican nomination of joint representative. The Twenty-first district is composed of the counties of Klamath, Lake, Crook and Grant, and is entitled to two representatives and one senator.

There is a tendency during the present campaign to divide the political honors among the four counties. Klamath has asked that it be given the senatorship, and it appears that its request will be granted. At least there are no candidates in the field for the republican nomination to that office except Klamath men. Lake county claims one representative and is pushing a strong and able man for the office, H. A. Brattain of Paisley. The Klamath and Lake county papers agree that either Crook or Grant should be allowed to name the other representative. For the past four years Grant has enjoyed the office of state senator in the person of J. A. Laycock. Hence Crook county feels that it is justly entitled to a representative, and presents the name of Dr. Coe. That Dr. Coe will prove a strong candidate before the voters is a foregone conclusion. If nominated and elected to the legislature he will make the Twenty-first district one of the very strongest representatives it has ever had at Salem. He is a young and energetic man, a practicing physician and possesses in a marked degree the qualities needed by one who is chosen to represent the people in the state assembly halls. At the present writing he and Mr. Brattain are the only republicans who aspire to the office of representative, and as the district is entitled to two these men have no opposition.

The three Klamath men who want to be senator are George H. Merryman, H. L. Holgate and I. F. Willis. G. Springer of Culver, Crook county, is seeking the democratic nomination for state senator.

County Politics.

There are a number of candidates in the county field who are anxious to serve the people. The primaries will decide largely who are to be the lucky ones; the others will have to take the disappointment that always comes to many who aspire to things political.

At the present there is only one candidate for county judge, H. C. Ellis of Bend, a republican. Mr. Ellis' nomination and election is practically conceded.

For sheriff there are three candidates, Frank Elkins, republican, the present incumbent; W. C. Congleton of Paulina and Jake Stroud of Prineville, democrats.

For clerk there is only one candidate, Warren Brown, democrat, the present incumbent.

There are two candidates for treasurer, both republicans, W. F. King, who now holds the office, and William Johnson, who has a farm near Laidlaw.

Three republican candidates want to be superintendent of schools, J. F. Blanchard of Madras, M. A. Lehman of O'Neil, and R. A. Ford

of Black Butte precinct. W. R. Cook, democrat, also aspires to that office.

For surveyor, Frank May of Bend, republican; Wade H. Huston of Prineville, democrat.

For assessor, H. F. Jones of Redmond, republican; and J. D. Lafollette and H. A. Foster of Prineville, both democrats.

There is only one candidate for commissioner, James Rice of Hay Creek, republican. Mr. Rice is foreman of the large ranch of the Baldwin Sheep & Land Company.

Two republicans are after the district attorneyship for the Seventh Judicial District, in which district Crook county is included. They are W. P. Myers of Laidlaw and Fred W. Wilson of The Dalles.

As The Bulletin goes to press word reaches Bend that J. F. Blanchard, who announced himself a candidate for county superintendent, has switched over and will run for county judge.

MADE A NEAT SUM.

Basket Social was a Profitable Undertaking for Ladies' Library Club.

The basket social given last Saturday evening by the Ladies' Library Club of Bend was a decided success in all respects. There were a goodly number of baskets on hand to be sold, and they all brought good prices. The gross proceeds amounted to \$69.90, and as there was but \$1.00 of expense the net profit on the undertaking was \$68.90. This sum will be used for the benefit of the free public library and reading room of Bend.

The evening's pleasures began with a short program in which the orchestra rendered a selection, Miss Iva West gave a violin solo, and later "America" was sung by those present with Miss Marion Wiest leading and Miss Bessie Wilkinson at the piano. Then came the sale of the baskets, A. M. Lara acting as auctioneer. After the baskets had been sold and the supper eaten, the floor was cleared and the young folks danced until 12 o'clock, for which the music was furnished in several fine selections by Mr. A. H. Grant, who had kindly taken his pianola to the hall. Mr. Grant also played a selection during the short program given at the first of the evening.

The ladies feel much encouraged with the success of their first undertaking and feel very thankful to all who helped.

Want Postoffice at Powell Buttes.

Settlers living around Powell Buttes have sent a petition to the postoffice department asking that an office be established at the Moses Niswonger place. Such an office would be a great convenience to the many settlers in that neighborhood and the office should be established.

First Shipment of Butter.

According to the Prineville Journal, the first shipment of butter ever sent out of Crook county was shipped last week from the Prineville creamery to Portland, the shipment amounting to 600 pounds. Only a small fore-runner of the larger shipments that this country will some day produce.

Trouble with New Court House.

It appears that the county court is having trouble with C. C. McNeeley, who had the contract to build the basement for the new court house. McNeeley admitted certain defects in the work but refused to finish the contract. Whereupon the court declared remaining payments forfeited and ordered the clerk to advertise for bids to complete the basement.

Notice to the Public.

Notice is hereby given to all parties that my wife, Nellie Glazier, has left my bed and board and that I will not be responsible for any debts contracted by her. All parties are warned against extending credit to her on my account.

ECCLES WILL BUILD

Extend Hood River Road into Central Oregon.

WOULD TAP RICH COUNTRY

Reported that Salt Lake City Multi-Millionaire Will Push Line into This Section of Oregon.

An entirely new story regarding a railroad for Central Oregon has appeared, and a story which carries considerable probability with it. It is now said it is very probable that the Mount Hood railroad, extending from the town of Hood River up Hood River valley to Dee, will be extended into Central Oregon to connect with an extension of the Sumpter Valley railroad which will be built southwestward from its present terminus at Tipton.

The route of these extensions as outlined in the press dispatches will be from Hood River southward along the east side of Mt. Hood, through Tygh Valley to the Deschutes river, on to Madras, from Madras to Crooked River, and up that stream to Prineville. The Sumpter Valley, coming westward, will be built through Canon City to Prineville.

The man behind this undertaking is David Eccles, the multi-millionaire sugar manufacturer of Salt Lake City. He is the present owner of both the Hood River and the Sumpter Valley railroads. He also owns and operates large saw mills along these two lines. The building of the proposed new line would open up to transportation large tracts of timber land and also thousands of acres of fertile farming land in Central Oregon.

A surveying crew is now at work running a line from Dee southward around the base of Mt. Hood, and a construction gang is extending the Mt. Hood line from Dee six miles farther up the valley. W. H. Eccles, president of the Mt. Hood road, admits that this extension may form a link in the proposed new line.

If this line is built it will put a railroad right at the doorway of the Bend country, and would leave Bend only about 30 miles distant from the road. It is safe to predict that with a railroad that close capitalists interested in Bend and vicinity would soon build an electric line to connect with the steam road.

WOODMEN ENTERTAIN.

Camp at Redmond Spent a Pleasant Evening with Friends.

REDMOND, Feb. 24.—The Woodmen entertainment Saturday night was another success. We need just such meetings as this if only for the purpose of being enabled to keep in touch with new comers. At this particular function we met at least six who were strangers before, besides about the same number whom we saw but did not succeed in making their acquaintance.

The Woodmen feel under special obligations to Mrs. Davidson for the way in which at the last moment she took the organizer's place and played the accompaniments for the choruses.

Mr. and Mrs. Tinsley are both home from Gist.

Chris Ehret's house is now occupied by Mr. Oakes and family, late arrivals from Spokane.

Another family of new comers we understand is camped down in the O'Kane neighborhood.

Mrs. Buckley is on the sick list this week with a bad cold.

Mrs. Bauer still continues to improve, as also do all others of whom we have had a late report.

Mr. Rader returned to his home in Wenatchee, Washington, after a few days stay here.

E. L. Iverson of White Salmon, Washington, is on a tour of inspection. We are all pleased to hear that Mr. Iverson will move in in the spring and make his home with us. He reports his family as being well and his son Coral is located on an irrigated tract near Spokane.

Quite a surprise on Mr. and Mrs. Jones was planned and carried out for Friday evening by some of the friends who could not get out to the surprise that Mrs. Jones planned two weeks ago on H. F. Friends and neighbors to the

number of twenty gathered and spent a very pleasant evening.

E. C. PARK

Rosland News.

Chas. Richie is busy bailing hay these days.

Joe Taggart returned from Bend Wednesday.

Lee Caldwell is expected home in a few days with a good sized load for Bogue & Co.

E. C. Rourke returned from Silver Lake last Thursday evening.

Mrs. Wm. Bogue and children have left for the valley. Mrs. Bogue is going to her folks and will be followed by Will when he gets his business matters settled.

Mr. Smith, the Silver Lake stage driver, passed through our town Thursday evening on his way to Prineville where he will take out naturalization papers.

Our town has been flooded with drummers for the past two days.

We are able to see some good sized patches of snow and real earth at last around Rosland. It seems good to see it going so fast.

The report comes to us that the Mesdames King and Shonquest paid Mr. and Mrs. Hawthorn a visit last week. Mr. Hawthorn, on the ladies leaving, instructed them as to the manner of turning around with a sled, but as they were experienced hands at the business they didn't seem to care much about making a large circle, when a short one was so much quicker. They made the short one and they got the experience that time all right. They tell us now that sleighs can turn over pretty quick but this was the limit. There are some people in this country who are laughing yet.

Arne Howard, Roper and Otis Clasen and Carl Wise are making the timber fly these days. They are cutting wood for Bogue & Co. and for Mr. Bogue.

The sawmill people are on the jump this week building a foundation for the mill. They will erect a bunk house in a few days.

Tumalo Items.

TUMALO, Feb. 25.—Regular spring days make one feel good.

R. H. Bayley and wife were visiting at Tumalo one day this week.

J. E. Wimer made a trip to Haystack last week.

G. M. Couch and family returned from a trip to Washington one day last week.

Fred Weise of Sisters passed through Tumalo Saturday, returning from Bend.

P. F. Smith of Gist passed through here yesterday going to Bend.

C. L. Wimer went to Culver on business today.

Tax notices have made their appearance and they are something fierce to say the least.

Jess Harter was a Tumalo visitor Wednesday soliciting for the new creamery that is to be built at Laidlaw in the near future.

C. H. Spangh was a pleasant visitor at Tumalo Friday.

W. D. Clark is busy making many improvements on his place north of here.

Inklings at Gist.

Fine weather these days.

Some of the farmers here are plowing. There will be more put in to crop this year than usual.

There is some talk of extending the farmers telephone line from Mr. Fulliam's to Hightower-Smith Co.'s mill.

Eber D. Mossie has a contract for grubbing 20 acres of sagebrush for Mr. Cyrus of the Cloverdale country.

Chas. Dennison and Mrs. Huston of Sisters were united in holy wedlock on Tuesday, the 23rd, Judge Foster officiating. Mr. Dennison is one of Sisters' progressive citizens, having been engaged in the sawmill business and at present in the drugist at that place. Mrs. Dennison has a large circle of friends, having been engaged in the hotel business. Their numerous friends here and in other parts of the country join in extending congratulations. May there be scattered along the road of their future life's journey many pleasures and sorrows but few.

Arthur Templeton, wife and daughter Hazel of the Cloverdale country were at Gist Sunday to attend Sunday school.

Wonder what is the matter with Ray Foster and Billy Will. We don't see them at Sunday school any more.

More Time for Desert Entries.

The following news item from Washington, D. C., will be of much interest to quite a number of people in this vicinity who have filings on desert claims and who have been unable to reclaim their lands within the four years as prescribed by law. The item reads:

WASHINGTON, Feb. 13.—The House of Representatives today passed the Mondell bill, granting an extension of time to desert land entrymen who are unable to irrigate their land within the four years required by law, the extension not to exceed three years. The bill also prohibits the assignment of desert entries to companies or corporations, but permits assignments to individuals qualified to make desert entries.
