Small Boys Touch Off Powder.
The following article from the Madras Pioneer tells how a former Bend youngster, the son of J. H. Filey, got badly burned while playing with powder:

"Harold Riddle and the little son of Mr. Filey were quite severely burned last Wednesday by the explosion of a small quantity of gun powder to which they touched a match. The little fellows were playing over near the slaughterpen when they found a thumb-stall filled with powder, which had been thrown away by Jim Hurt, who had used it as a poultice for a felon on his thumb. Pouring out the powder on the ground the boys crowded around it to see it 'go off' when they touched a match to it. Both of the boys were burned about the face more or less, but little Harold Riddle was so severely burned that he has been confined to his bed during the week, under the care of Dr. Long. The skin was burned off of his face in large patches, and within a few moments after the explosion his eyes were entirely closed by the swelling and

his companions had to lead him back to town. It was feared that his eyes were injured, but when the swelling was reduced it was found that only the exterior of the lids was burned. The little Filey boy was also burned quite severely, but his injuries were not serious enough to confine him to his bed.

Redmond Items.
REDMOND, March 25.—When one drops into poetry, be it never so good, or when one writes anonymous letters some one always has to pay the penalty. So many folks seem to think themselves entitled to a little inside information. Some one writing to The Bulletin has used one of your reporter's names, still it is so common a one that we cannot feel that any undue liberty has been taken. The only undue liberty is on the part of those who accuse the reporter of being able to handle the English language to such good purpose as Greenhorn.

J. C. McGuffie is home from Bend for quite a visit.

Friends of F. T. Redmond quite pleasantly surprised him and Mrs. R. on Saturday night. Games, sociability
