Gophers, Sage Rats and Prairie Dogs annually devastate our fields of growing grain. Their number may be greatly diminished by a systematic warfare upon them. Every female killed before the young are born, reduces the number of pests at least ten later on.

"Woodlark" Squirrel Poison is the most reliable and destructive agent yet devised for their extermination. It is absolutely certain in its action and every kernel is warranted to kill. Climatic changes or moisture of the earth do not destroy its strength. It requires no mixing or preparation, and is always ready for use. No other is so good. Dealers will refund the purchase price, if not as claimed.
