About 100,000 nets are in use during the herring season by the 800 fishing smacks of the Netherlands. A net lasts about three seasons, but owing to losses from storms and other causes between 40,000 and 50,000 new nets are purchased annually.

New York, with 4,000,000 population, had been adding to its total in the three years preceding 1906 at the rate of 100,000 a year. Philadelphia, with a little less than 1,500,000 population, had increased at the rate of 80,000 a year.

Needless Sacrifice. Mr. Flippun—Maria, here's that \$25 you say you need for a new hat. By the way, Maria, do I ever talk in my sleep? Mrs. Flippun—Thanks. No, John, you never do.—Chicago Tribune.

No Clow. Reporter—I suppose you don't know what the Senator thinks about this tariff reform business? Senator's Private Secretary—No; no more than you do. I only know what he says about it.

Her Age. "How old do you think that woman is?" "I wouldn't like to say, but I'll bet she owes up to being several years younger than any other woman you care to name."—Philadelphia Press.

Giving Sister Away. Little Kitty (entertaining him)—Missie thinks a lot of you, Mr. Wallon. Elderly Suitor—Does she, dearie? How do you know? Little Kitty—She says you'll be the darlingest old man ticket that ever happened.

No Need of a Fire. "Wasn't it awful?" exclaimed the apartment-house girl. "The furnace was entirely out last night." "I never noticed it," replied her chum.

Practical Demonstration. Teacher—As to those old superstitions we have been talking about, they are all exploded. Nobody believes now, for instance, that it brings bad luck to walk under a ladder. Shaggy Haired Puppl—I do, ma'am. I walked under a ladder once, and it fell on me.

Not Cutting Prices. Caller—Is that the best you can promise me—a wife fifteen years older than I am, with a sharp nose, thin lips, and a sour disposition? Fortune Teller—What more do you expect? Did you think you could get a real affinity for a dollar?

A Legislative Paradox. "The representative part of the British Parliament is a practical paradox." "Why?" "Because it is a house of commons and yet peerless among legislatures."—Baltimore American.

Local Color. "George, I shall need some money to-day." "What for?" "There's a white sale at one of the stores, and I want to attend it." "A white sale? All right, Laura. A few silver dollars will do for that, won't they?"

Spread of Knowledge. Teacher (at night school)—What is a sacred cow, and why is it so called? Shaggy Haired Puppl—"Sacred cow" is a corruption of "sick red cow," its sick ness being caused by a large hump on its shoulders.—Chicago Tribune.

Locating Him. "Where's the man that's at the bottom of this fuss?" demanded the policeman, forcing his way into the center of the excited crowd. "He's there, all right!" said one of the eager spectators. "The other man's still on top!"

Environment. "Madame, your husband does not seem to have any organic trouble," said the physician. "Land sakes, no!" exclaimed Mrs. Bursritch. "Not in this neighborhood. But the folks that live next door to us have a graphophone that worries him nearly to death."

THE LIME-SULPHUR SPRAY. Good Preventive for Apple Scab and Less Harmful Than Some.

The serious results in the form of "Bordeaux Injury" which often follow applications of Bordeaux mixture render it almost imperative that some means be found of reducing this injury, or that some spray be discovered which may be used as a substitute for Bordeaux.

For the past two or three years I have observed, after winter spraying apple and pear trees with lime-sulphur solutions, for San Jose scale, that the fruit upon the sprayed trees was less "scabby" than that upon unsprayed trees. Upon two different occasions this winter application was delayed until the blossoms were about to open and while the spray, which was applied at the full strength, did considerable injury at the time, it decidedly beneficial effects were noticeable when the fruit was gathered. However the generally good results which follow winter applications of lime-sulphur are now well known and this part of the work requires no further comment.

Nevertheless, these observations suggested to me the probability that lime-sulphur solution might be used as a substitute for Bordeaux mixture for summer applications and during the past year I have so used it upon various plants for various purposes.

It is not proposed at this time to go at all into detail regarding these experiments—I wish only to call attention to some of the results obtained which show conclusively that lime-sulphur solutions may be used as a summer spray without injury to foliage and also point strongly to the probability that by its use apple scab may be effectually controlled without danger of spray injury to the fruit.

Impossible. "Do you find it difficult to dictate to your stenographer?" "No, I find it impossible." "Why, has she left you?" "No, she has married me."—Houston Post.

His Great Opportunity. "If Burbank wants to be a philanthropist as well as a wizard," said Rivers, making a wry face over his medicine, "why in thunder doesn't he evolve a cinchona tree that will produce a bark from which a tasteless quinine can be made?"

Their Real Handicap. "Isn't it wonderful to note the progress the Japanese have made in acquiring our western civilization?" "Yes—until you hear what a wretched botch they make of it when they try to swear."

Modesty. Whispering Customer (producing watch)—I came here because I have been told that you are an honest pawnbroker. Anvicular Patriarch (with a deprecatory smile)—My friend, somebody has been trying to have fun with you.

A Substitute. Customer—Will you give me a copy of "The Art of Being Happy at Home"? Librarian—I'm afraid it's out, but I have here a little treatise on Jiu Jitsu, which makes an excellent substitute for it.—Pelle Mele.

Emphatically. "Does your husband hold any civic office, madam?" asked the canvasser. "I should say he did!" answered the young matron. "He's the majestic grand old killemeakow of the Ancient and Illustrious Order of Spizzieractumbangs!"

Sure to Have Them. Mifflins—It is said that aggressive, impulsive people usually have black eyes. Mifflins—That's right. If they haven't got them at first they get them later.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a rumbling sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh of the Eustachian Tube, which is often attended by Catarrh of the Membrane of the Middle Ear. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Singular Effect. First Coed—What makes Prof. Crankleugh say that curious dialect? Second Coed—That isn't a dialect. It's his way of trying to convey the idea that he uses the simplified spelling.

Has Hopes. Skittleson—You won't mind this stock rade smell when you get used to it. Beere—Oh, well, then I'll live in hope. You see, I've been breathing it only about nine or ten years.—Chicago Tribune.

Me here will End Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A Good Fisherman. A small boy who lives near a lake was fishing and his mother had to call him five times to make him hear, says the Philadelphia Telegraph. Finally, she landed on him, and shaking him in a terrible manner, wanted to know why he did not answer. This was the reply: "I didn't hear you for the first three times, and the last time I had a bite."

SKIN DISEASES HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched, off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a permanent cure. There has never been any return of the trouble.
