THE ENDLESS CHAIN

With the coming of spring, squirrels, chipmunks and sage rats regularly appear, to devastate the fields of growing grain. Early in the season, when their natural food is scarce, their numbers may be greatly diminished by a systematic warfare upon them. Every female killed before the young are born, reduces the number of pests at least ten later on. "Woodlark" Squirrel Poison is the most reliable and destructive agent yet devised for their extermination. It is an absolutely certain instrument of death for squirrels. Every kernel is warranted to kill. Climatic changes, dew, frost, or the moisture of the earth do not effect its strength. It requires no mixing or preparation, and is always ready for use. No other is so good. Dealers will refund the purchase price, if not as claimed.

There's news in The Bulletin. It is conceded to be the best paper in Crook county.
