From
Catarrh.**

CONGRESSMAN MEEKISON RECOMMENDS PE-RU-NA

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

OTHER REMARKABLE CURES

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peru-na has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peru-na. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach, and seeing Peru-na advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

Manufactured by the Peru-na Drug Manufacturing Company, Columbus, Ohio.

Juvenile Ignorance.

"Paw, why do we have to pay for the water we use? We don't have to buy our air."

"That only shows, my son, that you have never had to pay a gas bill."

Uncle Allen.

"It's a mystery to me," said Uncle Allen Sparks, "that Senator La Follette, when he was counting up the men that control the money of the country, forgot to include Mrs. Betty Green."

Misstatement.

"You told Titi that the man who lent me \$10 would always have \$10 coming. I demand an apology."

"You're right; I was wrong. I should have said the \$10 would never be coming."—Kansas City Times.

S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anaemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One 10c package colors silk, wool and cotton equally well and is guaranteed to give perfect results. Ask dealer, or we will send post paid at 10c a package. Write for free booklet how to dye, bleach and mix colors.

MONROE DRUG COMPANY, Quincy, Illinois.

Telephone Girl's Romance.
Conscientious Carrie always tried to do her best. Never lost her temper—she was different from the rest; Carrie was a "central," with a voice of sweetest tone. And that is why Miss Carrie has a cottage of her own.
—Portland Oregonian.

Out of the Dim Past.
Samuel Woodworth had just written "The Old Oak Bucket."
"Nothing in it!" he muttered as he read it over and reflected upon the probable price it would bring.
But posterity evidently found something in it.

For the Housewife.
Some active women who pride themselves in housekeeping seem to forget that the object of keeping house is that human beings may be accommodated in it. Their sole idea seems to be this, that the house may be kept in a certain form and order; and to the performance of the form and order they sacrifice the comfort the house was established to secure.

Aiming and Hitting.
Mr. Kidder—I think a woman's club to be successful, should aim at something far removed from female suffrage.

Miss Strong—I don't agree with you, sir. That should be its sole object.
Mr. Kidder—Yes, but it's more likely to hit that object if it aims at something else.—Philadelphia Press.

Had Been There.
"I read in a book of statistics that the average woman carries from thirty to thirty-five miles of hair on her head."
"And then she raises the deuce if her husband happens to carry a yard or two of it on his coat sleeve."

Four Old Sophocles.
"Yes, John is getting quite a reputation as an actor. They gave him one of the leading roles in a play at college."

"John! Why, his enunciation is atrocious."
"But this was a Greek play."—Cleveland Plain Dealer.

His Credit Impaired.
Dinguss—Shadbolt, I haven't asked you for any money for a long time, have I?
Shadbolt—No; you never asked me for any money for a long time. You always wanted it for "just a day or two." That's why you're not going to get any this time, Dinguss. Air feels a little like snow, doesn't it?—Chicago Tribune.

Ignorance of the Rudiments.
"What a singular looking counterpane!" said the eminent physician.
"Counterpane!" exclaimed his wife.
"Yet you are supposed to be one of the greatest authorities in the country on brain diseases!"

"I fail to see the connection."
"That's a crazy quilt, you ninny."

Use for Old Tin.
Old tin is put to a variety of uses. For instance cheap trunks are covered with tin from discarded tin cans and other utensils, the tin having been first cut to desired size and straightened and smoothed out. There are also concerns in different parts of the country which make a business of removing the tin coating from old tin cans and scrap tin.

Weekly Touches.
"Poor Hiram!" sobbed Mrs. Hardapple. "He writes his college life isn't as gay as it is cracked up to be. He says some parts of it are very touching."

"Blamed if I don't agree with him," chuckled Mr. Hardapple, as he greased his boots. "I notice he's always writing touching letters for ten or twenty dollars."

A Surprise.
Teacher—Freddy Fangle, you may give the German name of the river Danube.
Freddy—Dunno.
Teacher—Donau! That is right. I am glad you have studied your lesson so well.
Freddy is surprised, but keeps still.

Prevents Dust Falling.

An ingenious Pennsylvania man has invented a dust pan, provided with a hinged cover, which can be held in a completely opened position while the dust and dirt are being swept into it and firmly closed afterwards, so that the pan can be easily carried about without spilling the contents. When closed the cover rests upon the bottom of the pan, the bottom at this point being slightly raised, presenting a barrier to the fine dust in the pan and preventing it falling out when the cover is lifted. A spring attached to the cover securely holds it in either an open or closed position.

DUST PAN.

Preserving Orange Juice.
While oranges are still in market a store of orange juice may be put up for use in the summer's punch bowl. A sweet, pleasant cordial is made from the juice of the sour orange. The usual formula is to add three gallons of water to one of the sour orange juice, and then three pounds of white sugar to each gallon of the liquid. After fermentation, bottle and lay aside for a few months before using. For the unfermented juice, allow to each quart of juice a pint of sugar and a cup of water. If very sour a little more sugar may be required. Bring to a good scald bottle hot and seal.

Corn and Potatoes.
Wash enough medium-sized potatoes for dinner and put in a large kettle. When the potatoes are nearly done put in roasting ears, with outer husks and silks removed, but with a thin layer of inner husk tied about the ears. Steam till done and serve at once. The potatoes will hold the corn up out of the water. If extra work is going on, the kettle may be hung, gypsy fashion, out of doors. Good for picnics also.

Filling of Cracks in Wood.
While tissue paper is steeped and perfectly softened in water and by thorough kneading with glue transformed into a paste, and by means of others (earth colors), colored as nearly as possible to the shade of the wood. To the paste calcined magnesia is then added and it is forced into the cracks or holes. This cement attaches itself very firmly to the wood and after drying retains its smooth surface.—Scientific American.

Supper Rolls.
Scald a pint of milk and add to it a half cup of butter. When cool, add a yeast cake, stir until dissolved, then put in a quarter cup of sugar, one beaten egg and seven cups of flour. Do all this early in the morning; knead and set to rise until afternoon. About 3 o'clock roll out, make into rolls and set to rise until a half hour before supper time; then bake. When half done, brush over with melted butter.

Sienna Eggs.
Sienna eggs as served at restaurants are prepared in this way: Slice a half dozen hard-boiled eggs and put a layer of them in a buttered dish. Sprinkle with grated cheese, add another layer of eggs and more cheese, and so continue until all are used. Pour enough white sauce in the dish to thoroughly moisten, cover with buttered crumbs and bake ten minutes. Serve in the dish in which they were baked.

Potted Cheese.
When left-over cheese grows dry and hard, don't throw it away, but grate to a powder. Put some in a bottle and save to serve with soups, Italian fashion, or cook with macaroni, or add to scallops. The rest of it may be beaten soft with a fork, seasoned with mustard and cayenne and reduced to a paste with a little vinegar. This is fine to spread on saltines or crackers or for sandwich filling.

Sweetbreads in Ramekins.
Blanch two pairs of sweetbreads, and when cold chop very fine, removing all bits of skin or gristle. Rub smooth with a gill of cream and then whip in gradually the beaten yolks of two eggs. Season with salt and pepper and beat until very light. Put the mixture into greased ramekins, set these in a pan of hot water and bake until "set." Serve in the ramekins.

Spice Cake.
One cup of brown sugar; one-half cup of molasses; one-half cup of butter; one-half cup of sour milk; two cups of flour; the yolks of four eggs, beaten light; one teaspoonful of soda, dissolved in milk, a teaspoonful, each, of cinnamon, nutmeg, cloves and all spice. Mix well and bake.

Circumstantial Evidence.
Mr. A. Conan Doyle, at the Authors' Club Christmas dinner in London, related that in America some colored people were keeping the festival of Christmas and they were told to hang up their stockings at night. One poor fellow had no stockings, and so he hung up his trousers. In the morning he was asked what he had got. He replied: "I guess I got a man, for my pants are gone."

Woman Railway Workers.
In the South of France one may see, at the little wayside stations, women attending to the signals of the half dozen daily trains; while the companies regularly economize at the level crossings by employing female labor. The husband can be seen at work at his vines upon the hillside, while the wife waves the green flag and keeps the children quiet.—Detroit News-Tribune.

When Mrs. Carrie she became she didn't quite forget.
She took her low, sweet voice along, and has it even yet.
But if hubby's just a little slow to answer to her call
She can jar him with a voice that cracks the paper on the wall.
—Chicago Tribune.

Too Plain.
"Norah," said her mistress, "I don't mind it if the policeman on the beat drops into the kitchen once in a while of an evening, but I object to your entertaining such shabby and disreputable looking fellows as the one who was there last night."
"He's all right, m'm," said Norah. "He's me plain clo'es piecem'n."

Lightning in South Africa.
In South Africa, where thunderstorms are terrific, lightning often strikes the beds of ironstone, and blue flames, sometimes firing buildings, are alleged to play about such ironstone outcroppings two or three hours after a storm.

Terrible Woman.
"My wife," growled Kadley, "is the most forgetful woman."
"Yes?" mildly inquired the polite visitor.
"Yes, she can never remember in the morning where I left my pipe the night before."—Philadelphia Press.

A Slow Process.
"Wigs went out this morning to clean off the snow."
"Yes."
"Every two minutes he'd run in the house to warm up."
"Did he clean off the snow?"
"He finally cleaned off the little that he hadn't carried into the house on his feet."

In the Long Age.
Cardinal Wolsey had fallen.
"I was trying to dodge an automobile," he explained, "and a roller skater ran into me."
The historians, however, with singular obtuseness, have persisted in placing the blame on Henry VIII.—Chicago Tribune.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Antiseptic, all vegetables. The dose is only one pill at bedtime.

Uncle Allen.
"Some men," muttered "Uncle Allen Sparks after the tiresome speaker had sat down, "remind me of an old water mill that's running with empty hoppers. Their wheels keep on going, but they don't turn out any grist."
Closing the Incident.
The famous ball player was looking through the sporting columns of the newspapers.
"I see they've quit mentioning me," he said. "I may as well sign."
Upon doing which he secured one more mention in the newspapers.

HOTEL MOORE
OPEN ALL THE YEAR
