SUPPORT THE UNIVERSITY.

Once more The Bulletin would urge upon the voters the necessity of supporting the state university by voting in favor of the measure to increase the annual appropriation for the maintenance of that institution.

Do Oregon voters want the above verdict to be lodged against their state? Do they desire to have the people from other states look upon us as a state that does not appreciate the advantages of education?

The Bulletin has heretofore urged the necessity and value to a state of a well equipped and progressive state university.

Some claim that this appropriation is excessive. If this bill is passed what will it cost you? It will cost you an increase in taxes (estimated on the 1908 valuation) 1-20 cents on every \$1000 worth of property.

Therefore, voters, look for No. 314 on the official ballot and be certain to vote "Yes."

tion of showing the natives how to do things.

The constitutional amendment increasing the number of supreme judges from three to five—which amendment is to be voted on at the general election—should be adopted.

THE DEMON ALCOHOL.

Ingersoll's Terrible and Truthful Denunciation.

I am aware that there is a prejudice against the man engaged in the manufacture of alcohol. I believe from the time it issues from the coldest and poisonous worm in the distillery until it empties into the hell of death, dishonor and crime, that it demoralizes everybody that touches it from its source to where it ends.

It covers the land with illness, misery and crime; it fills our jails, supplies our almshouses and demands our asylums. It engenders controversies, fosters quarrels and cherishes riots.

Card of Thanks.

REDMOND, Oregon, May 27, 1908.—To the many kindly people who so generously tendered sympathy and assistance in our bereavement, in the death of our relative, Frank Glass, we hereby express our grateful appreciation and heartfelt thanks.

Abolish Merciless Fishwheels Says David Starr Jordan

President of Leland Stanford Junior University Writes on the Columbia River Salmon Crisis.

Stanford University, Cal., May 13, 1908.—Mr. Edward Rosenberg, Astoria, Oregon: In response to a request from Mr. Hylan I am giving you my opinion as to certain matters connected with the salmon fishing in the Columbia.

effectiveness of that industry at all times when the water is clear.

Very truly yours, DAVID STARR JORDAN.

OREGON GRANGE SPEAKS.

The Oregon State Grange passed the following resolutions at its meeting this month.

Whereas, There has been referred to the Committee on Resolutions for consideration the two fish bills relating to the fishing industry to be voted on at the June election, bills No. 319 and 332, respectively:

Your Committee has carefully examined into these two bills as far as their time would permit and have to report that we favor proper protection to all natural spawning grounds; and to that end we condemn as a great detriment to said industry and to our State the operation of FISH WHEELS in the narrows of said river and demand and urge the passage of a law removing the same and also further recommend that said law shall be so constructed as to remove all traps from said stream.

LABOR FEDERATION

The Oregon State Federation of Labor has also endorsed the same proposed legislation.

To save Columbia River Salmon vote as follows:

TRUE FISH BILL 332 | X | Yes 333 | | No FISHWHEEL OWNERS' TRICK BILL 318 | | Yes 319 | X | No

Save this clipping until election.

(1) The fish wheel and the stationary trap in the Columbia River should be abolished. It would be well for the fishing interests of the country if the stationary trap in all of its various forms was everywhere eliminated for this is the most destructive and indiscriminating kind of fishing.

(2) It would be well if all fishing on a large scale above tide-water in the Columbia would be prohibited.

(3) I would also recommend that a careful study of gill net and similar methods of fishing be made, with a view to the ultimate interest of the fishing industry, as even if worse forms of fishing were eliminated, there are still perhaps too many gill-nets for the size of the river.

To prohibit gill-net fishing after dark would virtually destroy the

to 1907 to be almost as great as that in three years from 1903 to 1906.

The proposed Hood River County has a population of about 7,500; an area of about 1,400 square miles; and twenty school houses, seven of which are graded schools having from two to eight rooms each and with a \$2,000,000 high school under construction.

Very Respectfully, M. PATTERSON, Secretary.

VOTE THIS: 336 | X | Yes

Hood River County

This bill is submitted under the initiative for the following, among other reasons:

A county is a public corporation and it is apparent that Section 3 of Article XI, of the Constitution of Oregon as amended, reserved to the people the right to create a county by initiative vote.

There is no general law for the creation of counties now and no one knows when, if ever, there will be one. The facts as to area, population and assessed valuation show that we are able to maintain a county government.

Because the new county will be a great benefit to the people residing therein and will facilitate the transaction of their county business.

The assessed valuation in the proposed Hood River County in 1907 was \$28,304,000; in 1906 was \$18,870,000, showing a gain in valuation from 1906 to 1907 of \$9,434,000, or 50 per cent. The valuation in 1907 was \$28,304,000, a gain over 1906 of \$9,434,000, or 50 per cent, showing the proportionate increase in our vote from 1906
