

LOCAL BITS.

Remember the Catholic ladies' social tomorrow evening.

If you are losing your sole have it repaired by Legat, the shoe man.

Born, to Mr. and Mrs. J. E. Sawhill, on Monday last a bouncing 9 1/4 pound boy.

Wanted—Girl or woman to do general housework in small family. Inquire at this office.

Found—Two bunches of keys, also a flat key. Owners can have same by calling and paying for this notice.

Shoe repairing done with neatness and dispatch by Legat, the harnessmaker and cobbler. At A. L. Hunter's old stand.

Lindsey Sisemore and two sons, of Fort Klamath, are in Bend visiting their father and grandfather, "Uncle John" Sisemore.

Prof. R. A. Ford, county school superintendent elect, was in Bend Tuesday attending to business matters and calling on friends.

Mr. and Mrs. A. M. Lara and Max Richardson returned Wednesday evening from a business trip of about 10 days at Silver Lake.

Arrangements have been made with the Bend ball team whereby they will contest with the Laidlaw team on the Fourth at Laidlaw.

Dr. Coe reports that the Allen boy who took the 60-foot fall down the Deschutes canyon near Laidlaw last week is getting along nicely.

The Ladies' Library Club cleared \$16.35 from their strawberry social last Saturday night. They wish to extend thanks to all who helped to make the event a success.

Millard and Carlyle Triplett have been repairing the crosswalks at the corner of the postoffice and from the Lara to the Mutzig corner, a much needed improvement.

Ice cream and strawberries in the Mutzig building tomorrow evening.

The Redmond ball team will be in Bend Next Sunday to cross bats with the local nine. The Redmond team has been playing some very good ball and an interesting game is promised.

J. S. Williams, the new lumber man who has leased the Linster sawmill, has an ad. in this issue which you should read. He will treat you right and will supply you with first class lumber.

Mrs. Grant has donated to the fine bound volumes of the "Messages and Papers of the Presidents" to the public library. They are very valuable books for reference and historical study, and make a fine addition to the library.

The Bend orchestra will give a dance in Lara hall Saturday night. As it will probably be the last dance of the season by that popular musical organization, those who enjoy dancing to good music should plan to attend. Tickets, 75c.

Mr. and Mrs. A. H. Head and daughter, of Prineville, came over to Bend Wednesday to visit a few days with Mr. Head's nephew, A. A. Aldridge, and to enjoy an outing camping on the Deschutes. The two families are now camping about six miles above town.

Rev. Mitchell will preach morning and evening next Sabbath, June 28, and regularly every other Sabbath. Subject for 11 a. m. "Home as a School." At 8 p. m. "Socialism at the General Assembly and between Here and There." The special music will be "Simple Confession."

Camping and fishing parties have already begun to go through Bend on their way to up-river points, and the number who thus take their annual outing promises to be as

large as usual. No better place for a few weeks' vacation can be found than along the upper Deschutes or beside one of the numerous lakes at its head.

The ladies of the Catholic church will serve ice cream, strawberries and cake in the Mutzig building tomorrow (Saturday) evening. You may order either a dish of ice cream, or one of strawberries, or one of ice cream and strawberries combined and the charge will be only 15c. They will begin to serve at 4 o'clock.

The local Knights of Pythias have decided to make a big improvement in their lodge room. Two ante-rooms will be built in the rear of the hall and the hall papered throughout. New stations will be made and platforms for the officers put in. When the work is completed it will be the best lodge room in town.

Theodore Tweet met with a very painful and what might have been a fatal accident at the C. O. D. Co.'s sawmill Thursday morning. He was working at the planer, when a chisel which was lying on a nearby shelf or table was jarred off by the motion of the machine and fell into the fly wheel of the planer. As the chisel struck the wheel, it was flung forward like a shot from a gun and struck Theodore a glancing blow on the right temple, inflicting a severe cut in which it was necessary to take several stitches. He will undoubtedly be laid up for several days. Had the chisel struck him squarely, he never would have lived to tell the tale.

RUSH FOR IRRIGATED LAND

Demand Far Exceeds the Supply at Twin Falls—A Promise of What Will Take Place at Bend.

There has recently been an opening to sale of a tract of irrigated land in the Twin Falls project in Idaho. People came from all over the country to be present at the opening, and the demand for the land far exceeded the acreage on sale. A letter received from a resident of that section says:

"The company sold off in the first day and a half 60,700 acres and the people are still filing very rapidly today, indicating that the company will sell off practically the entire 80,000 acres within the next 10 days. In addition to this they will come very near closing up the remaining acreage on the North Side tract. The company would have sold two or three hundred thousand acres if they had had it; 4,000 people registered, depositing \$1,375,000 in cash or certified checks to cover the first payment, indicating a demand for fully 400,000 acres. Nothing to equal this ever happened in this country."

The Twin Falls project is being reclaimed under the Carey Act, and is the same as that of the Deschutes Irrigation & Power Company's project at Bend except that the rules and regulations are somewhat different, those governing the sale of land under the Bend project conserving the interests of the purchaser much more than do those at Twin Falls. At Twin Falls the lands are sold prior to the construction of the canals and laterals, while at Bend no land can be put on the market until the same is watered and the land reclaimed. Under the local project irrigable land is sold for \$40 per acre, while the non-irrigable or pasture land is sold at \$2.50 per acre. At Twin Falls the price is \$40.50 per acre for each 40-acre tract and no reduction, although they do reduce the price for non-irrigable tracts after the land is found to be part non-irrigable.

The Twin Falls company has had wonderful success in opening the country to settlers. The recent rush for land there is only an indication of what will some day take place at Bend when conditions are ripe. Many people who are acquainted with both the Twin Falls and Bend projects state that the latter is by far the better of the two. At Twin Falls, outside of the cultivated lands, there is nothing but the barren sagebrush plains, while here we have the junipers, pine forests and mountains to lend variety to the landscape. And the question of fuel, lumber and fence posts—always an important one in a new country—is easily solved.

W. R. Ward, of Dyersburg, Tenn., writes: "This is to certify that I have used Foley's Orino Laxative for chronic constipation, and it has proven without a doubt to be a thorough practical remedy for this trouble, and it is with pleasure I offer my conscientious reference."—C. W. Merrill, Druggist.

MICRO

ITCHING SCALP DANDRUFF AND FALLING HAIR

are but outward signs of the evil done in secret by myriads of dandruff germs sapping the life blood of the hair. Micro kills the parasite, soothes the itching scalp, gives lustre to the hair and stops it falling out. A single application gives relief and proves its worth. Save your hair before too late. Micro prevents baldness. It is a delightful dressing for the hair, free from grease and sticky oils. Ask your druggist for free booklet. HOYT CHEMICAL CO. PORTLAND, OREGON

here. The Bend climate is ideal, the soil fertile, and the water abundant, and as a Colorado man, who is well acquainted with irrigated lands, recently said, "It is the best irrigation project I have ever seen."

Balky Auto, Three Miles, Blistered Feet.

Last Monday H. H. Davies started with a happy crowd composed of Nick Weder, Chas. Stanborough, Mrs. A. A. Aldrich and Miss Anna Johnson for a visit to his desert claim. When about three miles north of town the auto balked, the autoists were obliged to trudge back to town. And now, Oh, my! my feet are so sore.

Consumptives Made Comfortable Foley's Honey and Tar has cured many cases of incipient consumption and even in the advanced stages affords comfort and relief. Refuse any but the genuine Foley's Honey and Tar.—C. W. Merrill, Druggist.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."
We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.
It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition, and that in the future as in the past it will be the source of constant reference.

CHARLES C. NOTT, Chief Justice.
LAWRENCE WELDON,
JOHN R. RAY,
STANTON J. FEEBLE,

Every Farmer

As well as every business man should have a bank account.

Why?

Because: Your money is safer in the bank than anywhere else.
Paying your bills by check is the simplest and most convenient method.
Your check becomes a voucher for the debt it pays.
It gives you a better standing with business men.
Money in the bank strengthens your credit.
A bank account teaches, helps and encourages you to save.
This bank does all the bookkeeping.
Your bank book is a record of your business.

To those desiring Banking Connections with a well established Bank, we extend our services.

Every Six Minutes A New Moline

The present capacity of the Moline Wagon Works is one complete Moline Wagon every six minutes.

CLAD IN IRON AND SHOD WITH STEEL

The Moline Wagon consists of a hardwood foundation, with heavy iron and steel reinforcements. It not only has heavier pattern WOOD-WORK, but the IRON and the STEEL that doubles its durability is of Extra Strength.

Steel against Steel at friction points.
Iron against wood where strain is greatest.
Double bracing of Gears and Grain-Tight Box.

Is it any wonder that farmers call this Wagon the "IRONCLAD"?

Wagon Book Free

The Moline Company's Master Mechanic has written the story of the "IRONCLAD." It is published in book form and, while they last, we will give them free to farmers who ask for them.

Moline Ironclad Gears and Beds always on hand.
