passed through townships 21, 22 and a short distance into 23, all in ranges 13, 14 and 15 and a short distance into 16.

They will undoubtedly soon have the fire under control as it will not spread to any extent since the late rains. About 115 men have been sent in to fight this fire.

Mr. Petit believes this fire was set by the Indians. His reasons for so thinking are because the fire broke out almost instantly on its entire length of 15 miles, and because it is set in such a manner as

### Advertisements

#### Like Clocks Should Be Kept Running

A store's advertisements tell the people what is "doing" at that store—what is new, what is inviting, why today is a good time to visit the store. People look for the ads. to tell them these things just as naturally as they would look at a clock to tell the time.

Sometimes a clock does not run—sometimes a store's ad. does not. A "run-down" clock or ad. are about equally unsatisfactory, unserviceable, misleading.

Curious thing, about it is that a merchant who would think it absurd to have a "run-down" or out-of-repair clock will, sometimes, deliberately let his ad. stop running. It's not wise, nor "good business," nor defensible on any known grounds—but, it's sometimes done.

to drive the deer out over an open sand flat where they would fall an easy prey to the Indians' rifles. He says the deer are very thick in that section and that one day he heard five or six rifle shots in the distance, but did not have time to investigate.

While the forest officials report that these fires are doing much damage to the timber, it is denied by men who have lived in this section for years. They admit that the young trees will be damaged and killed, but are firm in the statement that comparatively few of the large yellow pines will suffer at all. They state that they have frequently seen just as heavy fires run through the timber here. The tree trunks would be thoroughly blackened, but the bark soon scaled off, a new bark was formed and in a few months afterwards you would not know there had ever been a fire in the timber. The forest officials are naturally concerned about saving the young growth, and everyone admits that the fires are a serious thing in that respect.

Tuesday afternoon the crew that had been fighting the forest fire in township 19, range 9 and 10, west of Spring river, succeeded in getting it under control and all of them returned to town except six men who were left to watch the fire that it did not break out again. A strip had been cleared entirely around the fire and three or four furrows plowed for the greater part of the distance. They thus have that fire securely corralled. J. N. Hunter says it burned over about five sections. It was not, however, all yellow pine, about a third of the territory burned being covered only with jack pine.

### GROSSLY EXAGGERATED.

Reports to City Papers as to the Loss From Forest Fires, in Error.

A special to the Oregonian from Prineville, dated Aug. 9, states that "6000 acres west of Spring river have been totally denuded of timber. \* \* \* The rangers estimate the timber will burn for months unless a heavy rain falls."

Nothing could be much farther from the truth than the above report. The fire burned over only about half the acreage mentioned above, and the fighters had it under control before the rain came. Instead of this tract being "totally denuded of timber," the loss has been very insignificant indeed. J. N. Hunter, an experienced timberman of Bend, who took a prominent part fighting this fire, says the damage to mature timber is only a very small per cent.

The belt of timber through this section has borne the reputation of being one of the safest from fire of any timber in the world. It is unfortunate that such silly and exaggerated reports should get spread as to the damage from these fires. Of course, the young pine is injured, but the merchantable, mature timber will escape with very little damage.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine can do more.—C. W. Merrill, Druggist.

AN ORDINANCE to amend Section Four of an Ordinance entitled "An Ordinance Fixing the Compensation and Bond of the Recorder and Defining His Duties."

Be it ordained by the Common Council of the City of Bend: That said Section Four be amended so as to read as follows:

"Sec. 4. The Recorder must issue all licenses authorized by the city ordinances, upon delivery to him of the receipt of the Treasurer for the amount of money required for such license. PROVIDED, however, that the Recorder shall issue no license for conducting a billiard, bagatelle or pool table or bowling alley or for the sale of cigars, tobacco, liquors, soft drinks or other merchandise in connection with a card or billiard room or bowling alley unless written application therefor be first made to the Common Council and said application be granted by a majority vote thereof. All ordinances and parts of ordinances inconsistent herewith are hereby repealed. Approved August 11th, 1925. Attest: H. C. Ellis, Gro. BROSTERHOUS, Recorder. Acting Mayor.

### Fool Mothers.

A murder was committed in Portland this week by a mere lad, and in an editorial comment the Oregonian says: "That Guild's Lake murder came about as usual, through the circumstance of having a loaded pistol handy about the house." What about the "circumstance" of the mother being away from home attending a meeting of fanatics? Probably the crime would not have been committed were she the faithful mother that she should be. Portland, like other cities, is full of just such people who bring children into the world for no other purpose than to swell the prison population.
