

Cash, or Credit—Which?

A CASH STORE is where one dollar of Your money will buy one hundred cents worth of merchandise for You. A CREDIT STORE is where one dollar of Your money will buy from 85c to 90c worth of merchandise for You and from 10c to 15c worth for the man who has his goods charged and then never pays for them. A CASH STORE has no bad bills to figure on at the end of the year. A CREDIT STORE always has from 10 to 15 per cent of bad bills to be charged to the loss account at the end of the year. A CASH STORE always marks their goods in Plain Figures and has One Price to all. One man's money is just as good as another's. The CREDIT STORE seldom puts a plain selling mark on their goods and You are never sure that you are buying your goods as cheap as your neighbor does. When You buy goods You want to get full value for Your money. The store that does a general credit business cannot give you the full value of your money. You must pay your share of the bad bills. In other words You pay for merchandise that You never get. Now which is the better proposition for You—full value at the cash store or less than that at the credit store? I sell for cash only and every article in my store is marked in plain figures—one price to all and that price the FULL VALUE price. An honest comparison will prove the above statements true. If the price is the same you will find the quality a little better. I sell for cash and I buy for cash.

Forbids Using Deer Hounds.

R. O. Stevenson, state game and forestry warden, says that deer may not be hunted with dogs at any time of the year. "The impression that it is lawful to kill deer by dogs during the open season has gone forth," says Mr. Stevenson. "I wish to state that in accordance with a decision rendered by the attorney general it is unlawful to kill deer pursued by dogs at any time of the year, and that the law in regard to the same will be rigidly enforced."

A Statement to the Public.

Fearing that the people in the vicinity of Rosland may not fully understand the circumstances connected with the attachment actions recently commenced by J. S. Bogue & Co. against the Rosland Lumber Company, I take occasion in behalf of the lumber company to make an explanation.

On or about the 20th of last August, Mr. J. S. Bogue of the firm of J. S. Bogue & Co. called upon the officers of the lumber company in reference to certain indebtedness due the firm from the lumber company, amounting at that time to about \$800, for groceries and supplies used by the company in running its mill business. At that interview it was agreed between J. S. Bogue, representing J. S. Bogue & Co., and myself and George W. Hollies, on the part of the mill company, that the mill company would be given until October 1 to pay up this indebtedness in full.

Since the 20th of August up to the present time, the mill company has paid in money and lumber about \$300 to J. S. Bogue & Co. on this account, leaving a balance still due of about \$500, which by the agreement above mentioned was not to become due and payable until October 1. The officers of the mill company, relying upon this agreement, had made arrangements to pay this balance on October 1st much to their surprise. On September 15 the mill company was served with summons in an action by Bogue & Co. on their claim, and the entire plant and outfit of the Rosland Lumber Company was attached and tied up,

much to the annoyance and loss of the company. Mr. Hightower and myself at once proceeded to raise the money due J. S. Bogue & Co. on their claim, which as a matter of fact was not due until October 1, and settled with them in full.

It is with hesitation that I make this explanation in behalf of the lumber company, and I only do so that the public may know that this action on the part of J. S. Bogue & Co. was entirely uncalled for and in fact contrary to their express promise.

In conclusion I will say that the Rosland Lumber Company has from the beginning done a prosperous business and expects to continue to do so, and furthermore is in a position to pay every dollar of indebtedness held by any person against it.

Dated at Rosland, Or., October 1, 1907.
Respectfully,
THE ROSLAND LUMBER CO.,
By J. N. Masten.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it is in fact the popular Unabridged thoroughly revised in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation.

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly revised in every detail, has been corrected every part, and is admirably adapted to the larger and severer requirements of another generation, which demands more of popular philological knowledge than any generation that the world has ever contained.

It is because we believe that we refer to the Dictionary in our judicial work as the highest authority in matters of definition; and that in the future in the past will be the source of constant reference.
