

A SUDDEN GOLD.

Miss Helen Sauerbier, of 815 Main St., St. Joseph, Mich., writes an interesting letter on the subject of catching cold, which cannot fail to be of value to all women who catch cold easily.

PERUNA ADVISED FOR SUDDEN COLDS.
It should be Taken According to Directions on the Bottle, at the First Appearance of the Cold.

St. Joseph, Mich., Sept., 1901.—Last winter I caught a sudden cold, which developed into an unpleasant catarrh of the head and throat, depriving me of my appetite and usual good spirits. A friend who had been cured by Peruna advised me to try it, and I sent for a bottle at once, and I am glad to say that in three days the phlegm had loosened, and I felt better, my appetite returned and within nine days I was in my usual good health.

—Miss Helen Sauerbier.
Peruna is an old and well tried remedy for colds. No woman should be without it.

Recognizing His Limitations.
Cholly—Let me see—what's that quotation about a nod being as good as a wink, and so forth?
Freddy—Why—er—I can't think—
Cholly—O, I know that. I'm asking you to try to remember.—Chicago Tribune.

S.S.S. FOR BAD BLOOD

When bad blood is caused from an infection of the circulation by the virus of Contagious Blood Poison, it usually shows in the form of ulcerated mouth and throat, copper-colored spots on the body, swollen glands in the groin, falling hair, sores and ulcers, etc. These general symptoms, affecting all parts of the body, show how deeply poisoned the blood becomes, and emphasizes the dangerous character of the trouble. If allowed to remain in the system the disease will finally wreck the health and break down the strongest constitution. No medicine can cure Contagious Blood Poison which does not rid the circulation of every particle of the virus. S. S. S. is the one real and certain cure; it goes down to the very bottom of the trouble, and by removing every trace of the poison, and adding rich, healthful qualities to the blood, forever cures this powerful disorder. S. S. S. is the most reliable of all blood purifiers, and its concentrated ingredients of healthful vegetable extracts and juices especially adapt it to curing this insidious trouble. Write for our home treatment book, which is a valuable aid in the treatment of the different stages of the disease, and ask for any special medical advice you wish. No charge for either.

FARMS AND FARMERS

Demand for Trained Farmers.

The last ten years has seen an enormous increase in the demand for men trained in agricultural lines. The number of such men has enormously increased, but the demand is not yet supplied.

Many of us can look back twenty years to the time when untrained men were at the head of agricultural instruction in most of our agricultural colleges. Those men had to be employed because they were the best that could be found.

One man who rose to be the chief dairy instructor in a State afterwards went to a dairy school and took a full course, showing that he felt that he had something to learn, even though he himself had been an instructor.

Today we are getting the result of the past twenty years of training in the agricultural schools and their dependencies, the dairy schools. The men at the head of the departments today are vastly superior in training to the men that occupied the same positions twenty years ago. They have not only learned all that their instructors knew, but have dug up other facts and have assimilated the new facts dug out by other people in all parts of the world.

But where there were few positions to be filled twenty years ago, there are thousands of places to be filled today. There are more schools and all of them are larger. Moreover, private enterprises are levying toll on the young

that quickly spreads to the other fowls. A good old way of curing this vice is by blowing an ordinary egg and refilling with a mixture of cayenne pepper and mustard. This should be left in a prominent place, and if the fowls peck at it they will not, in all probability, repeat the experiment. Too few nest boxes sometimes cause the eggs to be laid on the floor and in the run, which is putting unnecessary temptation in the way.—S. S. C., in the American Cultivator.

Save the Rotten Trees.

When the trunks of cherry trees have started to decay probably the best way of checking it is to clean out the dead wood, paint the wound thoroughly with whitewash, or, better yet, with Bordeaux mixture, and then cover the whole wound with grafting wax or clay, so as to keep the water out. While this may not result in an entire healing over of the bad wounds, it will probably stop the decay, and make the trees last longer than they would if left without treatment. Don't be afraid to remove all the rotten wood, as it adds nothing to the strength of the tree and has a tendency to promote rot in the new tissues. It is quite likely that this rot started in the tunnel of a borer and has gradually spread until it is serious.

Forcing Cantaloupes.

The experiment of growing cantaloupes under muslin canopies so that they may be ready for the market two or three weeks before those grown in the ordinary way has been successfully made in California. The cantaloupes were planted in the usual manner, so far as hill and spacing were con-

SANITARY COW STALL.

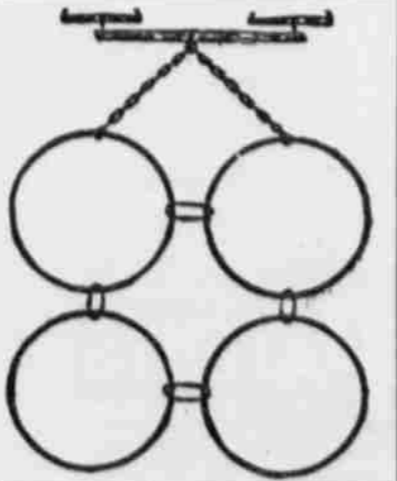

Cattle of different ages must be provided for in constructing a row of stalls. Even when all are mature animals, the larger ones will require a few inches more standing room than the shorter ones. The stall at one end can be made six inches longer than the stall at the other end. A slope of one inch from manger to gutter is necessary for drainage. The illustration shows the dimensions of the several parts. A, manger; B, platform; C, adjustable piece; D, where cow's hind feet rest; E, gutter.

trained men going out of the agricultural schools and experiment stations. Another twenty years will possibly show as great an advance as have the past twenty.—Agricultural Epitomist.

New Form of Drag.

The illustration shows a drag made with four old wagon tire irons, the two front ones being heavier than the rear ones. If the ground is very lumpy

better work can be done by wiring a log on the front tires. The drag is inexpensive and will be found useful under certain conditions.

Egg Eating Fowls.

Egg eating is due to one or two causes—either lack of shell-forming material or a bad habit acquired by close confinement and bad example. If the fowls are receiving too little they consume the eggs in order to satisfy their craving. In one hundred eggs of ordinary size there are about twenty-two ounces of lime, and all this must be taken into the system in one form or another. Broken oyster shells are, perhaps, the best and cheapest shell-forming material. If due to a bad habit, it is rather more difficult to overcome. If the culprit can be discovered, and it is not a valuable bird, it is better to kill it at once, as the habit is one

WE BUY FURS AND HIDES

For most cash. 10 to 20% more money for you to ship Raw Furs and Hides to us than to sell at home. Write for Free List, Market Report, Shipping Terms and Receipts.

HUNTERS' & TRAPPERS' GUIDE

All about Trapping, Skinning, Dressing, Tanning, Game Laws, How and where to trap, and to become a successful trapper. It's a real life guide. Price, \$1.50. To our customers, \$1.25. Write for our free beautiful book. Our Magazine and many other articles appear in it. 25¢ per copy. Single copies sent free to our agents. Anderson Bros., Dept. 123, Minneapolis, Minn.

Innocent.
"Lobelia," sternly demanded Mr. McSwat, "I want to know what you've been doing to my safety razor?"
"Nothing," was Mrs. McSwat's indignant answer, as she moved around with a slight limp. "Besides, Hilliger, I don't believe it's a safety razor, anyway!"—Chicago Tribune.

You Can Get Allen's Foot-Ease FREE.
Write Allen R. Oimsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot swollen, itching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

His Natural Bent.
"I understand old Pelyman left his affairs in pretty bad shape. Are you having any trouble in straightening them out?"
"We have found that they can't be straightened. He was a confirmed crook."

Probably from Boston.
"But, surely," protested the lately departed girl, "you're not going to take me to the—er—infernal regions?"
"Only for a few seconds," replied the attendant spirit. "We must thaw you out a little."—Catholic Standard and Times.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Getting Immediate Action.
"Mildred," sharply spoke the chaperon, "you chew gum nearly all the time. Can't you find something else to use your teeth on occasionally?"
Mortified and indignant, the young woman impulsively bit her lip.
