Government Responds to Appeal for More Troops to Deal With Menacing Situation.

London, Nov. 26.-The seriousness of the Indian uprising has caused the government to take vigorous action both here and in the affected districts. The war office today ordered a substantial military enforcement to proceed immediately from Aldershot to the tion. scene of the impending revolt, it being represented to the authorities that the cope with the situation and were sorely in need of troops.

Reports of extended police investigations among the Hindu "reds" disclose the existence of a far reaching organization numbering hundreds of of the judgment. throwing British control, murdering Lord Minto and Lord Kitchener and seizing the machinery of government to place it in the hands of the revolutionary society.

Government assurances that the higher class natives are out of sympathy with the movement are known to be baseless. The best educated and highest caste Hindus are known to be the real organizers of the anti-English conspiracy, and several of the richest and most powerful native princes are among those most strongly suspected.

King Edward's liberal birthday address to India a few weeks ago has evidently been passed over by the conspirators, as too vague in its promises, as untrustworthy or as pledging less than the minimum which the natives are willing to accept. It has, in any event, been wholly without effect in allaying discontent.
