He is well pleased with his new home.

A young man by the name of Fox was in Bend Sunday on his way to Shaniko after a load of freight. He and his father have started a store in the Fort Rock neighborhood, and he says it keeps him busy hauling in goods—that they sell them as fast as he can freight them in. According to Mr. Fox there is a large number of settlers moving onto land in the vicinity of the Rock, and still more are scheduled to arrive in the spring.

M. Lara of Seattle, Wash., father of Bend's popular merchant, A. M. Lara, spent several days in Bend during the past week. Mr. Lara, Sr., is one of the large army of those living at outside points who have great faith in the future of this section, and who believe that Bend is destined to become one of the leading cities of the state. After visiting a few days with Mr. and Mrs. Lara in Bend, he left for California where he will spend the winter.

The Sandusky (Ohio) Star-Journal of December 7, contains an account of memorial services held by the Elk's lodge of that place in memory of the honored dead of that lodge. A former Bend citizen, Hon. W. E. Guerin, Jr., delivered an address at the services which was printed in full in the Star-Journal, and of which that paper said: "Brother W. E. Guerin delivered the eulogy, 'Our Departed Brothers.' The eulogy, although brief, was a masterly effort and eloquently delivered. The lives of the departed, he said, were yet fresh in our minds and to them he paid an eloquent tribute."

L. C. Young and John Swiger are two more ranchers to move onto land in this vicinity during the past week. They arrived in town Monday and are now busy building houses and barns on their land. Mr. Young has 150 acres of ditch land five or six miles northeast of town, and Mr. Swiger also has a tract of ditch land in the same neighborhood. Both men plan to have part of their land under cultivation next year. Mr. Swiger's family will move here in the spring from Stratford, Wash., the former home of both Mr. Young and Mr. Swiger. The land east of town is settling up rapidly, and it is a pleasing sight to see the sagebrush and junipers giving way to dwelling houses and barns, fences and cleared fields. The Bulletin extends a welcome to Messrs. Young and Swiger.

BEND DISTRICT WINS.

Declared Equivalent in Efficiency to the County High School. The Bend school district will hereafter be exempt from paying any tax in support of the county high school. This is assured by the decision of the county boundary board that Bend is now maintaining a district high school equivalent in efficiency to the county high school, and under the Oregon school law that will exempt the Bend district from paying the county high school tax.

As noted in last week's Bulletin, the county boundary board, consisting of County Judge Ellis, County Commissioner Bayley and Rice, and County Superintendent Ford, visited the Bend schools last Wednesday for the purpose of determining as to their efficiency. This was done in response to a petition from the directors of the Bend schools asking for exemption from the county high school tax on the grounds that the Bend district is

Maintaining a district high school which is the equivalent in efficiency of the county high school. After visiting the local schools the decision of the boundary board was favorable and was conveyed to Clerk Weist in the following letter:

PRINEVILLE, OR., Dec. 11, 1908.—To Board of Directors, District No. 12, Crook County, Oregon.—Gentlemen: In the matter of the application of District No. 12, known as the Bend district, for recognition as a district high school: The boundary board, after careful investigation and personal inspection, has decided that District No. 12 is now maintaining a district high school equivalent in efficiency to the county high school, and is therefore entitled to recognition. The application of District No. 12 is therefore granted. R. A. FORD, Secy. of Board.

This means that the money heretofore paid by the Bend district to support the county high school can now be expended in behalf of the Bend school, or the tax levy for school purposes may be reduced with the consequent saving to the tax payer. However, it is probable that the money will be expended to support and increase the efficiency of the Bend school. In 1906 Bend paid into the county high school fund the sum of \$300 and in 1907, \$500, which shows that there will be quite a saving to the Bend district.
