

NOT A BAD RULE FOR ALL QUACKS

Indian Shoots Medicine Man Who Failed to Make Good.

TOO HANDY WITH A GUN

Finch, the Condemned Portland Murderer, Once Attempted to Shoot Up a Prineville Saloon—Other Items of General Interest.

Dr. Joe, an Indian, was killed by Charley Preston, another Indian, near Alturas last week. Preston and his niece, a small child, were both ill and Preston had paid the "Doctor" \$250 but both grew worse. Joe said he knew what was the matter with the child and proceeded to "suck a needle out of her breast." Preston caught him with the needle in his mouth in the beginning. Preston denounced him, and the doctor replied, "Well what are you going to do about it?" Preston's answer was three shots fired from a pistol, one of which killed the doctor.

The young fellow is now in jail in Alturas. The Lakeview papers gave an account of the shooting and stated that it seems that the shooting was the result of an old tribal law, wherein should a doctor fail to "make good medicine," he should straightway be killed by the nearest kin to the deceased. This is the second Indian doctor who has gone to the happy hunting grounds the past six months for failure to cure.

Just Naturally a Fool.

Jim Finch, sentenced to hang February 5 for the brutal murder of Ralph Fisher, had an experience in Prineville a few years ago during the timber rush. He acquired a whisky bill and when Isom Cleek asked him for a settlement drew his "gun" and started to shoot up the proprietor. John Dell took the gun away from Finch before he fired a shot, and held it until he was seated in an outgoing stage. Dell then gave Finch his gun, minus the cartridges.—Prineville Review.

Grazing Fees Upheld.

Judge Lewis, of the United States district court, at Denver, has decided that the national forests are constitutional, and that the government has the right to charge and collect the grazing fees provided by the Department.

The decision was rendered in a test case brought by the government against several members of the Cattlemen's Association of Colorado, who, in order to get an adjudication of the matter, had refused to pay the fees. It is understood that the case will be appealed to the United States supreme court.

Six Tons of Advertising Matter.

Six tons of advertising matter, and the highest possible grade of advertising matter at that, was forwarded to the East by the Portland Commercial Club last week. This remarkable addition to the enormous advertising Oregon is already receiving, tells of all the resources of the state in picture and text, and comprises 5,040,000 full newspaper columns, certainly a great accomplishment, and one which five years ago would have been considered impossible.

Nearly Froze to Death.

Avery G. Scoggia came near freezing to death on the hill east of Prineville while on the way from Paulina during the cold snap. He is "subbing" that line, and becoming worn out from hard work, fell asleep on his seat. Passengers, noting his danger, wrapped him in heavy blankets and placed him among the foot warmers in the boot, while Alex Mackintosh brought the stage to town.—Review.

Lighted Lantern Keeps Coyotes Away

After repeated experiments on a farm near the lake shore at Kaysville, I am thoroughly convinced that nothing is quite so efficacious in keeping the coyotes away from the chicken roost at night as a lantern hung on a pole in a con-

spicuous place. A pack of a dozen or more, accustomed to howl and plunder about a certain place, will not even approach when there is a light.—C. T. Barnes in Deseret News.

Diphtheria Scare at Lakeview.

The authorities have forbidden any public gatherings, and have closed the schools for a few days on account of the diphtheria scare. The reading room will also be closed for a short time. The dances have been forbidden and the skating rink closed.—Herald.

Short Items of Interest.

Burns has organized a commercial club.

A great amount of cattle and horse stealing has been going on around Bonanza and Klamath Falls. The county court has offered a \$250 reward for evidence as to the guilty parties.

Settlers living on Klamath irrigated lands are going to send a man to Washington who will endeavor to secure a reduction of the price of land under that project. The Klamath project is a government undertaking.

The last trip of stage coaches and freight teams to Klamath Falls has been made. The railroad has been completed to Holland, and from there freight and passengers are transported to the Falls by boat. The railroad will be built into Klamath Falls by next spring.

The Lone Pine Trading Company has been taken over by a new firm and is now known as O'Neil, Larson & Company, the principal partners in which are George O'Neil and Geo. J. Larson, both of whom are well and favorably known here. The new firm starts out with a generous business and is sure to succeed.—Prineville Review.

A rather unusual sight was witnessed here the first of the week when a large flock of geese were seen flying over Burns. The migratory birds are common here during the spring, and summer, as well as their fall flights, but to visit us in midwinter is quite unusual. We will have to consult Capt. Louey, the Piute oracle, to learn the significance of this untimely flight.—Burns Times-Herald.

ADDITIONAL LOCALS.

If—at any time whatever you visit the store that has the best ads, you will be pretty sure to visit the best store.

P. H. Benson arrived recently in Bend from Seattle, having come West last fall from New York City. He owns ditch land east of Bend and plans to put it under cultivation next spring.

F. Errington and wife are late comers to Bend, having come here from Idaho, but formerly living in Texas. Mr. Errington is looking over the country with a view of settling here. At present he and his wife are stopping with "Uncle John" Sisemore.

Mayor J. D. Davidson and T. W. Triplett have purchased the drug store of Dr. C. W. Merrill, possession to be given February 1. The postoffice will be moved into the new building now in process of construction, and the new firm will occupy all of the present room. They will incorporate under the name of the Bend Drug Company.

If you will take Foley's Orino Laxative until the bowels become regular you will not have to take purgatives constantly, as Foley's Orino Laxative positively cures chronic constipation and sluggish liver. Pleasant to take.—C. W. Merrill, druggist.

Thanks.

The Bend Bulletin has installed a new cylinder power press. The Bulletin is one of the wide awake papers of Central Oregon and deserves the support of the people of Crook county.—Silver Lake Leader.

OUR SPECIAL FREE PREMIUM OFFER

If you will send \$1.50 for a year's subscription to THE BEND BULLETIN cash with order, we will give you, absolutely free, a full paid-up year's subscription to--

FARM AND FIRESIDE AND FOUR SUPERB PICTURES

THE BULLETIN is offering these pictures as an inducement to secure new subscribers. They are fine reproductions of noted paintings, and are printed in the original colors.

One of these is a picture, 9x13 1/2 inches, of the martyred Lincoln; one is a superb picture of Washington that has never before been published; one is a new picture of Christ—an Easter picture—entitled "Follow Me." This picture is a wonderful one. None other of Christ is so appealing. You certainly will want one of these pictures if you ever see it.

HERE IS OUR PICTURE OFFER:

With all cash-in-advance subscriptions received from now to Jan. 15, FOUR handsome pictures.
With all subscriptions received between Jan. 15 and Feb. 15, THREE pictures.
With all subscriptions received between Feb. 15 to March 15, TWO pictures.
With all subscriptions received between March 15 and April 15, ONE picture—that of Christ.
And with the four pictures, you get a year's subscription to THE BEND BULLETIN and Farm and Fireside.

What Is Farm and Fireside?

It is not enough that Farm and Fireside has stood in the front rank of farm papers for the last thirty years; it is not enough that it has barred all questionable advertisements from its columns and guaranteed every advertisement it accepts; Farm and Fireside has got to do more than that, and it is going to do a lot more than that: it is going to give to the farmer and his family the very best of practical and helpful material that money can buy. If it is about nothing more important than a post driver, it's going to be told by a man who can make a post driver better than he can do any other thing. We are going to carry this utility idea through the whole farm and into the kitchen door, where the farmer's wife needs labor-saving helps and practical suggestions just as much as the men folks.

Around this practical working proposition, carried out on a totally new plane, we shall forge material of interest and entertainment, which farm papers heretofore have put into the "can't afford" class.

Farm and Fireside has twelve to fifteen departments covering every phase of farm and home life. Among them are Live Stock and Dairy, Gardening, Poultry, Fruit Growing, Cooking, Fashions, Young People, etc. It prints 20 to 32 pages each issue. We can afford the best, simply because we believe the farmer will pay for the best, now that we have demonstrated our ability to give it to him.

You will find Farm and Fireside better than it has ever been thought possible to make a farm and family paper.

Here is a pointer for you-- Two weeks ago The Bulletin gave its readers

37 Columns

of reading matter; the week before, 35 columns. What other paper in the county gives even half as much?
