

## WORK STOPPED ON KLAMATH PROJECT

Settlers Ask for an Extension of Time on Payments.

SECY. GARFIELD SAYS NAY

No New Work to Be Undertaken Until Complaint of Settlers is Investigated—Other Items from Central and Southern Oregon.

All new work on the Klamath government project has been ordered discontinued for the present. In regard to this the Bonanza Bulletin says:

A communication was received Monday evening by the local reclamation office from the division headquarters at Portland, ordering the discontinuance of all work on the Klamath project, except on land which was now being covered by water.

This will mean that there will be no further progress on the project except the first unit, for the present at least. Nothing will be done on the Crater Lake system, the Keno project or the swamp lands. The worst blow will be to the upper project, the greater portion of which was confidently expected to be constructed this year.

Project Engineer Murphy stated that he had received such instructions, but stated that he had no knowledge of the reasons for same and had no information to give on the matter.

While no explanation of the order can be obtained either from the Reclamation Service or the Water Users Association, it is believed to be the result of the recent action taken by the directors and members of the association in regard to the payment of the \$30 cost for water rights. Attorney R. S. Smith was sent to Washington as a special representative of the association and the carrying out of his instructions has probably resulted in a discontinuance of work until an investigation is made.

### Shorter Items of Interest.

An automobile line will soon be established between Vale and Burns.

The machinery for the Spoo-Day-ton sawmill near Tumalo has arrived from Shaniko.

Prineville merchants have entered a vigorous objection to the proposed occupation tax ordinance, and the matter will probably be dropped.

The Coos Bay Harbor claims that the lumber shipped from Coos Bay during 1908 exceeded that shipped from Portland, and that during December it exceeded the amount shipped from all other Oregon ports combined.

Ex-Mayor Will Wurzweiler has been appointed receiver by the Mer-

chants Protective Association of Portland to take charge of the general merchandise stock of L. M. Miller & Co., at Paulina, which firm has been declared bankrupt. Mr. Wurzweiler has gone to Paulina to take over the business.—Journal.

Oscar Peterson, a Wyoming sheep buyer, spent a day or two in our burg the latter part of last week, going from here to Summer Lake and Paisley. Mr. Peterson is here for the purpose of buying 40,000 head of sheep, and no doubt will get them before he leaves the county. This purchase will cause quite a neat sum of money to be put into circulation.—Silver Lake Leader.

### Drake Claims Riparian Right.

A. M. Drake has filed suit against the D. L. & P. Co. enjoining the company from diverting more water above Bend than they are now taking out. Mr. Drake's object is to force the company to build a dam below Bend and divert the water for the "Oregon Irrigation" segregation at that point.

It is understood that Mr. Drake will contest the recent decision of the Oregon supreme court which practically annuls riparian rights, and has instituted the suit largely in order to be able to carry it up to the U. S. supreme court and test in the highest court of the land the recent decision of the Oregon supreme court. He claims that his riparian right still exists and demands that the water be allowed to flow through his lands as heretofore.

As The Bulletin understands it, there is no contention as to the right of the company to divert the water, the place of diversion only being in question.

## What Is Farm and Fireside?

It is not enough that Farm and Fireside has stood in the front rank of farm papers for the last thirty years; it is not enough that it has barred all questionable advertisements from its columns and guarantees every advertisement it accepts; Farm and Fireside has got to do more than that, and it is going to do a lot more than that; it is going to give to the farmer and his family the very best of practical and helpful material that money can buy. If it is about nothing more important than a post driver, it's going to be told by a man who can make a post driver better than he can do any one other thing. We are going to carry this utility idea through the whole farm and into the kitchen door, where the farmer's wife needs labor-saving helps and practical suggestions just as much as the men folk.

Around this practical working proposition, carried out on a totally new plane, we shall forge material of interest and entertainment, which farm papers heretofore have put into the "can't afford" class.  
Farm and Fireside has twelve to fifteen departments covering every phase of farm and home life. Among them are Live Stock and Dairy, Gardening, Poultry, Fruit Growing, Cooking, Fashions, Young People, etc. It prints 20 to 32 pages each issue. We can afford the best, simply because we believe the farmer will pay for the best, now that we have demonstrated our ability to give it to him.

You will find Farm and Fireside better than it has ever been thought possible to make a farm and family paper.

Here is a pointer for you-- Two weeks ago The Bulletin gave its readers

of reading matter; the week before, 35 columns. What other paper in the county gives even half as much?
