A Religious Author's Statement.  
Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Poley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Poley's Kidney Remedy."—Bend Drug Co.

Gophers, Sage Rats and Prairie Dogs annually devastate our fields of growing grain. Their number may be greatly diminished by a systematic warfare upon them. Every female killed before the young are born, reduces the number of pests at least ten later on.  
"Woodlark" Squirrel Poison is the most reliable and destructive agent yet devised for their extermination. It is absolutely certain in its action and every kernel is warranted to kill. Climatic changes or moisture of the earth do not destroy its strength. It requires no mixing or preparation, and is always ready for use. No other is so good. Dealers will refund the purchase price, if not as claimed.
